Using an easy-to-reference format, experienced editor Michael Seidman shows writers how to approach fiction editing from three angles: macro editing, style editing and market editing. Writers will learn to reread their manuscript paying close attention to the continuity of narrative elements, such as point of view, characterization, sequencing and dialogue. After revising and rearranging these elements, writers will edit stylistic aspects, scanning their work with foolproof techniques that ensure proper spelling, grammar and word choice. This guide also teaches how to edit work from a marketing perspective, so writers can keep the expectations of their readership firmly in mind as they title their manuscripts and write their submissions. Michael Seidman is currently senior mystery editor at Walker. Previously, he was editor-in-chief at Mysterious Press, as well as an editor for several other publishing houses. He has written for a variety of publications, including Writer's Digest. Seidman lectures at more than a dozen writing conferences every year and lives in New York City. For readers of Being Mortal and When Breath Becomes Air, the acclaimed founder of Death over Dinner offers a practical, inspiring guide to life's most difficult yet important conversation. Of the many critical conversations we will all have throughout our lifetime, few are as important as the ones discussing death—and not just the practical considerations, such as DNRs and wills, but what we fear, what we hope, and how we want to be remembered. Yet few of these conversations are actually happening. Inspired by his experience with his own father and countless stories from others who regret not having these conversations, Michael Hebb cofounded Death Over Dinner—an organization that encourages people to pull up a chair, break bread, and really talk about the one thing we all have in common. Death Over Dinner has been one of the most effective end-of-life awareness campaigns to date; in just three years, it has provided the framework and inspiration for more than a hundred thousand dinners focused on having these end-of-life conversations. As Arianna Huffington said, "We are such a fast-food culture, I love the idea of making the dinner last for hours. These are the conversations that will help us to evolve." Let's Talk About Death (over Dinner) offers keen practical advice on how to have these same conversations—not just at the dinner table, but anywhere. There's no one right way to talk about death, but Hebb shares time—and dinner—tested prompts to use as conversation starters, ranging from the spiritual to the practical, from analytical to downright funny and surprising. By transforming the most difficult conversations into an opportunity, they become celebratory and meaningful—ways that not only can change the way we die, but the way we live. THIS SERIES Over the last few decades, I've interviewed nearly 2,000 world travelers and adventurers. I am weaving the best of their nearly 10,000 fantastic travel tales into a psychology of travel as revealed by these very telling stories. These are travelers I've encountered on planes, trains, buses, ships, tours, safaris, and in campgrounds, hotels, restaurants, cafes, and pubs. These courageous travelers have freely shared their most personal travel experiences, some good and wonderful and others even horrific and life-threatening, which I, in turn, get to share with you now through my True Travel Tales series. THIS BOOK Travel Tales: Michael's Own Top 25, is the first book of the True Travel Tales series and includes the 25 best of my own personal travel tales in my rich and varied travel life that has taken me to more than 125 countries. For the full collection of the 150 best of my own personal travel tales -- (that actually includes the entirety of this first book as Part 1 of three) --you may want to read instead the expanded collection of 150 stories included in Michael's Own Best 150. I would recommend you skip the lite version, Michael's Own Top 25, altogether, and obtain, the expanded edition, Michael's Own Best 150. But if you are only initially interested in a first look at the True Travel Tales series, then Michael's Own Top 25 would be a good choice. My travel tales include a selection of my best, worst, funniest, most embarrassing, and truly most horrific travel experiences, that by virtue of their emotional impact upon me have now become my most memorable and interesting travel stories today. From my unique perspective of being the world's first 'travel psychologist,' I think you'll find my own personal travel experiences riveting, informative, funny, and entertaining. Please enjoy! While some people say that some of my stories are riotous, others say that I should be kept locked up at home and not allowed to travel anywhere! These events as revealed in my travel tales, as unbelievable as some of them may seem to be, really did happen to me! A Lightworker is someone who has a rare gift: the ability to lend their healing energy to a planet that is now heavy with fear and negativity. But Lightworkers aren’t necessarily well-known spiritual gurus—they are also musicians and artists, shopkeepers, accountants, stay-at-home moms, and people you pass on the street. They share their gifts in many ways; by speaking out for those who have no voice, creating glorious works of art that uplift our planet, or perhaps writing music that elevates our spirits. But many Lightworkers have forgotten their divine purpose. They live among us, unaware of who they really are. And we can’t always recognize them or fully understand their special qualities. But one thing is certain: the Earth is more in need of them than ever before. Here, Sahvanna Arienta—long-time psychic medium and intuitive advisor with clientele from around the globe—shows how to: Discover the true origin of your soul Realize your unique gifts Learn how anxiety, depression, or addiction may actually be signs of a Lightworker's highly sensitive nature Transform you sensitivities into extrasensory perceptions And use these qualities as healing powers Sahvanna Arienta’s Lightworker will change the way you view yourself and your life’s challenges and to discover your true place in the world. Praise for The Sisters Grimm: A Very Grimm Guide "Visually, the guide is stunning and showcases intriguing side characters." -VOYA From the author of Willing Spirits' a novel of three women, their deepest longings, and their most profound secrets. Barbara, Kaye, and Ellen, longtime friends, are inseparable but each nurtures her own secret. As a widowed mother, Barbara hides her persona as a writer of erotica. Kaye is having an extramarital affair that reawakens her passion but fills her with conflict. Ellen has lost her husband to a younger woman who is now pregnant—a painful blow, since Ellen and her husband were never able to conceive. But she is not childless? Ellen is still haunted by the memory of the baby girl she had at sixteen and was forced to relinquish at birth. Estranged from her family, Ellen realizes that if she is ever to find her