Born to Run Mar 10 2024 NATIONAL BESTSELLER □ The astonishing and hugely entertaining story that completely changed the way we run. An epic adventure that began with one simple question: Why does my foot hurt? "Equal parts quest, physiology treatise, and running history.... The climactic race reads like a sprint.... It simply makes you want to run." —Outside Magazine Isolated by Mexico's deadly Copper Canyons, the blissful Tarahumara Indians have honed the ability to run hundreds of miles without rest or injury. In a riveting narrative, award-winning journalist and often-injured runner Christopher McDougall sets out to discover their secrets. In the process, he takes his readers from science labs at Harvard to the sun-baked valleys and freezing peaks across North America, where ever-growing numbers of ultra-runners are pushing their bodies to the limit, and, finally, to a climactic race in the Copper Canyons that pits America's best ultra-runners against the tribe. McDougall's incredible story will not only engage your mind but inspire your body when you realize that you, indeed all of us, were born to run. Look for Born to Run 2, out now!

The Tribe: (R)Evolution Dec 27 2022 In the sequel to the critically acclaimed best selling, 'The Tribe: A New Dawn' and 'The Tribe: A New World', 'The Tribe: (R)Evolution' is the third novel in the long awaited continuing saga based upon the cult television series 'The Tribe'. What secrets lay hidden in the ominous Eagle Mountain? Who are The Collective? And will the identity of their enigmatic leader be revealed? Where is safe if invaders of faraway lands, intent on expanding their empire and fracturing alliances of all those struggling to rebuild and survive, ruthlessly pursue their own vision for the future and quest to gain domination and absolute power? How does The Broker and The Selector fit into all the mystery surrounding Project Eden? Does anyone survive The Cube and the nightmarish Void? Can the Mall Rats overcome all the unbearable challenges and obstacles they encounter to build a new and better world from the ashes of the old? Will they conquer their adversaries and ever recover from the heartache and agonising conflicts they experience in their personal lives? Facing the very real threat of human extinction - can they endure? Adapt? Evolve? Survive? And keep their dream alive?

The Myth of the Twelve Tribes of Israel May 20 2022 The Myth of the Twelve Tribes of Israel is the first study to treat the history of claims to an Israelite identity as an ongoing historical phenomenon from biblical times to the present. By treating the Hebrew Bible's accounts of Israel as one of many efforts to construct an Israelite history, rather than source material for later legends, Andrew Tobolowsky brings a long-term comparative approach to biblical and nonbiblical "Israelite" histories. In the process, he sheds new light on how the structure of the twelve tribes tradition enables the creation of so many different visions of Israel, and generates new questions: How can we explain the enduring power of the myth of the twelve tribes of Israel? How does "becoming Israel" work, why has it proven so popular, and how did it change over time? Finally, what can the changing shape of Israel itself reveal about those who claimed it?

Born to Run Apr 11 2024 NATIONAL BESTSELLER □ The astonishing and hugely entertaining story that completely changed the way we run. An epic adventure that began with one simple question: Why does my foot hurt? "Equal parts quest, physiology treatise, and running history.... The climactic race reads like a sprint.... Summary and Analysis of Born to Run: A Hidden Tribe, Superathletes, and the Greatest Race the

World Has Never Seen Sep 04 2023 So much to read, so little time? This brief overview of Born to Run tells you what you need to know—before or after you read Christopher McDougall's book. Crafted and edited with care, Worth Books set the standard for quality and give you the tools you need to be a well-informed reader. This short summary and analysis of Born to Run by Christopher McDougall includes: Historical context Chapter-by-chapter overviews Detailed timeline of key events Important quotes Fascinating trivia Glossary of terms Supporting material to enhance your understanding of the original work About Born to Run by Christopher McDougall: Christopher McDougall's New York Times–bestselling Born to Run brought the underground sport of distance running to the forefront of American conversation, spurring trends like barefoot running and chia seeds' recognition as a superfood. Centering around two long-distance races, the second of which McDougall intends to run, the book is written in a distinctly Gonzo journalism–style. The author focuses on the Tarahumara, an ancient tribe of runners that lives isolated in Mexico's Copper Canyons, but he also pulls in plenty of other characters, past and present, and explores the biological reasons we are all born to run. The summary and analysis in this ebook are intended to complement your reading experience and bring you closer to a great work of nonfiction.

Zanzibar Feb 14 2022 This reprint of this celebrated classic text on Zanzibar makes available again the remarkably comprehensive account of the Island of Cloves, written by W. H. Ingrams and first published in 1931. Zanzibar, Its History and Its People is essentially an historical ethnography of Zanzibar. The author describes local legends, and their important social function in recording and constituting the oral history of the island. Ingrams' extensive observations and personal experiences - both on the main island of Unguja and Pemba and the smaller islands which make up Zanzibar - provide a detailed and lively account of society at the time and make engaging reading.

