*Grandmothers Counsel the World* Carol Schaefer, 2006-11-14 We are thirteen indigenous grandmothers We are deeply concerned with the unprecedented destruction of our Mother Earth the atrocities of war the global scourge of poverty the prevailing culture of materialism the epidemics that threaten the health of the Earth's peoples and with the destruction of indigenous ways of life We the International Council of Thirteen Indigenous Grandmothers believe that our ancestral ways of prayer peacemaking and healing are vitally needed today We believe that the teachings of our ancestors will light our way through an uncertain future In some Native American societies tribal leaders consulted a council of grandmothers before making any major decisions that would affect the whole community What if we consulted our wise women elders about the problems facing our global community today This book presents the insights and guidance of thirteen indigenous grandmothers from five continents many of whom are living legends among their own peoples The Grandmothers offer wisdom on such timely issues as nurturing our families cultivating physical and mental health and confronting violence war and poverty Also included are the reflections of Western women elders including Alice Walker Gloria Steinem Helena Norberg Hodge and Carol Moseley Brown [Cinema and the Urban Poor in South India](#) Sara Dickey, 2007-09-17 This study of the Indian cinema is concerned particularly with cinema goers in Madurai a city in Tamil Nadu South India Sara Dickey reviews the history of Tamil film explains the structure of the industry and presents the perspective of the filmmakers However the core of the book is an analysis of the films themselves and the place they have in the lives of poor people who organize fan clubs discuss the films and the actors and in various ways relate these fantasy worlds to their own lives Dickey argues that the effect of these films is ultimately conservative for they glorify poverty while holding out the hope of a better future Her rich ethnography makes an interesting contribution to the study of film in India and more generally to the understanding of popular culture in an Indian city [The Globalization of Supermax Prisons](#) Jeffrey Ian Ross, 2013-02-10 Supermax prisons conceived by the United States in the early 1980s are typically reserved for convicted political criminals such as terrorists and spies and for other inmates who are considered to pose a serious ongoing threat to the wider community to the security of correctional institutions or to the safety of other inmates Prisoners are usually restricted to their cells for up to twenty three hours a day and typically have minimal contact with other inmates and correctional staff Not only does the Federal Bureau of Prisons operate one of these facilities but almost every state has either a supermax wing or stand alone supermax prison The Globalization of Supermax Prisons examines why nine advanced industrialized countries have adopted the supermax prototype paying particular attention to the economic social and political processes that have

affected each state Featuring essays that look at the U S run prisons of Abu Ghraib and Guantanamo this collection seeks to determine if the American model is the basis for the establishment of these facilities and considers such issues as the support or opposition to the building of a supermax and why opposition efforts failed the allegation of human rights abuses within these prisons and the extent to which the decision to build a supermax was influenced by developments in the United States Additionally contributors address such domestic matters as the role of crime rates media sensationalism and terrorism in each country s decision to build a supermax prison

**The Laughing People** Serge Bouchard, 2021-08-18 The Laughing People translated from the award winning *Le peuple rieur* conveys the richness and resilience of the Innu while reminding us of the forces old and new that threaten their community This memoir and tribute tells the tale of the very long journey of a very small nation recounting both its joie de vivre and its crosses borne Readers follow Serge Bouchard a young anthropologist in the 1970s as he arrives in Ekuanitshit Mingan Quebec and comes to know its residents His observations and questions document a community weathering yet another season of change skidoos replace dogsleds and forests are bulldozed for prefabricated housing while nonetheless defying external pressures to assimilate or disappear altogether Returning to these texts fifty years later Bouchard moves beyond platitudes of strength and dives into wide scale injustices to present the sacrifices and beauty of the Innu people on individual terms Whether recounting the impact of the residential school system on Georges Mestokosho the wave of Innu activism inspired by An Antane Kapeshe or the uncelebrated work of women like Nishapet Enim The Laughing People presents an opportunity for readers to be part of the preservation and proliferation of these important stories

