The First 100 Days of Platoon Leadership - Handbook (Lessons and Best Practices) Sep 02 2021 The platoon leader and platoon sergeant are two of the most important leaders in the U.S. Army. The way platoon leaders and sergeants work together as a team can cause the success or failure of companies, battalions, brigades, and divisions. They represent the leading edge of leadership on and off the battlefield. On the battlefield, platoon leaders and sergeants build their platoons, empower squad leaders, integrate outside elements, and use troop-leading procedures to plan and lead. Off the battlefield, platoon leaders and sergeants prepare their platoon for combat through tough training. The platoon leader and platoon sergeant's ability to coach, teach, and mentor their Soldiers leads directly to the readiness of our formations. World-wide, platoon leaders and sergeants are personally leading the U.S. Army at the lowest level. This handbook is a guide for new leaders to help prepare them for a critical crucible of leadership that will determine the U.S. Army's ability to fight and win our country's wars.

The Noncommissioned Officer and Petty Officer Mar 21 2023 The Noncommissioned Officer and Petty Officer BACKBONE of the Armed Forces. Introduction The Backbone of the Armed Forces To be a member of the United States Armed Forces--to wear the uniform of the Nation and the stripes, chevrons, or anchors of the military Services--is to continue a legacy of service, honor, and patriotism that transcends generations. Answering the call to serve is to join the long line of selfless patriots who make up the Profession of Arms. This profession does not belong solely to the United States. It stretches across borders and time to encompass a culture of service, expertise, and, in

most cases, patriotism. Today, the Nation's young men and women voluntarily take an oath to support and defend the Constitution of the United States and fall into formation with other proud and determined individuals who have answered the call to defend freedom. This splendid legacy, forged in crisis and enriched during times of peace, is deeply rooted in a time-tested warrior ethos. It is inspired by the notion of contributing to something larger, deeper, and more profound than one's own self. Notice: This is a printed Paperback version of the "The Noncommissioned Officer and Petty Officer BACKBONE of the Armed Forces". Full version, All Chapters included. This publication is available (Electronic version) in the official website of the National Defense University (NDU). This document is properly formatted and printed as a perfect sized copy 6x9".

Army Leadership and the Profession (ADP 6-22) Sep 14 2022 ADP 6-22 describes enduring concepts of leadership through the core competencies and attributes required of leaders of all cohorts and all organizations, regardless of mission or setting. These principles reflect decades of experience and validated scientific knowledge. An ideal Army leader serves as a role model through strong intellect, physical presence, professional competence, and moral character. An Army leader is able and willing to act decisively, within superior leaders' intent and purpose, and in the organization's best interests. Army leaders recognize that organizations, built on mutual trust and confidence, accomplish missions. Every member of the Army, military or civilian, is part of a team and functions in the role of leader and subordinate. Being a good subordinate is part of being an effective leader. Leaders do not just lead subordinates—they also lead other leaders. Leaders are not limited to just those designated by position, rank, or authority.

A Soldier's Play Oct 04 2021 Winner of the Pulitzer Prize for Drama, 1982 A black sergeant cries out in the night, "They still hate you," then is shot twice and falls dead. Set in 1944 at Fort Neal, a segregated army camp in Louisiana, Charles Fuller's forceful drama--which has been regularly seen in both its original stage and its later screen version starring Denzel Washington--tracks the investigation of this murder. But *A Soldier's Play* is more than a detective story: it is a tough, incisive exploration of racial tensions and ambiguities among blacks and between blacks and whites that gives no easy answers and assigns no simple blame.

The Horde Jun 11 2022 Cundill Prize Finalist A Financial Times Book of the Year A Spectator Book of the Year A Five Books Book of the Year The Mongols are known for one thing: conquest. But in this first comprehensive history of the Horde, the western portion of the Mongol empire that arose after the death of Chinggis Khan, Marie Favereau takes us inside one of the most powerful engines of economic integration in world history to show that their accomplishments extended far beyond the battlefield. Central to the extraordinary commercial boom that brought distant civilizations in contact for the first time, the Horde had a unique political regime—a complex power-sharing arrangement between the khan and nobility—that rewarded skillful administrators and fostered a mobile, innovative economic order. From their capital on the lower Volga River, the Mongols influenced state structures in Russia and across the Islamic world, disseminated sophisticated

theories about the natural world, and introduced new ideas of religious tolerance. An eloquent, ambitious, and definitive portrait of an empire that has long been too little understood, *The Horde* challenges our assumptions that nomads are peripheral to history and makes it clear that we live in a world shaped by Mongols. "The Mongols have been ill-served by history, the victims of an unfortunate mixture of prejudice and perplexity...The Horde flourished, in Favereau's fresh, persuasive telling, precisely because it was not the one-trick homicidal rabble of legend." —Wall Street Journal "Fascinating...The Mongols were a sophisticated people with an impressive talent for government and a sensitive relationship with the natural world...An impressively researched and intelligently reasoned book." —The Times

I Have the Watch Aug 02 2021 When you're a leader, you have the watch. Through seven deployments commanding sailors in the complex and dangerous world of nuclear submarine warfare, Jon Rennie experienced a deep form of leadership. On a sub, there is no escape. No "after work." No home to commute to. You live and lead side-by-side with the crew, every day. What Rennie didn't realize was how much his time underwater prepared him to lead global industrial businesses and startups across multiple industries. Becoming a leader worth following begins--and ends--with people. "This book cuts to the heart of the matter of leadership: it's all about people." Says Joshua D. Cotton, PhD, Founder and CEO, VetStoreUSA With a special foreword by John Brubaker, Author of *Seeds of Success*, Rennie lays out a case for becoming a people-centered leader. Leaders have the watch. They are not only accountable for the results of the organization, but they are also responsible for the people who work for them. Leadership is a people business. The actions of a leader will have a deep impact on the lives and careers of the people they are responsible for. Natasha Goldstein, Founder and CEO, The Accountkeepers says, "As the founder of a fast-

growing, people-based business, I could not put this book down. Unlike any other book on leadership I've read, Jon boils it down to what really matters: how you treat people."Great leaders know that employees who are respected, appreciated, and are given the chance to grow will go the extra mile for your organization. This book provides real-world leadership wisdom written from a hands-on perspective. If you want to be a more effective leader, this is the one book you should read this year."Start becoming a better leader today by reading this book."