The Hidden Tribes Jul 02 2023 The magical tale of the Gacho tribe has turned into a curse. Deep beneath the surface land, the Dediack, Hauteloc, and Gacho tribes hide from the modern world. The Tipaco Tribe has been missing, never returning. However, the fear of a war with the Tipaco, keeps the three tribes in hiding. Thousands of years have come and gone since the war between the twelve Gacho gods arose. All except for Invisible girl has disappeared from the three remaining tribes during those years. Invisible girl, a distressed young teen, seeks excitement, wondering what lives beyond the borders of the hidden tribes. Her nights are spent safeguarding the hidden tribes on the surface. One night, Invisible girl finds excitement when a masked man visits her, sharing little information about the modern world. On a summer day, an army veteran and explorer named Reese, who happens to be the Fire God, Location changer, finds the hidden tribes. With the Chief's approval, Invisible girl leaves the hidden tribe searching for the other gods with Reese. Traveling the world with the fire god, Invisible girl manages to bring all of the twelve gods together. For a moment, Invisible girl is happier than she has ever been, until? After bringing the gods back together, the twelve find themselves dividing into two opposing groups, then reestablishing the war among the gods.

### 21.1 Running Mistakes Feb 02 2021

SUMMARY - Born To Run: A Hidden Tribe, Superathletes, And The Greatest Race The World Has Never Seen By Christopher McDougall Jan 08 2024 \* Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. As you read this summary, you will learn that running is part of human nature and that you were born to run very long distances. You will also learn : that man is built to be able to run hundreds of miles; that you have the soul of a great runner without knowing it; that it is enough to optimize your mind to run better; that the greatest runners are motivated only by the love of running; that the sports shoes you wear are the cause of your pain. Running is probably part of your daily routine: not to miss the bus, to catch up with your child, to warm up, but also to run as a sport in its own right. You have probably already started jogging at least once in your life. How many times have you stopped in the middle, too out of breath, with a side stitch, a sprain? You'll be surprised to learn that there are men in the world who are able to run for hours without stopping! From the Tarahumara tribe to the world's greatest marathon runners, plunge into the world of the most extraordinary runners in history! \*Buy now the summary of this book for the modest price of a cup of coffee!

The Lost Tribes #1 Jun 08 2021 Five friends are in a race against time in this action-adventure story involving ancient tribal artifacts that hold the fate of the universe in the balance. None of these trailblazers imagined their ordinary parents as scientists on a secret mission. But when their

parents go missing, they are forced into unfathomable circumstances and learn of a history that is best left unknown, for they are catalysts in an ancient score that must be settled. As the chaos unfolds, opportunities arise that involve cracking codes and anticipating their next moves. This book unfolds sturdily, accurate scientific facts and history knowledge where readers will surely become participants.

**Running with Sherman Jun 20 2022** From the bestselling author of *Born to Run*, a heartwarming story about training a rescue donkey to run one of the most challenging races in America, and, in the process, discovering the life-changing power of the human-animal connection. "A delight, full of heart and hijinks and humor." —John Grogan, author of *Marley & Me: Life and Love with the World's Worst Dog* When Christopher McDougall decided to adopt a donkey in dire straits, he had no idea what he was getting himself into. But with the help of his neighbors, Chris came up with a crazy idea. Burro racing, a unique type of competition in which humans and donkeys run side by side over mountains and through streams, would be exactly the challenge Sherman and Chris needed. In the course of Sherman's training, Chris would enlist Amish running clubs, high-spirited goats, the service animal community, and two Sarah Palin-loving long-distance female truckers. Sherman's heartwarming story of overcoming all odds to run one of the most unbelievable races in America shows the healing power of movement and the strength of the human-animal connection. Look for Christopher McDougall's new book, *Born to Run 2*, coming in December!

**Political Tribes Nov 25 2022** Discusses the failure of America's political elites to recognize how group identities drive politics both at home and abroad, and outlines recommendations for reversing the country's foreign policy failures and overcoming destructive political tribalism at home.

