Social Problems John J. Macionis, 2010 Macionis's *Social Problems* is the only social problems text that explains how society frames social problems and solutions through politics. The text analyzes social issues and policies using the concepts of sociological theory and the everyday language of politics. This text helps students understand the attitudes and values that define the political spectrum in the United States. Once students know how social problems are defined by our society through politics and how the policies to solve these problems are developed, students are able to become involved in solving social problems through activism and political involvement.

A Different Mirror Ronald Takaki, 2012-06-05 Takaki traces the economic and political history of Indians, African Americans, Mexicans, Japanese, Chinese, Irish, and Jewish people in America, with considerable attention given to instances and consequences of racism. The narrative is laced with short quotations, cameos of personal experiences, and excerpts from folk music and literature. Well-known occurrences such as the Triangle Shirtwaist Factory Fire, the Trail of Tears, the Harlem Renaissance, and the Japanese internment are included. Students may be surprised by some of the revelations but will recognize a constant thread of rampant racism. The author concludes with a summary of today's changing economic climate and offers Rodney King's challenge to all of us to try to get along. Readers will find this overview to be an accessible, cogent jumping-off place for American history and political science, plus a guide to the myriad other sources identified in the notes.

Wallet Activism Tanja Hester, 2021-11-16 2022 NATIONAL INDIE EXCELLENCE AWARDS FINALIST SOCIAL POLITICAL CHANGE 2022 ASJA ANNUAL WRITING AWARD WINNER SERVICE 2022 NAUTILUS BOOK AWARDS GOLD MEDALIST SOCIAL CHANGE SOCIAL JUSTICE 2022 AXIOM BUSINESS BOOK AWARD GOLD MEDALIST PHILANTHROPY NONPROFIT SUSTAINABILITY How do we vote with our dollars, not just to make ourselves feel good but to make a real difference? *Wallet Activism* challenges you to rethink your financial power so you can feel confident spending, earning, and saving money in ways that align with your values. While we call the American system a democracy, capitalism is the far more powerful force in our lives. The greatest power we have, especially when political leaders won't move quickly enough, is how we use our money: where we shop, what we buy, where we live, what institutions we entrust with our money, who we work for, and where we donate determines the trajectory of our society and our planet. While our votes and voices are essential too, *Wallet Activism* helps you use your money for real impact. It can feel overwhelming to determine the right way to spend; a choice that might seem beneficial to the environment may have unintended consequences that hurt people. And marketers are constantly lying to you, making it hard to know what choice is best. *Wallet Activism* empowers us to vote with our wallets by making sense of all the information coming at us and teaching us to cultivate a more holistic mindset that considers the complex, interrelated ecosystems of people and the planet together, not as opposing forces. From Tanja Hester, Our Next Life blogger and author of *Work Optional*, comes the mindset-shifting guide to help you put your money where your values are. *Wallet Activism* is not a list of dos and don'ts that will soon become outdated, nor does it call for anti-consumerist perfection. Instead, it goes beyond simple purchasing decisions to explore the impacts a financial decision can have across society and the environment. How to create a personal spending philosophy based on your values. Practical questions to quickly assess the goodness of a product or an entity you may buy from. The ethics of earning money, choosing what foods to eat, employing others, investing responsibly, choosing where to live, and giving money away. For anyone interested in leaving the world better than you found it, *Wallet Activism* helps you build habits that will make your money matter.

Marriages and Families Nijole Vaicaitis Benokraitis,1999 This textbook introduces students to the study of marriage and the family in ways they can easily relate to The text gives equal and balanced attention to people of all racial ethnic and other societal groups and treats a variety of lifestyles with equal attention The author focuses on the way families are changing and acknowledges the constraints that families face today
