**Missing 411-North America and Beyond** David Paulides, 2013-02-28 [www.canammissing.com](http://www.canammissing.com) This is the third Missing 411 book researching facts of people who have vanished in remote locations of the world Missing 411 North America and Beyond is the first edition that discusses missing people and relevant facts from five countries Australia England France Iceland and Indonesia outside of North America and examines the parallels between the cases The book also includes a multitude of new stories from North America There is a continuing trend of clusters of missing people in United States National Parks The National Park Service has continued with their policy of failing to keep ledgers track or otherwise document lists of missing people inside their parks and monuments This edition has cases from Florida Texas Hawaii and forty other states There are new clusters of missing people from Sequoia and Mount Rainier National Park Three Sisters Wilderness OR and Adirondacks NY Canada has missing cases from six provinces that are documented This new book brings further clarity to the missing person issue by examining multiple disappearances of people in small confined areas and exposing the similarities of their case David Paulides also exposes a series of coed disappearances that date back to the early 1900's which have unusual facts surrounding their case Missing 411 North America and Beyond is the largest and most comprehensive of the trilogy 472 pages The Missing 411 series builds upon itself It is recommended that you read Missing 411 Western United States first then the eastern version and then North America and Beyond There is a historical aspect to this issue and there are common elements that run through the disappearances One of the early reviews of Missing 411 North America and Beyond was written by New York Times Best Selling author Whitley Strieber David Paulides has shined a light onto one of the greatest and most disturbing mysteries of our time the simple and awful fact that people disappear especially in our national parks and little effort is made to find them

let alone inform the public about the danger Even when massive searches are mounted and people are found the events surrounding their loss and recovery are often far beyond logical explanation This is the most comprehensive and expertly presented series of books on the subject ever written and the latest volume which includes stories from five countries is sobering chilling and far too well researched to ignore Essential reading Whitley Strieber New York Times Best Selling Author

David Paulides, 2011 www.canammissing.com People have been disappearing under mysterious circumstances for centuries During the last 150 years the media has covered many of these cases and has attempted to put a rational spin on a very unusual event After 3 years and 7000 hours of intensive research there is a new paradigm being presented on people missing in the wilds of North America Missing 411 identifies 28 clusters of missing people who have vanished in remote areas of the continent The finding is a troubling fact questioning why and how these people have disappeared Some of the victims are found and tell a very interesting and mind bending story of their experience others are never found a fact that confounds searchers and law enforcement There are many children that have disappeared under highly unusual circumstances After weeks of searching and failing to find any evidence of the child being in a remote location many parents and law enforcement draw the conclusion that the victim was kidnapped yes taken by someone lurking in remote areas of our national parks forests farms and even ranches There are two editions of this research Missing 411 Eastern United States and Missing 411 Western United States The eastern United States copy has a list of every person who is listed in each book as well as a final conclusion to the investigation You will be shocked by the lack of interest and documentation that many of our governmental bodies have committed to missing people After reading these books you will never look at our wildlands the same

Major news organizations do a deplorable job of covering major stories and issues which are deemed too unusual or too far outside the box Chances are they will find a way to trivialize or ignore the disturbing evidence accumulated by David Paulides a former law man turned investigative journalist The paper trail uncovered by Paulides through sheer doggedness is impressive the evidence indisputable People are vanishing without a trace from our national parks and forests yet government agencies are saying nothing At a minimum this story deserves

space on the front page of every newspaper in the country and it warrants a formal high level inquiry by the federal agencies whose files leave little doubt that something very strange is unfolding in our wilderness George Knapp Host Coast to Coast AM