**The Lost White Tribe Nov 13 2021** In 1876, in a mountainous region to the west of Lake Victoria, Africa--what is today Ruwenzori Mountains National Park in Uganda--the famed explorer Henry Morton Stanley encountered Africans with what he was convinced were light complexions and European features. Stanley's discovery of this African white tribe haunted him and seemed to substantiate the so-called Hamitic Hypothesis: the theory that the descendants of Ham, the son of Noah, had populated Africa and other remote places, proving that the source and spread of human races around the world could be traced to and explained by a Biblical story. In *The Lost White Tribe*, Michael Robinson traces the rise and fall of the Hamitic Hypothesis. In addition to recounting Stanley's discovery, Robinson shows how it influenced encounters with the Ainu in Japan; Vilhjalmur Stefansson's tribe of blond Eskimos in the Arctic; and the white Indians of Panama. As Robinson shows, race theory stemming originally from the Bible not only guided exploration but archeology, including Charles Mauch's discovery of the Grand Zimbabwe site in 1872, and literature, such as H. Rider Haggard's *King Solomon's Mines*, whose publication launched an entire literary subgenre dedicated to white tribes in remote places. The Hamitic Hypothesis would shape the theories of Carl Jung and guide psychological and anthropological notions of the primitive. The Hypothesis also formed the foundation for the European colonial system, which was premised on assumptions about racial hierarchy, at whose top were the white races, the purest and oldest of them all. It was a small step from the Hypothesis to theories of Aryan superiority, which served as the basis of the race laws in Nazi Germany and had horrific and catastrophic consequences. Though racial thinking changed profoundly after World War Two, a version of Hamitic validation of the whiter tribes laid the groundwork for conflict within Africa itself after decolonization, including the Rwandan genocide. Based on painstaking archival research, *The Lost White Tribe* is a fascinating, immersive, and wide-ranging work of synthesis, revealing the roots of racial thinking and the legacies that continue to exert their influence to this day.

**The Righteous Mind Jun 01 2023 NEW YORK TIMES BESTSELLER** □ The acclaimed social psychologist challenges conventional thinking about morality, politics, and religion in a way that speaks to conservatives and liberals alike—a “landmark contribution to humanity's understanding of itself” (*The New York Times Book Review*). Drawing on his twenty-five years of groundbreaking research on moral psychology, Jonathan Haidt shows how moral judgments arise not from reason but from gut feelings. He shows why liberals, conservatives, and libertarians have such different intuitions about right and wrong, and he shows why each side is actually right about many of its central concerns. In this subtle yet accessible book, Haidt gives you the key to understanding the miracle of human cooperation, as well as the curse of our eternal divisions and conflicts. If you're ready to

trade in anger for understanding, read *The Righteous Mind*.

[The New Trail of Tears](#) Mar 06 2021 If you want to know why American Indians have the highest rates of poverty of any racial group, why suicide is the leading cause of death among Indian men, why native women are two and a half times more likely to be raped than the national average and why gang violence affects American Indian youth more than any other group, do not look to history. There is no doubt that white settlers devastated Indian communities in the 19th, and early 20th centuries. But it is our policies today—denying Indians ownership of their land, refusing them access to the free market and failing to provide the police and legal protections due to them as American citizens—that have turned reservations into small third-world countries in the middle of the richest and freest nation on earth. The tragedy of our Indian policies demands reexamination immediately—not only because they make the lives of millions of American citizens harder and more dangerous—but also because they represent a microcosm of everything that has gone wrong with modern liberalism. They are the result of decades of politicians and bureaucrats showering a victimized people with money and cultural sensitivity instead of what they truly need—the education, the legal protections and the autonomy to improve their own situation. If we are really ready to have a conversation about American Indians, it is time to stop bickering about the names of football teams and institute real reforms that will bring to an end this ongoing national shame.

[The Strongest Tribe](#) May 08 2021 In Iraq, the United States made mistake after mistake. Many Americans gave up on the war. Then two generals—David Petraeus and Raymond Odierno—displayed the leadership America expected. Bringing the reader from the White House to the fighting in the streets, combat journalist and bestselling author Bing West explains this astounding turnaround by U.S. forces. In the course of fifteen extended trips over five years, West embedded with more than sixty front-line units, discussing strategy with generals and tactics with corporals. Disposing of myths, he provides an expert's account of the counterinsurgency. This is the definitive study of how American soldiers actually fought.

[Tribe](#) Apr 06 2021 Tribe tells the hidden history of the Mountains of the Moon, the glacier-crowned lost world of incomparable beauty that lies at the heart of equatorial Africa. Award-winning author Tom Stacey has been intimately involved in the life of the mountains and their people for over 50 years. In this compelling work, straddling the genres of travel and history, he traces the story of the Bakonzo tribe and their turbulent bid for self-determination. He tells of his own mission to mediate with the Ugandan government on behalf of the rebel Bakonzo kingdom which he had unwittingly inspired, and writes with passion and depth on the sanctity of race and place

[Black Indians](#) Feb 26 2023 A Simon & Schuster eBook. Simon & Schuster has a great book for every reader.

