Goyal Brothers Prakashan The series Learning Elementary Chemistry for Classes 6 to 8 has been revised strictly according to the latest curriculum. The content of this series has been developed to fulfill the requirement of all the six domains (Concepts, Processes, Applications, Attitudes, Creativity and World-view) of Science, to make teaching and learning of Chemistry interesting, understandable and enjoyable for

young minds. This series builds a solid foundation for young learners to prepare them for higher classes. The main strength of the series lies in the subject matter and the experience that a learner will get in solving difficult and complex problems of Chemistry. Emphasis has been laid upon mastering the fundamental principles of Chemistry, rather than specific procedures. Unique features of this series are: } The content of the book is written in a very simple and easy to understand language. } All the Key concepts in the curriculum have been systematically covered and graded in the text. } Each theme has been divided into units followed by thought-provoking and engaging exercises to test the knowledge, understanding and applications of the concepts learnt in that unit. At the end of each theme, a comprehensive theme assignment which is aligned with the guidelines provided in National Education Policy (NEP 2020) is given. } Explanations, illustrations, diagrams, experiments and solutions to numerical problems have been included to make the subject more interesting, comprehensive and appealing. } Diagrams, illustrations and text have been integrated to enhance comprehension. } Definitions and other important scientific information are highlighted. } Throughout the series, investigations related to the text enable the learners to learn through experimentation. } Quick revision of each chapter has been given under the caption “Highlights in Review”. Online Support It provides : } Video lectures } Unit-wise interactive exercises } Chapterwise Worksheet } Solution of textbook questions (for Teachers only) } E-Book (for Teachers only) I hope this series would meet the needs and requirements of the curriculum to achieve the learning outcomes as laid down in the curriculum. Suggestions and constructive feedback for the further improvement of the book shall be gratefully acknowledged and incorporated in the future edition of the book.

— Author Goyal Brothers Prakashan Learning Mathematics - Class 8 has been written by Prof. M.L. Aggarwal in accordance with the latest syllabus of the NCERT and Guidelines issued by the CBSE on Comprehensive and Continuous Evaluation (CCE). The subject matter has been explained in a simple language and includes many examples from real life situations. Questions in the form of Fill in the Blanks, True/False statements and Multiple Choice Questions have been given under the heading ‘Mental Maths’. Some Value Based Questions have also been included to impart values among students. In addition to normal questions, some Higher Order Thinking Skills (HOTS) questions have been given to enhance the analytical thinking of the students. Each chapter is followed by a Summary which recapitulates the new terms, concepts and results. Young Geographer, a series of Geography textbooks for classes 6-8, follows the latest syllabus guidelines of Council for the Indian School Certificate Examinations. The books have an attractive layout and have been designed with interesting features and activities to facilitate students and teachers with better knowledge-sharing sessions. The series, Awareness Social

Sciences for classes VI, VII and VIII is based on the syllabus as specified by NCERT for the latest sessions. The syllabus has tried to link the academic curriculum with real life and, thus, dwelled on connecting the students' understanding with the real world around them. Accordingly, this book has incorporated real life examples , case studies, story lines and narratives which could be immensely helpful in assimilation and to inculcate interests among the students significantly. The revised edition of the series Foundation Mathematics for Classes 6, 7 and 8 is based on the latest curriculum prepared and recommended by the Council for the Indian School Certificate Examinations, New Delhi. The present mathematics curriculum aims to develop a number of Mathematical Skills (like Numerical Calculation, Algebraic Manipulation, Spatial Visualisation, Data Analysis, Measurement, Estimation and Approximation) and Mathematical Processes (like Reasoning, Communication and Connections, Problem solving and Heuristics, Estimation, Technology etc.) among students at these levels. This series has been developed and designed keeping in mind the following objectives of the latest curriculum : Students should : • Enjoy learning of mathematics. • Learn important mathematics that is much more than few formulas and mechanical procedures of solving problems. • Pose and solve meaningful problems. • See mathematics as something to talk about, to communicate, to discuss among themselves, to work together on. • Understand the basic structure of mathematics : Arithmetic, algebra, geometry and trigonometry, the basic content areas of school mathematics, all offer a methodology of abstraction, structuration and generalization
