The Global Testing Culture William C. Smith,2016-01-04 The past thirty years have seen a rapid expansion of testing exposing students worldwide to tests that are now more than ever standardized and linked to high stakes outcomes The use of testing as a policy tool has been legitimized within international educational development to measure education quality in the vast majority of countries worldwide The embedded nature and normative power of high stakes standardized testing across national contexts can be understood as a global testing culture The global testing culture permeates all aspects of education from financing to parental involvement to teacher and student beliefs and practices The reinforcing nature of the global testing culture leads to an environment where testing becomes synonymous with accountability which becomes synonymous with education quality Underlying the global testing culture is a set of values identified from the increasing literature on world culture These include education as a human right academic intelligence faith in science decentralization and neoliberalism Each of these values highlights different aspects of the dialogue in support of high stakes standardized testing The wide approval of these values and their ability to legitimate various aspects of high stakes testing reinforces the taken for granted notion that such tests are effective and appropriate education practices However a large body of literature emphasizes the negative unintended consequences teaching to the test reshaping the testing pool the inequitable distribution of school resources and teachers attention and reconstructing the role of the student teacher and parent commonly found when standardized census based tests are combined with high stakes outcomes for educators or students This book problematizes this culture by providing critical perspectives that challenge the assumptions of the culture and describe how the culture manifests in national contexts The volume makes it clear that testing per se is not the problem Instead it is how tests are administered used or misused and linked to accountability that provide the global testing culture with its powerful ability to shape schools and society and lead to its unintended undesirable consequences

International Perspectives on Early Childhood Education and Care Susanne

Garvis,Sivanes Phillipson,Heidi Harju-Luukkainen,2018-01-12 The first volume in this Early Childhood Education and Care in the 21st Century International Teaching Family and Policy Perspectives miniseries provides a snapshot of early childhood education and care from 19 different countries around the world The intention is to provide a description for the policy and provision for young children and their families in each of the unique contemporary contexts The selection of countries includes every continent in the world to provide variety across cultures socio economic status location population and other unique factors Some chapters also share the development and history of early childhood in their country including economic and political transitions that lead to changes in early childhood provision and policy The book provides essential takeaways

for early childhood educators researchers early childhood organisations policy makers and those interested to know more about early childhood education within an international perspective **Education in Singapore** Yew-Jin Lee,2022-04-06

This edited book is a comprehensive resource for understanding the history as well as the current status of educational practices in Singapore It is a one stop reference guide to education and educational issues concerns here There are three sections Part 1 provides a sectorial overview of how education has been organized in this country such as preschool special needs primary and secondary and adult education divisions In Part 2 contributors critically delve into issues and policies that are pertinent to understanding education here such as underachievement leadership language education assessment and meritocracy to question what Part 1 might have taken for granted Part 3 contains the largest number of contributors because it offers a scholarly examination into specific subject histories This section stands out because of the comparative rarity of its subject matter history of Physical Education Art Music Geography Education etc in Singapore **Building the**

Foundation: Whole Numbers in the Primary Grades Maria G. Bartolini Bussi,Xu Hua Sun,2018-03-29 This twenty third ICMI Study addresses for the first time mathematics teaching and learning in the primary school and pre school setting while also taking international perspectives socio cultural diversity and institutional constraints into account One of the main challenges of designing the first ICMI primary school study of this kind is the complex nature of mathematics at the early level Accordingly a focus area that is central to the discussion was chosen together with a number of related questions The broad area of Whole Number Arithmetic WNA including operations and relations and arithmetic word problems forms the core content of all primary mathematics curricula The study of this core content area is often regarded as foundational for later mathematics learning However the principles and main goals of instruction on the foundational concepts and skills in WNA are far from universally agreed upon and practice varies substantially from country to country As such this study presents a meta level analysis and synthesis of what is currently known about WNA providing a useful base from which to gauge gaps and shortcomings as well as an opportunity to learn from the practices of different countries and contexts

Conditions for English Language Teaching and Learning in Asia Bernard Spolsky,Kiwan Sung,2015-01-12 In 1989 Bernard Spolsky published Conditions for Second Language Learning Oxford University Press At the 2012 Annual Conference of Asia TEFL a number of senior scholars were invited to comment upon the relevance of the book to the teaching of English in their region and to make suggestions on how it might be updated This volume contains revised versions of these talks and thus provides a survey of the conditions for teaching English in Asia Most contributors found the Conditions model useful but there has been a major change in emphasis in the past two decades whereas the 1989 book emphasized linguistic and psycholinguistic conditions more recent work generally emphasizes the importance of sociolinguistic and language policy conditions for teaching English in Asia today English Language Education in a Global World Lap Tuen Wong,Aditi Dubey-Jhaveri,2015 With English becoming the world s foremost lingua franca the pressure to