[Killers of the Flower Moon](#) Dec 15 2021 #1 NEW YORK TIMES BESTSELLER □ A twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history, from the author of *The Wager* and *The Lost City of Z*, "one of the preeminent adventure and true-crime writers working today."—*New York Magazine* □ NATIONAL BOOK AWARD FINALIST □ NOW A MARTIN SCORSESE PICTURE "A shocking whodunit...What more could fans of true-crime thrillers ask?"—*USA Today* "A masterful work of literary journalism crafted with the urgency of a mystery." —*The Boston Globe* In the 1920s, the richest people per capita in the world were members of the Osage Nation in Oklahoma. After oil was discovered beneath their land, the Osage rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. One of her relatives was shot. Another was poisoned. And it was just the beginning, as more and more Osage were dying under mysterious circumstances, and many of those who dared to investigate the killings were themselves murdered. As the death toll rose, the newly created FBI took up the case, and the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to try to unravel the mystery. White put together an undercover team, including a Native American agent who infiltrated the region, and together with the Osage began to expose one of the most chilling conspiracies in American history. Look for David Grann's latest bestselling book, *The Wager*!

[Born to Run](#) May 12 2024 A New York Times bestseller 'A sensation ... a rollicking tale well told' - *The Times* At the heart of *Born to Run* lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small

group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

**A Tribe Apart** Jan 28 2023 For three fascinating, disturbing years, writer Patricia Hersch journeyed inside a world that is as familiar as our own children and yet as alien as some exotic culture--the world of adolescence. As a silent, attentive partner, she followed eight teenagers in the typically American town of Reston, Virginia, listening to their stories, observing their rituals, watching them fulfill their dreams and enact their tragedies. What she found was that America's teens have fashioned a fully defined culture that adults neither see nor imagine--a culture of unprecedented freedom and baffling complexity, a culture with rules but no structure, values but no clear morality, codes but no consistency. Is it society itself that has created this separate teen community? Resigned to the attitude that adolescents simply live in "a tribe apart," adults have pulled away, relinquishing responsibility and supervision, allowing the unhealthy behaviors of teens to flourish. Ultimately, this rift between adults and teenagers robs both generations of meaningful connections. For everyone's world is made richer and more challenging by having adolescents in it.

**Tribe** Sep 11 2021 Tribe is the hidden history of the Mountains of the Moon, classical antiquity's name for the Ruwenzori Mountains, a glacier-crowned range in the heart of equatorial Africa. The overriding theme of this unusual work is the sacred relationship of race and place. Here the place and the race encircle a massif whose steepness and astonishing, all-but-impenetrable, vegetation create a fastness that soars to clustered peaks of over 16,000 feet. For almost fifty years Tom Stacey has been repeatedly caught up in the turbulent history of the mountains and their people, among whom he is now a mzee - an adopted elder. The stories of tribe and traveller form a single sustained drama, interwoven and inseparable. The reader is carried from the immemorial Africa of Ruwenzori half a century ago, when at twenty-four Stacey was the first white man to live with the Bakonzo tribe, to the armed creation of their own state - a rebel Kingdom; a Kingdom which stemmed in part from the author's first journey. It was to rule the inner mountains for 20 years, defying Uganda and Congo alike. Then came a stormy campaign for the Kingdom's formal recognition and a simultaneous guerrilla war, whose end was marked by the author's recent ascent to the snowbound heights with his Bakonzo companions. From Tribe's sustaining theme Tom Stacey draws a universal proposition - which will be seen as controversial, certainly by those who deny the influence of ethnicity upon the spirit of man. The setting of Tribe may be central Africa, vividly recaptured, but in revealing the hidden history of the Mountains of the Moon Stacey lays open a hidden truth of the human condition everywhere and always.

**Rainbow Tribe** Sep 23 2022 The practical sequel to Mother Earth Spirituality that applies Native American teachings and ritual to contemporary living.

**Running on Veggies** Jan 16 2022 More than 100 delicious, nourishing, and mostly plant-based recipes for peak athletic performance, from the triathlete and nutrition coach behind the popular Running on Veggies blog After finishing treatment for stage III Hodgkin's lymphoma at the age of fifteen, Lottie Bildirici fell in love with running and completely transformed her lifestyle with a mindful approach to eating and exercise. As an Adidas nutrition coach, she has led teams around the globe to healthier mindsets by leveraging their diets for enhanced performance. In her first book, she shares these recipes and tips to help fellow athletes eat well, feel well, and live life to its fullest potential. Running on Veggies contains more than one hundred mostly plant-based, dairy-free, meat-free (with five pescatarian) recipes to maximize workouts and enhance nutrition to perform at peak levels. Indulgent recipes that leave you feeling satisfied and energized include Almond Berry Overnight Oats, Energized Mocha Crunch Smoothie, Thai Crunch Salad, Pesto Farro Risotto with Sugar Snap Peas and Asparagus, Date Bites, and many more. In addition to Bildirici's recipes, Running on Veggies also features recipes contributed by world-class athletes including Kara Goucher, Colleen Quigley, Emma Coburn, and many more. With pre-run and recovery recipes, a two-week peak performance plan, and supplemental sidebars throughout, it's designed to be inclusive of all levels of athletic performance, from novice to expert. Running on Veggies is the guide athletes

