Above the Well Asao B. Inoue, 2021-09-01 Above the Well explores race language and literacy education through a combination of scholarship personal history and even a bit of fiction Inoue comes to terms with his own languaging practices in his upbringing and schooling while also arguing that there are racist aspects to English language standards promoted in schools and civic life His discussion includes the ways students and everyone in society are judged by and through tacit racialized languaging which he labels White language supremacy and contributes to racialized violence in the world today Inoue's exploration ranges a wide array of topics His experiences as a child playing Dungeons and Dragons with his twin brother considerations of Taoist and Western dialectic logics the economics of race and place tacit language race wars waged in classrooms with style guides like Strunk and White's *The Elements of Style* and the damaging Horatio Alger narratives for people of color

Beyond the Archives Gesa E Kirsch, Liz Rohan, 2008-04-03 This collection of highly readable essays reveals that research is not restricted to library archives When researchers pursue information and perspectives from sources beyond the archives from existing people and places they are often rewarded with unexpected discoveries that enrich their research and their lives Beyond the Archives Research as a

Lived Process presents narratives that demystify and illuminate the research process by showing how personal experiences family history and scholarly research intersect Editors Gesa E Kirsch and Liz Rohan emphasize how important it is for researchers to tap into their passions pursuing research subjects that attract their attention with creativity and intuition without limiting themselves to traditional archival sources and research methods Eighteen contributors from a number of disciplines detail inspiring research opportunities that led to recently published works while offering insights on such topics as starting and finishing research projects using a wide range of types of sources and methods and taking advantage of unexpected leads chance encounters and simple clues In addition the narratives trace the importance of place in archival research the parallels between the lives of research subjects and researchers and explore archives as sites that resurrect personal cultural and historical memory Beyond the Archives sheds light on the creative joyful and serendipitous nature of research addressing what attracts researchers to their subjects as well as what inspires them to produce the most thorough complete and engaged scholarly work This timely and essential volume supplements traditional method textbooks and effectively models concrete practices of retrieving and synthesizing information by professional researchers

Vernacular Eloquence Peter Elbow, 2012-01-13 Since the publication of his groundbreaking books *Writing Without Teachers* and *Writing with Power* Peter Elbow has revolutionized how people think about writing Now in *Vernacular Eloquence* he makes a vital new contribution to both practice and theory The core idea is simple we can enlist virtues from the language activity most people find easiest speaking for the language activity most people find hardest writing Speech with its spontaneity naturalness of expression and fluidity of thought has many overlooked linguistic and rhetorical merits Through several easy to employ techniques writers can marshal this wisdom of the tongue to produce stronger clearer more natural writing This simple idea it turns out has deep repercussions Our culture of literacy Elbow argues functions as though it were a plot against the spoken voice the human body vernacular language and those without privilege making it harder than necessary to write with comfort or power Giving speech a central role in writing overturns

many empty preconceptions It causes readers to think critically about the relationship between speech writing and our notion of literacy Developing the political implications behind Elbow s previous books Vernacular Eloquence makes a compelling case that strengthening writing and democratizing it go hand in hand **Because We Live Here** Eli Goldblatt,2007 This book offers a new vision of postsecondary writing programs using the example of the Temple University writing program in Philadelphia In successive chapters on Temple s connections with schools community colleges and university community partnerships the author calls for literacy instruction embedded in mutual relationships among an array of institutions and across many levels *Telling Writing* Ken Macrorie,1985 Why is *Telling Writing* now in its fourth edition still going strong in hundreds of colleges and universities Ken Macrorie touches on the answer in his preface Good teaching in any field isn t a matter of employing gimmicks and choosing from a damnfool encyclopedia of tricks to play on students but a matter of setting up a climate friendly to learning and then challenging learners to connect their experience and ideas with those of the accepted authorities or producers Students can t become truly educated unless they grow out of and beyond themselves *Telling Writing* gives them an indispensable base a knowledge of themselves on which to grow Macrorie s approach works because it helps students break away from the deadly academic prose fostered by so many writing courses and enables them to write about and from their own experiences *Anywhere That Is Wild* Peter Thomas,Donna Thomas,2018-03-27 Gathered from John Muir s own writings this fascinating compilation recounts his historic first walk from the San Francisco bay to Yosemite **Envision, MLA Update** Christine L. Alfano,Alyssa J. O'Brien,2017-01-30 For courses in Argument This version of *Envision Writing and Researching Arguments* has been updated to reflect the 8th Edition of the *MLA Handbook* April 2016 Explores writing rhetoric and research by considering the different modes of argument in contemporary culture A concise and practical guide *Envision Writing and Researching Arguments* Fifth Edition is ideal for composition courses focusing on argumentation and research based writing Each chapter uses interactive and engaging lessons and focuses both on analyzing and producing words print materials articles blog posts and even tweets as well as on writing about images and other contemporary media cartoons ads photographs films video games websites and more In this way it teaches critical literacy about all kinds of texts Additionally numerous student writing examples and professional published readings both with annotations are provided to reinforce the writing lessons in each chapter and to demonstrate how students might successfully implement such strategies in their own texts Students using *Envision* will learn how to analyze and compose arguments design and conduct research projects and produce persuasive visual and oral presentations The 8th Edition introduces sweeping changes to the philosophy and details of MLA works cited entries Responding to the increasing mobility of texts MLA now encourages writers to focus on the process of crafting the citation beginning with the same questions for any source These changes then align with current best practices in the teaching of writing which privilege inquiry and critical thinking over rote recall and rule following