lost daughter—now a grown woman herself—she will have to confront her shame and rely on her dearest friends. Vanity Fair columnist Michael Kinsley escorts his fellow Boomers through the door marked "Exit." The notorious baby boomers—the largest age cohort in history—are approaching the end and starting to plan their final moves in the game of life. Now they are asking: What was that all about? Was it about acquiring things or changing the world? Was it about keeping all your marbles? Or is the only thing that counts after you're gone the reputation you leave behind? In this series of essays, Michael Kinsley uses his own battle with Parkinson's disease to unearth answers to questions we are all at some time forced to confront. "Sometimes," he writes, "I feel like a scout from my generation, sent out ahead to experience in my fifties what even the healthiest Boomers are going to experience in their sixties, seventies, or eighties." This surprisingly cheerful book is at once a fresh assessment of a generation and a frequently funny account of one man's journey toward the finish line. "The least misfortune can do to make up for itself is to be interesting," he writes. "Parkinson's disease has fulfilled that obligation." The New York Times bestseller: "Hilarious. No mushy tribute to the joys of fatherhood, Lewis' book addresses the good, the bad, and the merely baffling about having kids."—Boston Globe When Michael Lewis became a father, he decided to keep a written record of what actually happened immediately after the birth of each of his three children. This book is that record. But it is also something else: maybe the funniest, most unsparing account of ordinary daily household life ever recorded, from the point of view of the man inside. The remarkable thing about this story isn't that Lewis is so unusual. It's that he is so typical. The only wonder is that his wife has allowed him to publish it. If you're going to read one book about Hollywood, this is the one. As the co-founder of Creative Artists Agency, Michael Ovitz earned a reputation for ruthless negotiation, brilliant strategy, and fierce loyalty to his clients. He reinvented the role of the agent and helped shape the careers of hundreds of A-list entertainers, directors, and writers, including Steven Spielberg, Martin Scorsese, Meryl Streep, Sean Connery, Bill Murray, Robin Williams, and David Letterman. But this personal history is much more than a fascinating account of celebrity friendships and bare-knuckled dealmaking. It's also an underdog's story: How did a middle-class kid from Encino work his way into the William Morris mailroom, and eventually become the most powerful person in Hollywood? How did an agent (even a superagent) also become a power in producing, advertising, mergers & acquisitions, and modern art? And what were the personal consequences of all those deals? After decades of near-silence in the face of controversy, Ovitz is finally telling his whole story, with remarkable candor and insight. Written by one of the country's leading tea professionals, this work is an illuminating resource for tea drinkers interested in developing and refining their palate as well as their understanding of the complex agricultural, historical, and cultural significance of tea. From politics and religion to workplace negotiations, ace the high-stakes conversations in your life with this indispensable guide from a persuasion expert. In our current political climate, it seems impossible to have a reasonable conversation with anyone who has a different opinion. Whether you're online, in a classroom, an office, a town hall—or just hoping to get through a family dinner with a stubborn relative—dialogue shuts down when perspectives clash. Heated debates often lead to insults and shaming, blocking any possibility of productive discourse. Everyone seems to be on a hair trigger. In How to Have Impossible Conversations, Peter Boghossian and James Lindsay guide you through the straightforward, practical, conversational techniques necessary for every successful conversation—whether the issue is climate change, religious faith, gender identity, race, poverty, immigration, or gun control. Boghossian and Lindsay teach the subtle art of instilling doubts and opening minds. They cover everything from learning the fundamentals for good conversations to achieving expert-level techniques to deal with hardliners and extremists. This book is the manual everyone needs to foster a climate of civility, connection, and empathy. "This is a self-help book on how to argue effectively, conciliate, and gently persuade. The authors admit to getting it wrong in their own past conversations. One by one, I recognize the same mistakes in me. The world would be a better place if everyone read this book." —Richard Dawkins, author of Science in the Soul and Outgrowing God Michael Brein's Travel Guide Series to Sightseeing by Public Transportation shows travelers how to go to the top 50 visitor attractions by public transportation in a variety of the world's most popular tourist destination cities. Music history is a required course for all music students. Unfortunately, the typical music history book is dry and academic, focusing on rote memorization of important composers and works. This leads many to think that the topic is boring, but bestselling author Michael Miller proves that isn't so. This guide makes music history interesting and fun, for both music students and older music lovers. • Covers more than Western "classical" music—also includes non-Western music and uniquely American forms such as jazz • More than just names and dates—puts musical developments in context with key historical events When many birders go out looking at shorebirds, they see a distant mud flat full of grayish brown birds in various shapes and sizes and have no idea where to begin the identification process. When advanced birders look at that same flock of shorebirds, they can identify the vast majority of birds with a quick binocular scan. Experts use the simplest, most easily observed characteristics--size, structure, behavior, and general color patterns--almost subconsciously, and can identify most birds even before looking carefully at plumage details. Now birders of all levels can learn how to identify these wildly popular birds quickly and with much less effort. This guide provides more than 870 stunning color photographs, sequenced to give a general impression of a species first and progressing to a more detailed image of the bird throughout its life cycle. Captions list characteristics in order of importance, reflecting the thought process that experts use to identify birds. Explores and explains the context of Dan Brown's thriller "The Da Vinci Code", from how the early Christian Church 'edited' "The Bible" to the true history of the holy grail, and to what art historians make of Leonardo Da Vinci's symbolism in the "Last Supper" and other works. The ultimate guide to unlocking and showcasing your talent includes tips, tricks and advice for nailing those singing and dancing auditions. Original.