and the rest of us need to fuel up and kickstart a lifetime of healthy habits, one delicious meal at a time.

**The Tribe of Tiger** Aug 23 2022 From the majestic Bengal tiger to the domesticated Siamese comes a meditation on cats from the bestselling author of *The Hidden Life of Dogs* and *The Social Lives of Dogs*. From as far back in time as the disappearance of the dinosaurs, cats have occupied an important place in our evolutionary, social, and cultural history. The family of the cat is as diverse as it is widespread, ranging from the lions, tigers, and pumas of the African and Asian wilds to the domesticated cats of our homes, zoos, and circuses. When she witnesses her housecat, Rajah, effortlessly scare off two fully-grown deer, acclaimed anthropologist Elizabeth Marshall Thomas starts studying the links that bind the feline family together. Immersing herself in the subtle differences of their social orders, feeding behaviors, and means of communication, Thomas explores the nature of the cat, both wild and domestic, and the resilient streak that has ensured its survival over thousands of years.

**Born to Run** Jun 13 2024 NATIONAL BESTSELLER □ The astonishing and hugely entertaining story that completely changed the way we run. An epic adventure that began with one simple question: Why does my foot hurt? "Equal parts quest, physiology treatise, and running history.... The climactic race reads like a sprint.... It simply makes you want to run." —Outside Magazine Isolated by Mexico's deadly Copper Canyons, the blissful Tarahumara Indians have honed the ability to run hundreds of miles without rest or injury. In a riveting narrative, award-winning journalist and often-injured runner Christopher McDougall sets out to discover their secrets. In the process, he takes his readers from science labs at Harvard to the sun-baked valleys and freezing peaks across North America, where ever-growing numbers of ultra-runners are pushing their bodies to the limit, and, finally, to a climactic race in the Copper Canyons that pits America's best ultra-runners against the tribe. **Hidden Tribe** Dec 07 2023 Sasquatch—they live peacefully in the forests, and woodlands. They want little, or nothing, to do with humans, and our civilization. As a whole, sasquatch are tranquil, quiet beings who live harmoniously with nature, and avoid us. But what happens when humans refuse to return the favor? Researcher Alexia Hollander is about to find out. When she ventures into the mountains of the Pacific Northwest, seeking evidence of the elusive species, things quickly get out of hand. Another researcher deliberately gets in Alexia's way. Campers, and hunters bumble in, adding their own disruptive presence to the quiet work that Alexia wants to perform. With their home territory invaded by humans, a mated pair of sasquatch keep the intruders under close surveillance. They aren't happy about the presence of the trespassers, and want them gone. Just how far will these normally restrained beings go to protect their family, and themselves? Alexia, and her unwanted companions are about to find out!

**Origin** Jul 10 2021 AN INSTANT NEW YORK TIMES BESTSELLER! From celebrated anthropologist Jennifer Raff comes the untold story—and fascinating mystery—of how humans migrated to the Americas. *ORIGIN* is the story of who the first peoples in the Americas were, how and why they made the crossing, how they dispersed south, and how they lived based on a new and powerful kind of evidence: their complete genomes. *ORIGIN* provides an overview of these new histories throughout North and South America, and a glimpse into how the tools of genetics reveal details about human history and evolution. 20,000 years ago, people crossed a great land bridge from Siberia into Western Alaska and then dispersed southward into what is now called the Americas. Until we venture out to other worlds, this remains the last time our species has populated an entirely new place, and this event has been a subject of deep fascination and controversy. No written records—and scant archaeological evidence—exist to tell us what happened or how it took place. Many different models have been proposed to explain how the Americas were peopled and what happened in the thousands of years that followed. A study of both past and present, *ORIGIN* explores how genetics is currently being used to construct narratives that profoundly impact Indigenous peoples of the Americas. It serves as a primer for anyone interested in how genetics has become entangled with identity in the way that society addresses the question "Who is indigenous?"

