Action and Agency in Dialogue François Cooren, 2010-06-11 What happens when people communicate or dialogue with each other This is the daunting question that this book proposes to address by starting from a controversial hypothesis What if human interactants were not the only ones to be considered paraphrasing Austin 1962 as doing things with words That is what if other things could also be granted the status of agents in a dialogical situation Action and Agency in Dialogue Passion incarnation and ventriloquism proposes to explore this unique hypothesis by mobilizing metaphorically the notion of ventriloquism According to this ventriloquial perspective interactions are never purely local but dislocal that is they constantly mobilize figures collectives principles values emotions etc that incarnate themselves in people's discussions This highly original book which develops the analytical practical and ethical dimensions of such a theoretical positioning may be of interest to communication scholars linguists sociologists conversation analysts management and organizational scholars as well as philosophers interested in language action and ethics

The Ventriloquists E. R. Ramzipoor, 2020-08-25 Twelve year old street orphan Helene survives by living as a boy and selling copies of the country's most popular newspaper Le Soir now turned into Nazi

propaganda Helene's world changes when she befriends a rogue journalist Marc Aubrion who draws her into a secret network that publishes dissident underground newspapers. The Nazis track down Aubrion's team and give them an impossible choice: turn the resistance newspapers into a Nazi propaganda bomb that will sway public opinion against the Allies or be killed. Faced with no decision at all, Aubrion has a brilliant idea. While pretending to do the Nazis' bidding, they will instead publish a fake edition of *Le Soir* that pokes fun at Hitler and Stalin, daring to laugh in the face of their oppressors. The ventriloquists have agreed to die for a joke and they have only eighteen days to tell it.

[Christ's Ventriloquists](#) Eric Zuesse, 2012-04-01

CHRIST S VENTRILOQUISTS is a work of investigative history. It documents and describes Christianity's creation event in the year 49 or 50 in Antioch, present-day Antakya, Turkey, 20 years after Jesus had been crucified in Jerusalem for sedition against Roman rule. On this occasion, Paul broke away from the Jewish sect that Jesus had begun and he took with him the majority of this sect's members. He convinced these people that Jesus had been a god and that the way to win eternal salvation in heaven is to worship him as such. Paul here explicitly introduced for the first time anywhere the duality of the previously unitary Jewish God, a duality consisting of the Father and the Son, and he implicitly introduced also the third element of the Trinity, the Holy Ghost. This work also explains and documents the tortuous 14-year-long conflict Paul had had with this sect's leader, Jesus's brother James, a conflict which caused Paul in about the year 50 to perpetrate his coup d'état against James and to start his own new religion, Christianity. Then this historical probe documents that the four canonical Gospel accounts of the words and actions of Jesus were written decades after Jesus by followers of Paul, not by followers of Jesus, and that these writings placed into the mouth of Jesus the agenda of Paul. Paul thus effectively became, via his followers, Christ's ventriloquist.

A work such as this can be documented and produced only now, after the development during the past 70 years of modern legal forensic methodology. Previously, the only available methods which scholars have used simply assumed the honesty of intent of all classical documents, especially of canonical religious ones such as Paul's epistles and the Four Gospels. Only now is it finally possible to penetrate deeper than that, to reach the writer's intent and not merely his assertions, and to identify when this intent is to deceive instead of to inform. Whereas scholars have been able to discuss only the truth or falsity of particular canonical statements, it is now possible to discuss also the honesty or deceptiveness of individual statements. This opens up an unprecedented new research tool for historians, and CHRIST S VENTRILOQUISTS is the first work to use these new methods to reconstruct, on this legal forensic basis, not just how crimes took place but how and why major historical events, criminal or not, such as the start of Christianity, actually occurred. The author explains: "What I am doing in this work is to reconstruct from the New Testament the crucial events that produced it without assuming whether what the NT says in any given passage is necessarily true or even honest. Instead of treating the NT as a work that reports history, the NT is treated as a work whose history is itself being investigated and reported. Its origin goes back to this coup d'état that Paul perpetrated in Antioch in the year 49 or 50 against Jesus's brother James in Jerusalem."

whom Jesus in Jerusalem had appointed in the year 30 as his successor to lead the Jewish sect that Jesus had started The Gospel accounts of Jesus reflected Paul's coup d'état not actually Jesus who would be appalled at the Christian concept of Christ That concept was radically different from the Jewish concept of the messiah and Paul knew this when he created it
