In the current era of rampant incarceration and an ever-expanding prison-industrial complex, this crucial book breaks down the distorted and sensationalistic version of imprisonment found on U.S. television. Examining local and national television news, broadcast network crime dramas, and the cable television prison drama *Oz*, the book provides a comprehensive analysis of the stories and images of incarceration most widely seen by viewers in the U.S. and around the world. The textual analysis is augmented by interviews with individuals who have spent time in U.S. prisons and jails; their insights provide important context while encouraging readers to critically reflect on their own responses to television images of imprisonment. Appropriate for both undergraduates and postgraduates, *Prime Time Prisons on U.S. TV* is useful for courses in media criticism, media literacy, popular culture, television studies, and criminology. The inspiring story of activist and poet Ian Manuel, who at the age of fourteen was sentenced to life in prison. He survived eighteen years in solitary confinement—through his own determination and dedication to art—until he was freed as part of an incredible crusade by the Equal Justice Initiative. “Ian is magic. His story is difficult and heartbreaking, but he takes us places we need to go to understand why we must do better. He survives by relying on a poetic spirit, an unrelenting desire to succeed, to recover, and to love. Ian’s story says something hopeful about our future.” —Bryan Stevenson, author of *Just Mercy*

The United States is the only country in the world that sentences thirteen- and fourteen-year-old offenders, mostly youth of color, to life in prison without parole. In 1991, Ian Manuel, then fourteen, was sentenced to life without parole for a non-homicide crime. In a botched mugging attempt with some older boys, he shot a young white mother of two in the face. But as Bryan Stevenson, attorney and executive director of the Equal Justice Initiative, has insisted, none of us should be judged by only the worst thing we have ever done. Capturing the fullness of his humanity, here is Manuel’s powerful testimony of growing up homeless in a neighborhood riddled with poverty, gang violence, and drug abuse—and of his efforts to rise above his circumstances, only to find himself, partly through his own actions, imprisoned for two-thirds of his life, eighteen years of which were spent in solitary confinement. Here is the story of how he endured the savagery of the United States prison system, and how his victim, an extraordinary woman, forgave him and bravely advocated for his freedom, which was achieved by an Equal Justice Initiative push to address the barbarism of our judicial system and bring about “just mercy.” Full of unexpected twists and turns as it describes a struggle for redemption, *My Time Will Come* is a paean to the capacity of the human will to transcend adversity through determination and art—in Ian Manuel’s case, through his dedication to writing poetry. The definitive guide to surviving incarceration in a federal prison. *Federal Prison Handbook* teaches individuals facing incarceration, prisoners who are already inside, and their friends and family everything they need to know to protect themselves and their rights. The thorough information has been compiled by an advocate currently serving time at a federal prison. His insider's view of this unknown world guides inmates through the mental stresses of confinement. Equally as important, he keeps readers physically safe by explaining how to avoid the near-constant

conflicts found inside federal prisons. In detailed chapters broken down by topical areas, readers discover: \* What to expect during admissions and how to greet cellmates for the first time. \* How to communicate with the outside world through telephones, computers, and mail. \* What types of items can be purchased from the official commissary and the underground economy. \* The best ways to avoid fights, and the options that provide the greatest protection if a fight cannot be avoided. \* The knowledge required to avoid scams, schemes, theft, and other problems. \* What to do about sexual harassment or assault. \* The types of jobs available and their pay grades. \* Medical and psychological services. \* Religious activities and services. \* Entertainment, recreation, and keeping fit. \* And much more. Importantly, this text provides detailed instructions on how prisoners can protect their rights. The author is a college-educated prisoner who has fought extensively to preserve his rights and the rights of other prisoners. Incarceration can be cruel for prisoners and their loved ones. Know what to expect and make the best of this time by staying safe, remaining safe, and building a life behind bars. Prison Nation is a distant dispatch from a foreign and forbidden place--the world of America's prisons. Written by prisoners, social critics and luminaries of investigative reporting, Prison Nation testifies to the current state of America's prisoners' living conditions and political concerns. These concerns are not normally the concerns of most Americans, but they should be. From substandard medical care the inadequacy of resources for public defenders to the death penalty, the issues covered in this volume grow more urgent every day. Articles by outstanding writers such as Mumia Abu-Jamal, Noam Chomsky, Mark Dow, Judy Green, Tracy Huling and Christian Parenti chronicle the injustices of prison privatization, class and race in the justice system, our quixotic drug war, the rarely discussed