**Firekeeper's Daughter** Oct 13 2021 A PRINTZ MEDAL WINNER! A MORRIS AWARD WINNER! AN AMERICAN INDIAN YOUTH LITERATURE AWARD YA HONOR BOOK! A REESE WITHERSPOON x HELLO

SUNSHINE BOOK CLUB YA PICK An Instant #1 New York Times Bestseller Soon to be adapted at Netflix for TV with President Barack Obama and Michelle Obama's production company, Higher Ground. "One of this year's most buzzed about young adult novels." —Good Morning America A TIME Magazine Best YA Book of All Time Selection Amazon's Best YA Book of 2021 So Far (June 2021) A 2021 Kids' Indie Next List Selection An Entertainment Weekly Most Anticipated Books of 2021 Selection A PopSugar Best March 2021 YA Book Selection With four starred reviews, Angeline Boulley's debut novel, *Firekeeper's Daughter*, is a groundbreaking YA thriller about a Native teen who must root out the corruption in her community, perfect for readers of Angie Thomas and Tommy Orange. Eighteen-year-old Daunis Fontaine has never quite fit in, both in her hometown and on the nearby Ojibwe reservation. She dreams of a fresh start at college, but when family tragedy strikes, Daunis puts her future on hold to look after her fragile mother. The only bright spot is meeting Jamie, the charming new recruit on her brother Levi's hockey team. Yet even as Daunis falls for Jamie, she senses the dashing hockey star is hiding something. Everything comes to light when Daunis witnesses a shocking murder, thrusting her into an FBI investigation of a lethal new drug. Reluctantly, Daunis agrees to go undercover, drawing on her knowledge of chemistry and Ojibwe traditional medicine to track down the source. But the search for truth is more complicated than Daunis imagined, exposing secrets and old scars. At the same time, she grows concerned with an investigation that seems more focused on punishing the offenders than protecting the victims. Now, as the deceptions—and deaths—keep growing, Daunis must learn what it means to be a strong Anishinaabe kwe (Ojibwe woman) and how far she'll go for her community, even if it tears apart the only world she's ever known.

[The Last of the Tribe](#) Mar 30 2023 Throughout the centuries, the Amazon has yielded many of its secrets, but it still holds a few great mysteries. In 1996 experts got their first glimpse of one: a lone Indian, a tribe of one, hidden in the forests of southwestern Brazil. Previously uncontacted tribes are extremely rare, but a one-man tribe was unprecedented. And like all of the isolated tribes in the Amazonian frontier, he was in danger. Resentment of Indians can run high among settlers, and the consequences can be fatal. The discovery of the Indian prevented local ranchers from seizing his land, and led a small group of men who believed that he was the last of a murdered tribe to dedicate themselves to protecting him. These men worked for the government, overseeing indigenous interests in an odd job that was part Indiana Jones, part social worker, and were among the most experienced adventurers in the Amazon. They were a motley crew that included a rebel who spent more than a decade living with a tribe, a young man who left home to work in the forest at age fourteen, and an old-school sertanista with a collection of tall tales amassed over five decades of jungle exploration. Their quest would prove far more difficult than any of them could imagine. Over the course of a decade, the struggle to save the Indian and his land would pit them against businessmen, politicians, and even the Indian himself, a man resolved to keep the outside world at bay at any cost. It would take them into the furthest reaches of the forest and to the halls of Brazil's Congress, threatening their jobs and even their lives. Ensuring the future of the Indian and his land would lead straight to the heart of the conflict over the Amazon itself. A heart-pounding modern-day adventure set in one of the world's last truly wild places, *The Last of the Tribe* is a riveting, brilliantly told tale of encountering the unknown and the unfathomable, and the value of preserving it.

[The 13th Tribe](#) Aug 03 2023 When a group of immortal vigilantes threatens millions, only one man is brave enough to stand in their way. Their story didn't start this year...or even this millennium. It began when Moses was on Mt. Sinai. Tired of waiting on the One True God, the twelve tribes of Israel began worshipping a golden calf through pagan revelry. Many received immediate death for their idolatry, but 40 were handed a far worse punishment—endless life on earth with no chance to see the face of God. This group of immortals became the 13th Tribe, and they've been trying to earn their way into heaven ever since—by killing sinners. Though their logic is twisted, their brilliance is undeniable. Their wrath is unstoppable. And the technology they possess is beyond anything mere humans have ever seen. Jagger Baird knows nothing about the Tribe when he's hired as head of security for an archaeological dig on Mt. Sinai. The former Army Ranger is still reeling from an accident that claimed the life of his best friend, his arm, and his faith in God. The Tribe is poised to execute their most ambitious attack ever and the lives of millions hang in the balance. When Jagger's wife and son are caught in the crossfire, he'll stop at nothing to save them. But how