improve English language education ELE has been steadily increasing Consequently the nature of ELE has changed drastically in the last decade This has not only brought about a number of changes in the way English is taught and learnt but it has also led to various innovative practices around the world As a result this edited book aims to shed light on the new theoretical and methodological developments in the field of ELE as well as the major issues and difficulties faced by practitioners in different parts of the globe One very important variable that the book takes into account is the role that English already plays in a particular society since this may affect the views that teachers and students hold of the language This in turn can significantly influence the way English is taught and learnt in given political economic and socio cultural settings The purpose of this book is therefore to provide a comprehensive overview of the pedagogical methods policies and problems that underlie English language education in ten different regions across the world including the USA Canada the UK Australia New Zealand India Singapore Japan China and Hong Kong In doing so the different chapters in the book emphasize the importance of responding to linguistic and other forms of diversity in order to develop English language education in a globalized world This book will be useful for teachers and students of English language for English language curriculum and materials developers and for those involved in educational policy making and language acquisition research Written by experts in the field the range of content covered in the book s chapters will also help policy makers researchers and practitioners develop effective English language education practices and policies and propose solutions to emerging issues in English language teaching and learning in different environments around the world The newly developed arguments and concerns pertaining to English language education will serve as future reference for professionals interested in this area of expertise

Globalization and the Singapore Curriculum Zongyi Deng, S Gopinathan, Christine Kim-Eng Lee, 2013-11-27

This volume provides a multi faceted and critical analysis of the Singapore curriculum in relation to globalization First it details reform initiatives established by the Singapore government to meet the challenges posed by globalization Next *Globalization and the Singapore Curriculum* presents how these reforms have been translated into programs school subjects and operational frameworks and then examines in turn how well these have been implemented in schools and classrooms across the country Through this examination the book reveals how the initiatives together with their curricular translation and classroom enactment reflect on the one hand global features and tendencies and on the other distinct national traditions concerns and practices It brings to light a set of issues problems and challenges that not only concern policymakers educators and reformers in Singapore but also those in other countries as well Written by curriculum scholars policy analysts researchers and teacher educators *Globalization and the Singapore Curriculum* offers an up to date reference for postgraduate students scholars and researchers in the areas of curriculum and instruction comparative education educational sociology educational policy and leadership in Singapore the Asia Pacific region and beyond It also offers a vital contribution to the story of modern education around the globe providing international students scholars and researchers

valuable insights into curriculum and curriculum reform for the 21st century **The Pale King** David Foster Wallace,2011-04-15 The breathtakingly brilliant novel by the author of Infinite Jest New York Times is a deeply compelling and satisfying story as hilarious and fearless and original as anything Wallace ever wrote The agents at the IRS Regional Examination Center in Peoria Illinois appear ordinary enough to newly arrived trainee David Foster Wallace But as he immerses himself in a routine so tedious and repetitive that new employees receive boredom survival training he learns of the extraordinary variety of personalities drawn to this strange calling And he has arrived at a moment when forces within the IRS are plotting to eliminate even what little humanity and dignity the work still has The Pale King remained unfinished at the time of David Foster Wallace s death but it is a deeply compelling and satisfying novel hilarious and fearless and as original as anything Wallace ever undertook It grapples directly with ultimate questions questions of life s meaning and of the value of work and society through characters imagined with the interior force and generosity that were Wallace s unique gifts Along the way it suggests a new idea of heroism and commands infinite respect for one of the most daring writers of our time The Pale King is by turns funny shrewd suspenseful piercing smart terrifying and rousing Laura Miller Salon

Toward a Better Future Fredriksen Birger, Sing Kong Lee, Chor Boon Goh,2008-04-18 Toward a Better Future provides a comprehensive analysis of education development in Singapore since 1965 giving particular attention to the strategic management that has enabled Singapore to transform its education and training system from one similar to that of many Sub Saharan African countries four decades ago into one of the world s best performing systems It is one of a pair of concurrently published books presenting materials originally developed for a 2006 study tour to Singapore and Vietnam for senior education officials from Cameroon Ethiopia Ghana Lesotho Madagascar and Mozambique The second book An African Exploration of the East Asian Education Experience presents five country studies as well as regional comparative analyses highlighting insights gained during the study tour and putting them in the context of Sub Saharan Africa Together the two books aim to foster knowledge exchange between Sub Saharan African and East Asian countries on good practices in the design and implementation of education policies and programs By facilitating the cross country fertilization of ideas between two regions with relatively limited contact in the past these books fill a clear gap in the current literature on development practice in education