prison AIDS crisis and a judicial system that rewards mostly those with significant resources or the desire to name names. Correctional facilities have become a profitable growth industry, for companies like Wackenhut that run them and companies like Boeing that use cheap prison labor. With fascinating narratives, shocking tales and small stories of hope, Prison Nation paints a picture of a world many Americans know little or nothing about. An enraging, necessary look at the private prison system, and a convincing clarion call for prison reform.” —NPR.org New York Times Book Review 10 Best Books of 2018 \* One of President Barack Obama’s favorite books of 2018 \* Winner of the 2019 J. Anthony Lukas Book Prize \* Winner of the Helen Bernstein Book Award for Excellence in Journalism \* Winner of the 2019 RFK Book and Journalism Award \* A New York Times Notable Book A ground-breaking and brave inside reckoning with the nexus of prison and profit in America: in one Louisiana prison and over the course of our country's history. In 2014, Shane Bauer was hired for \$9 an hour to work as an entry-level prison guard at a private prison in Winnfield, Louisiana. An award-winning investigative journalist, he used his real name; there was no meaningful background check. Four months later, his employment came to an abrupt end. But he had seen enough, and in short order he wrote an exposé about his experiences that won a National Magazine Award and became the most-read feature in the history of the magazine Mother Jones. Still, there was much more that he needed to say. In American Prison, Bauer weaves a much deeper reckoning with his experiences together with a thoroughly researched history of for-profit prisons in America from their origins in the decades before the Civil War. For, as he soon realized, we can't understand the cruelty of our current system and its place in the larger story of mass incarceration without understanding where it came from. Private prisons became entrenched in the South as part of a systemic effort to keep the African-American labor force in place in the aftermath of slavery, and the echoes of these shameful origins are with us still. The private prison system is deliberately unaccountable to public scrutiny. Private prisons are not incentivized to tend to the health of their inmates, or to feed them well, or to attract and retain a highly-trained prison staff. Though Bauer befriends some of his colleagues and sympathizes with their plight, the chronic dysfunction of their lives only adds to the prison's sense of chaos. To his horror, Bauer finds himself becoming crueler and more aggressive the longer he works in the prison, and he is far from alone. A blistering indictment of the private prison system, and the powerful forces that drive it, American Prison is a necessary human document about the true face of justice in America. Clearinghouse case PC-MI-0022. Something clearly is wrong with the current justice system in which repeat incarceration is high, injustice is rampant, and 25 percent of African-American males can expect to spend time behind bars. Colson's biblical ideas for reform have the potential to turn the system around, keep

innocent people out of prison, and give victims some relief. A "persuasive and essential" (Matthew Desmond) work that will forever change how we look at life after prison in America through Miller's "stunning, and deeply painful reckoning with our nation's carceral system" (Heather Ann Thompson). Each year, more than half a million Americans are released from prison and join a population of twenty million people who live with a felony record. Reuben Miller, a chaplain at the Cook County Jail in Chicago and now a sociologist studying mass incarceration, spent years alongside prisoners, ex-prisoners, their friends, and their families to understand the lifelong burden that even a single arrest can entail. What his work revealed is a simple, if overlooked truth: life after incarceration is its own form of prison. The idea that one can serve their debt and return to life as a full-fledge member of society is one of America's most nefarious myths. Recently released individuals are faced with jobs that are off-limits, apartments that cannot be occupied and votes that cannot be cast. As *The Color of Law* exposed about our understanding of housing segregation, *Halfway Home* shows that the American justice system was not created to rehabilitate. Parole is structured to keep classes of Americans impoverished, unstable, and disenfranchised long after they've paid their debt to society. Informed by Miller's experience as the son and brother of incarcerated men, captures the stories of the men, women, and communities fighting against a system that is designed for them to fail. It is a poignant and eye-opening call to arms that reveals how laws, rules, and regulations extract a tangible cost not only from those working to rebuild their lives, but also our democracy. As Miller searchingly explores, America must acknowledge and value the lives of its formerly imprisoned citizens. A Prison legal news book. "A powerful document of the inner lives and creative visions of men and women rendered invisible by America's prison system. More than two million people are currently behind bars in the United States. Incarceration not only separates the imprisoned from their families and communities; it also exposes them to shocking levels of deprivation and abuse and subjects them to the arbitrary cruelties of the criminal justice system. Yet, as Nicole Fleetwood reveals, America's prisons are filled with art. Despite the