can one man stand against an entire tribe of immortals? "Liparulo plunges deep into the pages of Scripture to find intriguing what-if's and stunning revelations—all woven into a tale that is both skin-tingly supernatural and thought-provokingly real. Packed with high-tech gadgetry, action, and heart . . . Read this novel! Seriously!" —TED DEKKER, New York Times best-selling author of *Forbidden* and the *Circle Series* "The author of *Comes a Horseman* ushers in an exciting new series with this action-packed and intricately plotted spiritual thriller that should appeal to fans of Frank Peretti and *Oliver North*." —*Library Journal* "A fantasy-thriller with overt (but not overly intrusive) Christian themes . . . The book can be read as a story of a man's spiritual transition, or it can be read as a fast-paced thriller with fantasy elements. Either way, it's a success." —*Booklist* "Liparulo opens the *Immortal Files* series with a bang . . . Liparulo has concocted a fast-moving, imaginative narrative that examines moral questions . . . every reader is in for roller-coaster action, competently done, with a late-breaking major plot curve that leaves the door open for more." —*Publishers Weekly* "If you're a fan of suspense or biblical fiction, this is one book you won't want to miss. Its mind-blowing action will keep readers totally immersed." —*RT Book Review*, 4 1/2 stars

**How Democracies Die** Aug 11 2021 **NEW YORK TIMES BESTSELLER** □ "Comprehensive, enlightening, and terrifyingly timely."—*The New York Times Book Review* (Editors' Choice) **WINNER OF THE GOLDSMITH BOOK PRIZE** □ **SHORTLISTED FOR THE LIONEL GELBER PRIZE** □ **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY** *The Washington Post* □ *Time* □ *Foreign Affairs* □ *WBUR* □ *Paste* Donald Trump's presidency has raised a question that many of us never thought we'd be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for *How Democracies Die* "What we desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt, two of the most respected scholars in the field of democracy studies, offer just that."—*The Washington Post* "Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and international democratic crises; in doing so, they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics."—Ezra Klein, *Vox* "If you only read one book for the rest of the year, read *How Democracies Die*. . . . This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It is deeply rooted in history. . . . The best commentary on our politics, no contest."—Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) "A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal."—Fareed Zakaria, *CNN*

**Melungeons** Mar 18 2022 Most of us probably think of America as being settled by British, Protestant colonists who fought the Indians, tamed the wilderness, and brought "democracy"-or at least a representative republic-to North America. To the contrary, Elizabeth Caldwell Hirschman's research indicates the earliest settlers were of Mediterranean extraction, and of a Jewish or Muslim religious persuasion. Sometimes called "Melungeons," these early settlers were among the earliest nonnative "Americans" to live in the Carolinas, Tennessee, Kentucky, Virginia, and West Virginia. For fear of discrimination-since Muslims, Jews, "Indians," and other "persons of color" were often disenfranchised and abused-the Melungeons were reticent regarding their heritage. In fact, over time, many of the Melungeons themselves "forgot" where they came from. Hence, today, the Melungeons remain the "last lost tribe in America," even to themselves. Yet, Hirschman, supported by DNA testing, genealogies, and a variety of historical documents, suggests that the Melungeons included such notable early Americans as Daniel Boone, John Sevier, Abraham Lincoln, Jefferson Davis, and Andrew Jackson. Once lost, but now, forgotten no more.

**The Hidden Tribe** Nov 06 2023 Two women captured by the ruler of a lost race in the Sahara Desert find themselves faced with a fate worse than death! Only an intrepid British soldier can save the

lovely ladies.

[Born to Run](#) Oct 05 2023 At the heart of *Born to Run* lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

[The Lost Ones](#) Apr 18 2022 Despite her father's warnings that their tribe is always in danger, Casita, a ten-year-old Lipan Apache girl, has led a relatively peaceful life with her tribe in Mexico, doing her daily chores and practicing for her upcoming Changing Woman ceremony, in which she will officially become a woman of the tribe. But the peace is shattered when the U.S. Cavalry invades and brutally slaughters her people. Casita and her younger brother survive the attack, but are taken captive and sent to the Carlisle Indian School, a Pennsylvania boarding school that specializes in assimilating Native Americans into white American culture. Casita grieves for her lost family as she struggles to find a way to maintain her identity as a Lipan Apache and survive at the school. Includes author's note and bibliography.