The Brilliance of Black Children in Mathematics Jacqueline Leonard, Danny B. Martin, 2013-03-01 This book is a critically important contribution to the work underway to transform schooling for students who have historically been denied access to a quality education specifically African American children The first section of the book provides some historical perspective critical to understanding the current state of education in the U S specifically for the education of African American children The following sections include chapters on policy learning ethnomathematics student identity and teacher preparation as it relates to the mathematical education of Black children Through offering counternarratives about mathematically successful Black youth advocating for a curriculum that is grounded in African American culture and ways of thinking providing shining examples of the brilliance of Blacks students and promoting high expectations for all rather than situating students as the problem the authors of this book provide

powerful insights related to the teaching and learning of mathematics for African American students As is made evident in this book effective teaching involves much more than just engaging students in inquiry based pedagogy Kitchen 2003 The chapters offered in this book demonstrate how mathematics instruction for African American students needs to take into account historical marginalization and present day policies that do harm to Black students Kunjufu 2005 Empowering mathematics instruction for African American students needs to take into consideration and promote students cultural spiritual and historical identities Furthermore mathematics instruction for African American students should create opportunities for students to express themselves and the needs of their communities as a means to promote social justice both within their classrooms and communities

materials for creative projects      Brothers in the Kitchen Michel Deville, Brendan O'Farrell, Dreamcooks Net, Compendium Inc, 2006-08 Lively international guide to gourmet cooking presents food in the clear bright sun of Provence France wine and simple fare prepared with the freshest ingredients and best technique      *Sixtyfive Roses* Heather Summerhayes Cariou, 2011-06-20 Heather Summerhayes was six when her four year old sister Pam was diagnosed with Cystic Fibrosis and given only months to live Sixtyfive roses was the way Pam pronounced the name of the disease that forever altered the lives of her siblings and parents who in turn helped alter the community's response to the disease by founding the Canadian Cystic Fibrosis Foundation With the help of the CF Foundation research and new treatments the fight to save Pam's lasted for years until her death at the age of twenty six This beautifully written memoir offers a compassionate yet unflinching eyewitness account of the hope pain and courage of a family in crisis as it falls apart and puts itself together again and again to emerge stronger and more loving The heart of the story explores the relationship between the two sisters one devastatingly ill the other healthy but burdened with guilt as they journey through childhood adolescence and young adulthood      Searching ... Carol Schaefer, 2014-03-19 How do we find ourselves again after the soul shattering experience of surrendering a child to adoption What does our journey toward healing mean for our families and loved ones for society and most of all for our children and their adoptive family Searching Carol Schaefer's sequel to her acclaimed memoir *The Other Mother A Woman's Love for the Child She Gave Up for Adoption* not only takes the reader through the complex challenges of integrating her son and his adoptive family with her own over the twenty seven years since their reunion she also draws on extensive research as well as the stories of others to offer guidance and hope for creating enriching relationships after reunion Woven within the narrative is Schaefer's remarkable creative journey from overcoming her fears of publicly telling her story through the book's writing and publication to the experience of the NBC movie version airing before an audience of 25 million viewers thirty years after she was hidden away in a home for unwed mothers to conceal her disgraceful secret Carol Schaefer is a gifted and eloquent writer Searching is one person's story but it gives us a lens with which to see the complexity and challenges that adoption brings to everyone that it touches This book should be required for all who live and work in the world of adoption Dr Joyce Maguire Pavao Lecturer in Psychiatry Harvard Medical School and Founder and Director of Riverside After Adoption Consulting and Training Carol Schaefer's new book is wonderfully written and genuinely important It is certainly about adoption but it is much more than that it transcends one person's journey to provide insights into the human experience Adam Pertman Author of *Adoption Nation* and President of the Donaldson Adoption Institute Searching is an exciting new book and the title is appropriate on many levels The author gives wonderful insight into the expectations and misunderstandings that derail reunions Not only do we need to keep searching for ways to make reunions gratifying for everyone concerned but we would also do well to follow Carol's example of finding meaning in what we do I highly recommend this book to everyone in the adoption community and beyond Nancy Verrier MFT Author of *The Primal Wound*