isolation and degradation they experience, the incarcerated are driven to assert their humanity in the face of a system that dehumanizes them. Based on interviews with currently and formerly incarcerated artists, prison visits, and the author's own family experiences with the penal system, *Marking Time* shows how the imprisoned turn ordinary objects into elaborate works of art. Working with meager supplies and in the harshest conditions—including solitary confinement—these artists find ways to resist the brutality and depravity that prisons engender. The impact of their art, Fleetwood observes, can be felt far beyond prison walls. Their bold works, many of which are being published for the first time in this volume, have opened new possibilities in American art. As the movement to transform the country's criminal justice system grows, art provides the imprisoned with a political voice. Their works testify to the economic and racial injustices that underpin American punishment and offer a new vision of freedom for the twenty-first century." *Inside This Place, Not of It* reveals some of the most egregious human rights violations within women's prisons in the United States. Here, in their own words, thirteen narrators recount their lives leading up to incarceration and their harrowing struggle for survival once inside. Among the narrators: Theresa, who spent years believing her health and life were in danger, being aggressively treated with a variety of medications for a disease she never had. Only on her release did she discover that an incompetent prison medical bureaucracy had misdiagnosed her with HIV. Anna, who repeatedly warned apathetic prison guards about a suicidal cellmate. When the woman killed herself, the guards punished Anna in an attempt to silence her and hide their own negligence. Teri, who was sentenced to up to fifty years for aiding and abetting a robbery when she was only seventeen. A prison guard raped Teri, who was still a teenager, and the assaults continued for years with the complicity of other staff. PULITZER PRIZE WINNER • The definitive history of the infamous 1971 Attica Prison uprising, the state's violent response, and the victim's decades-long quest for justice. • Thompson served as the Historical Consultant on the Academy Award-nominated documentary feature *ATTICA* "Gripping ... deals with racial conflict, mass incarceration, police brutality and dissembling politicians ... Makes us understand why this one group of prisoners [rebelled], and how many others shared the cost." —The New York Times On September 9, 1971, nearly 1,300 prisoners took over the Attica Correctional Facility in upstate New York to protest years of mistreatment. Holding guards and civilian employees hostage, the prisoners negotiated with officials for improved conditions

during the four long days and nights that followed. On September 13, the state abruptly sent hundreds of heavily armed troopers and correction officers to retake the prison by force. Their gunfire killed thirty-nine men—hostages as well as prisoners—and severely wounded more than one hundred others. In the ensuing hours, weeks, and months, troopers and officers brutally retaliated against the prisoners. And, ultimately, New York State authorities prosecuted only the prisoners, never once bringing charges against the officials involved in the retaking and its aftermath and neglecting to provide support to the survivors and the families of the men who had been killed. Drawing from more than a decade of extensive research, historian Heather Ann Thompson sheds new light on every aspect of the uprising and its legacy, giving voice to all those who took part in this forty-five-year fight for justice: prisoners, former hostages, families of the victims, lawyers and judges, and state officials and members of law enforcement. *Blood in the Water* is the searing and indelible account of one of the most important civil rights stories of the last century. (With black-and-white photos throughout) Follows the astonishing trail from prison administrators to politicians working in collusion to maximise profits from the prison system. From investment banks, taser gun manufacturers, telephone companies, health care providers and the US military, this network of perversely motivated interests has turned imprisonment into a lucrative business. An essential read for those interested in the criminal justice system, this incisive and deftly researched volume shows how billions of dollars of public money line the pockets of private enterprises.

Excerpt from *The Joliet Prison Post*, 1914, Vol. 1: Devoted to Prison News I umpire their ball games because I like base ball and enjoy being with them, and I find that my presence at recreation has a good effect in checking profanity. I reason that the more I interest myself in their daily lives the stronger my influence with them will be because of the confidence thus gained. The prison day school, which is under my supervision, was started in October and will be continued at least until May. It may be suspended during the hot weather. As a day school it is an innovation, as, previously, the prison had known only evening schools, and these were limited to two sessions every week, of one and one-half hours duration each. These were held in one school room in each wing, where fourteen classes recited at one time. The new administration has provided four school rooms, and every prisoner who so desires may absent himself from work for one hour per day in order to attend. This privilege depends only upon good behavior in the school and application to the studies.