[The Unconquered](#) Oct 25 2022 NEW YORK TIMES BESTSELLER □ The extraordinary true story of a journey into the deepest recesses of the Amazon to track one of the planet's last uncontacted indigenous tribes. Even today there remain tribes in the far reaches of the Amazon rainforest that have avoided contact with modern civilization. Deliberately hiding from the outside world, they are the last survivors of an ancient culture that predates the arrival of Columbus in the New World. In this gripping first-person account of adventure and survival, author Scott Wallace chronicles an expedition into the Amazon's uncharted depths, discovering the rainforest's secrets while moving ever closer to a possible encounter with one such tribe—the mysterious flecheiros, or “People of the Arrow,” seldom-glimpsed warriors known to repulse all intruders with showers of deadly arrows. On assignment for National Geographic, Wallace joins Brazilian explorer Sydney Possuelo at the head of a thirty-four-man team that ventures deep into the unknown in search of the tribe. Possuelo's mission is to protect the Arrow People. But the information he needs to do so can only be gleaned by entering a world of permanent twilight beneath the forest canopy. Danger lurks at every step as the expedition seeks out the Arrow People even while trying to avoid them. Along the way, Wallace uncovers clues as to who the Arrow People might be, how they have managed to endure as one of the last unconquered tribes, and why so much about them must remain shrouded in mystery if they are to survive. Laced with lessons from anthropology and the Amazon's own convulsed history, and boasting a Conradian cast of unforgettable characters—all driven by a passion to preserve the wild, but also wracked by fear, suspicion, and the desperate need to make it home alive—*The Unconquered* reveals this critical battleground in the fight to save the planet as it has rarely been seen, wrapped in a page-turning tale of adventure.

[Family Village Tribe](#) Jul 22 2022 Flight Centre Ltd is an anomaly in the business world - a modern-day organisation with an underlying corporate structure that comes from the Stone Age. A billion dollar company started by 23-year-old vets with no business experience. How did they, lead by the maverick genius of Graham Turner, make it work? Flight Centre started out as a double decker tour company conceived in a Munich beer hall in 1973. Their unconventional approach to business was carried through into the new Flight Centre operation which started in Australia in 1982. The company changed the face of the Australian travel industry. They were ostracised, investigated and even received death threats for their audacity. From the CEO who served clients dressed in a garbage bag, to the manager who invested his shop profits in red beans on the futures market, Flight Centre pioneers paint a picture of tiny, make-shift offices, a mongrel dog approach to sales, and a business that emphasised fun rather than formality. Turner structured the company into 'families', 'villages' and 'tribes'. Rather than trying to force people to fit the company's mould, people could now work in their preferred environment within the larger organization. They created a unique system of remuneration that provides incentives based on outcomes. From the maintenance

employee whose pay is based on shop refurbishment, to the in-house financial adviser who is paid on how much he increased someone's personal wealth. The year 2000 saw the company's biggest one-off business blow-out - a new, interactive, state-of-the-art website. Then September 11, 2001, was the first blow in the ongoing conflicts that would change the very face of travel. As a result Flight Centre went back to basics, acquired and built more businesses in China, India and the USA. In 2005 the company has been confronted by the ACCC, and survived, faced profit downgrades and share price crashes. But in the words of the indomitable Graham Turner "Many people look at Flight Centre and talk about how big we are. They talk about our shop numbers, our acquisitions, and our overseas operations. As far as we're concerned we've come a long way. We've still got a long way to go. Our story is only just beginning."

The Thirteenth Tribe Apr 30 2023 This book traces the history of the ancient Khazar Empire, a major but almost forgotten power in Eastern Europe, which in the Dark Ages became converted to Judaism. Khazaria was finally wiped out by the forces of Genghis Khan, but evidence indicates that the Khazars themselves migrated to Poland and formed the cradle of Western Jewry. To the general reader the Khazars, who flourished from the 7th to 11th century, may seem infinitely remote today. Yet they have a close and unexpected bearing on our world, which emerges as Koestler recounts the fascinating history of the ancient Khazar Empire. At about the time that Charlemagne was Emperor in the West. The Khazars' sway extended from the Black Sea to the Caspian, from the Caucasus to the Volga, and they were instrumental in stopping the Muslim onslaught against Byzantium, the eastern jaw of the gigantic pincer movement that in the West swept across northern Africa and into Spain. Thereafter the Khazars found themselves in a precarious position between the two major world powers: the Eastern Roman Empire in Byzantium and the triumphant followers of Mohammed. As Koestler points out, the Khazars were the Third World of their day. They chose a surprising method of resisting both the Western pressure to become Christian and the Eastern to adopt Islam. Rejecting both, they converted to Judaism. Mr Koestler speculates about the ultimate faith of the Khazars and their impact on the racial composition and social heritage of modern Jewry. He produces a large body of meticulously detailed research.
