New Testament Studies. VI. Mar 30 2021

The Book of Revelation and its Eastern Commentators Jun 01 2021 In this volume, T.C. Schmidt offers a new perspective on the formation of the New Testament by examining it simply as a Greco-Roman 'testament', a legal document of great authority in the ancient world. His work considers previously unexamined parallels between Greco-Roman juristic standards and the authorization of Christianity's holy texts. Recapitulating how Greco-Roman testaments were created and certified, he argues that the book of Revelation possessed many testamentary characteristics that were crucial for lending validity to the New Testament. Even so, Schmidt shows how Revelation fell out of favor amongst most Eastern Christian communities for over a thousand years until commentators rehabilitated its status and reintegrated it into the New Testament. Schmidt uncovers why so many Eastern churches neglected Revelation during this period, and then draws from Greco-Roman legal practice to describe how Eastern commentators successfully argued for Revelation's inclusion in the New Testaments of their Churches.

God and History in the Book of Revelation Jan 09 2022 This is an interdisciplinary study which constructs a dialogue between biblical interpretation and systematic theology. It examines how far a reading of the Book of Revelation might either support or question the work of leading theologians Wolfhart Pannenberg and Jürgen Moltmann on the theology of history, exploring the way in which the author of Revelation uses the dimensions of space and time to make theological points about the relationship between God and history. The book argues that Revelation sets the present earthly experience of the reader in the context of God's ultimate purposes, by disclosing hidden dimensions of reality, both spatial - embracing heaven and earth - and temporal - extending into the ultimate future. Dr Gilbertson offers a detailed assessment of the theologies of history developed by Pannenberg and Moltmann, including their views on the nature of the historical process, and the use of apocalyptic ideas in eschatology.

A Century of New Testament Study Jul 03 2021 Part of the Century series - each book reviews and summarises the key developments in a particular branch of religious studies during the past century. Great changes have taken place during the past one hundred years. This is no less true of New Testament study than it is of the wider sphere of social and political life. This book not only presents a detailed survey of all the major, and many of the lesser, New Testament studies of the time, but also attempts to relate the changes in approach to the broad socio-political and international sphere. The book starts with a review of the achievements of Biblical studies to the end of the nineteenth century, and then turns to the work of the History of Religions school in Germany and reactions to it elsewhere. There follows a survey of developments leading up to the work of R. Bultmann, and then a series of detailed studies of the major post-war works in the field of Jesus, Paul, Mark and John. The book concludes with a review of recent discussions of the nature of New Testament theology. Central to the book is Bultmann's attempt to reconcile critical, historical and theological New Testament studies, and the ultimate failure of that synthesis. Reviewing recent developments and considering the future of New Testament theology, the author asks whether the time has not come for a similar attempt to integrate modern approaches to the subject.

Method, Context, and Meaning in New Testament Studies Feb 27 2021 A masterful collection of essays in New Testament studies connecting Scripture, theology, and human life What is the purpose of studying the New Testament, and how is it best approached? Esteemed professor C. Kavin Rowe explores these questions in sixteen incisive essays covering a range of topics, including: • the state of New Testament studies as a field • the relationship between historical criticism and theological reading • interdisciplinary methodology • comparative religion and New Testament Christianity • truth claims of the New Testament What unites these diverse chapters is a holistic approach to the New Testament. Studies in Canonical Criticism Oct 06 2021 As one of the leading figures in New Testament studies, Robert W. Wall has continually focused on the function of the New Testament as a "canonical" or authoritative collection of writings, reflecting not only the content and essence of the Church's emerging faith, but also the life to that community of followers of Jesus who eventually became widely known as "Christians." In the vein of his defining work, *The New Testament as Canon: A Reader in Canonical Criticism*, Wall now reflects upon his more recent body of study. Always emphasizing 'canonical conversation', Wall had collected and revised some of his most important essays of the last two decades, including *Unity of Luke and Acts* (2010), *The Unifying Theology of the Catholic Epistles* (2003-13) and *Images of Church in John's Revelation* (2015). Completed by a new essay on the canonical approach to the Paratext of Hebrews, and with vital "introductory notes" for each chapter that highlight both Wall's revisions and his response to critical reception, this book is yet one more asset in Wall's continuing pursuit of the canonical function of the church's Scriptures.

Jesus Is Lord, Caesar Is Not Apr 11 2022 This volume brings together respected biblical scholars to evaluate the turn toward "empire criticism" in recent New Testament scholarship. Seeing the Word (Studies in Theological Interpretation) Mar 23 2023 At a time of deep disagreements about the nature and purpose of academic biblical studies, Markus Bockmuehl advocates the recovery of a plural but common conversation on the subject of what the New Testament is about. *Seeing the Word* begins with an assessment of current New Testament studies, identifying both persistent challenges and some promising proposals. Subsequent chapters explore two such proposals. First, ground for common conversation lies in taking seriously the readers and readings the text implies. Second, Bockmuehl explores the text's early effective history by a study of apostolic memory in the early church. All serious students of the Bible and theology will find much of interest, and much to discuss, in this first volume in the *Studies in Theological Interpretation* series.

Various approaches in iconography are summarized and applied to the interpretation of texts, taking account of the strengths and limitations of these images, as well as possible future applications. Ancient Texts for New Testament Studies May 13 2022 One of the daunting challenges facing the New Testament interpreter is achieving familiarity with the immense corpus of related literatures. Scholars and students alike must have a fundamental understanding of the content, provenance, and utility for New Testament interpretation of a wide range of pagan, Jewish, and diversely Christian documents. *Ancient Texts for the Study of the New Testament* provides descriptions of all ancient literature that is relevant for serious study of the New Testament writings. Readers can quickly survey the literature clustered under various headings (such as the Apocrypha, Dead Sea Scrolls, or early Rabbinic literature), easily access brief definitions and descriptions, and then consider examples of how the literature sheds light on the background and interpretation of specific passages in the New Testament. There are several helpful appendices, including one that lists, beginning with Matthew and ending with Revelation, potentially significant parallels between New Testament passages and the ancient writings treated in the book. This thoroughly revised and significantly expanded edition of *Noncanonical Writings and New Testament Interpretation* examines a vast range of ancient literature, masterfully distilling details of date, language, text, and translation into an eminently usable handbook. Craig Evans evaluates the materials' relevance for interpreting the New Testament and provides essential biographies. Although the book is written at an introductory level, its comprehensive scope makes it useful even for the seasoned scholar.

De-Introducing the New Testament Jul 15 2022 In *De-Introducing the New Testament*, the authors argue for a renewed commitment to the defamiliarizing power of New Testament studies and a reclaiming of the discipline as one that exemplifies the best practices of the humanities. A new approach that asks us to 'defamiliarize' what we think we know about the New Testament, articulating themes and questions about its study that encourage further reflection and engagement. Looks behind the traditional ways in which the NT is "introduced" to critically engage the conceptual framework of the field as a whole.