Elsner presents an extraordinary, comprehensive, shocking expose of the American prison system. With more than two million inmates, the impact of this topic reaches far into the general population to family members, citizens, and human rights activists. Readers learn why the prison epidemic matters to them, even if they've never met anyone who's gone to jail, and learn what it's really like on the inside with racial gangs, corruption, and sickness. Named one of the most important nonfiction books of the 21st century by *Entertainment Weekly*, *Slate*, *Chronicle of Higher Education*, *Literary Hub*, *Book Riot*, and *Zora* A tenth-anniversary edition of the iconic bestseller—"one of the most influential books of the past 20 years," according to the *Chronicle of Higher Education*—with a new preface by the author "It is in no small part thanks to Alexander's account that civil rights organizations such as Black Lives Matter have focused so much of their energy on the criminal justice system." —Adam Shatz, *London Review of Books* Seldom does a book have the impact of Michelle Alexander's *The New Jim Crow*. Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the *New York Times* bestseller list. Most important of all, it has spawned a whole generation of criminal justice reform activists and organizations motivated by Michelle Alexander's unforgettable argument that "we have not ended racial caste in America; we have merely redesigned it." As the *Birmingham News* proclaimed, it is "undoubtedly the most important book published in this century about the U.S." Now, ten years after it was first published, *The New Press* is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement today. At 2.26 million, incarcerated Americans not only outnumber the nation's

fourth-largest city, they make up a national constituency bound by a shared condition. *Fourth City: Essays from the Prison in America* presents more than seventy essays from twenty-seven states, written by incarcerated Americans chronicling their experience inside. In essays as moving as they are eloquent, the authors speak out against a national prison complex that fails so badly at the task of rehabilitation that 60% of the 650,000 Americans released each year return to prison. These essays document the authors' efforts at self-help, the institutional resistance such efforts meet at nearly every turn, and the impact, in money and lives, that this resistance has on the public. Directly confronting the images of prisons and prisoners manufactured by popular media, so-called reality TV, and for-profit local and national news sources, *Fourth City* recognizes American prisoners as our primary, frontline witnesses to the dysfunction of the largest prison system on earth. Filled with deeply personal stories of coping, survival, resistance, and transformation, *Fourth City* should be read by every American who believes that law should achieve order in the cause of justice rather than at its cost. Prisons operate according to the clockwork logic of our criminal justice system: we punish people by making them "serve" time. *The Cage of Days* combines the perspectives of K. C. Carceral, a formerly incarcerated convict criminologist, and Michael G. Flaherty, a sociologist who studies temporal experience. Drawing from Carceral's field notes, his interviews with fellow inmates, and convict memoirs, this book reveals what time does to prisoners and what prisoners do to time. Carceral and Flaherty consider the connection between the subjective dimensions of time and the existential circumstances of imprisonment. Convicts find that their experience of time has become deeply distorted by the rhythm and routines of prison and by how authorities ensure that an inmate's time is under their control. They become obsessed with the passage of time and preoccupied with regaining temporal autonomy, creating elaborate strategies for modifying their perception of time. To escape the feeling that their lives lack forward momentum, prisoners devise distinctive ways to mark the passage of time, but these tactics can backfire by intensifying their awareness of temporality. Providing rich and nuanced analysis grounded in the distinctive voices of diverse prisoners, *The Cage of Days* examines how prisons regulate time and how prisoners resist the temporal regime. Traces the history of prison reform in the United States, as the reformers attempt to set up a system that would deter further crime and rehabilitate convicts come into conflict with the need to punish and the inherent character of imprisonment. *Key Issues in Corrections* is an engaging textbook critically analyzing the most important challenges affecting the correctional system in the USA. Written by a highly respected expert in the field, and building on his best-selling book *Special problems in corrections*, it examines long-standing and emerging issues, grounding the discussion in empirical research and current events. Updates to this edition include: • Integrating new scholarship, lawsuits, and the use of technology • The introduction and evaluation of new policies and practices • New sections on "The Privatization of Prisons" and "The Death Penalty" Primarily written for undergraduate students who have already had an introduction to the topic, the book offers a no-nonsense approach to explaining the problems of correctional officers, correctional managers, prisoners, and the public. "Expert and well-reasoned commentary on the justice system . . . His writings are dangerous."—The Village Voice In *Jailhouse Lawyers*, award-winning journalist and death-row inmate Mumia Abu-Jamal presents the stories and reflections of fellow prisoners-turned-advocates who have learned to use the court system to represent other prisoners—many uneducated or illiterate—and, in some cases, to win their freedom. In Abu-Jamal's words, "This is the story of law learned, not in the ivory towers of multi-billion-dollar endowed universities [but] in the bowels of the slave-ship, in the dank dungeons of America." Includes an introduction by Angela Y. Davis. Mumia Abu-Jamal's books include *Live From Death Row* and *Death Blossoms*. Thomas Jefferson developed the idea for the Virginia State Penitentiary and set the standard for the future of the American prison system. Designed by U.S. Capitol and White House architect Benjamin Latrobe, the "Pen" opened its doors in 1800. Vice President Aaron Burr was incarcerated there in 1807 as he awaited trial for treason. The prison endured severe overcrowding, three fires, an earthquake and numerous riots. More than 240 prisoners were executed there by electric chair. At one time, the ACLU called it the "most shameful prison in America." The institution was plagued by racial injustice, eugenics experiments and the presence of children imprisoned among adults. Join author Dale Brumfield as he charts the 190-year history of the iconic prison. "Shines the harsh light of truth on a forgotten--and whitewashed--chapter of American history. Graphic and sometimesappalling, James R. Hall's account of conditions at Indianapolis's Camp Morton is necessary reading for anyone who prefers genuine history to the sanitized version."--Brian D. Smith, member, Pulitzer Prize-winning reporting team, Fort Wayne News-Sentinel , 1983 The term "prison abuse scandal" has become a familiar phrase in our lifetime. But long before this phrase was used on the nightly news, truths

about the treatment of enemy prisoners were defiantly denied, and the media-whose primary sources (much like today) were politicians and military officials-inevitably distorted the facts. In the case of Camp Morton, however, records exist from the firsthand accounts of prisoners, who were extremely vocal about their experiences after the Civil War ended. Confederate veterans who had been held at Camp Morton and heard that prominent Union officials were calling it a "model" Civil War prison were enraged and inspired to proclaim the truth about their suffering. Their experiences first were revealed publicly by former Morton prisoner, prominent physician, and medical researcher Dr. John A. Wyeth. James R. Hall has picked up where Dr. Wyeth left off, making the Camp Morton controversy known to a new generation. *Den of Misery: Indiana's Civil War Prison* details the cover-ups and denials as well as the cruel realities of the prison camp and chronicles the efforts by Confederate veterans to make known the truth about their experiences. The author includes a full list of prisoners who died at Camp Morton and are buried in a mass grave in Indianapolis. San Quentin State Prison, California's oldest prison and the nation's largest, is notorious for once holding America's most dangerous prisoners. But in 2008, the *Bastille-by-the-Bay* became a beacon for rehabilitation through the prisoner-run newspaper the *San Quentin News*. *Prison Truth* tells the story of how prisoners, many serving life terms, transformed the prison climate from what Johnny Cash called a living hell to an environment that fostered positive change in inmates' lives. Award-winning journalist William J. Drummond takes us behind bars, introducing us to Arnulfo García, the visionary prisoner who led the revival of the newspaper. Drummond describes how the *San Quentin News*, after a twenty-year shutdown, was recalled to life under an enlightened warden and the small group of local retired newspaper veterans serving as advisers, which Drummond joined in 2012. Sharing how officials cautiously and often unwittingly allowed the newspaper to tell the stories of the incarcerated, *Prison Truth* illustrates the power of prison media to humanize the experiences of people inside penitentiary walls and to forge alliances with social justice networks seeking reform. Clearinghouse case JC-GA-0033. On October 22, 2007, the *Prison Legal News* (PLN), the publisher of a monthly magazine on prison issues, filed suit pursuant to 42 U.S.C. § 1983 in the U.S. ... Additional Detail Found in Record. A crime reporter's thrilling account of the infamous 2015 prison break, manhunt, and capture based on interviews with one of the inmates who pulled it off. On June 6, 2015, inmates Richard Matt and David Sweat escaped from Clinton Correctional Facility, New York State's largest maximum-security prison. The media was instantly obsessed with the story: Aided by a prison seamstress, who smuggled hacksaw blades, chisels, and drill bits inside the facility via a vat of raw hamburger meat, the two convicted murderers sliced their way through steel cell walls, navigated a maze of tunnels, climbed out of a manhole, and walked off into the night. After nearly three weeks on the run, US Customs and Border Patrol agent Chris Voss shot and killed Matt on June 26, 2015. Two days later, New York State Police Sgt. Jay Cook shot Sweat twice in the back. He survived. While some details of this elaborate modern-day prison break have come to light, only one reporter has spoken directly to Sweat. In *Wild Escape*, he answers the most important question in the case: Of all the inmates who dream of escape, why was he the one who could make it happen? "The details Marcius has amassed are comprehensive and stunning and serve to heighten the impact of her story. This is first-rate journalism, written about a crime and a criminal from the inside out." —Stephen Singular, *New York Times*—bestselling author of *Talked to Death* "Marcius writes with genuine narrative power. Her depth of research provides insights into this historical escape that we can't get anywhere else." —Anthony Flacco, *New York Times* and international bestselling author of *The Road Out of Hell*
