*Values Education on Human Sexuality Nov 15 2022 SPECIAL QUESTIONS (FOR GRADE 11, THE AGE OF DEEPENING)*  
*The book series is all about education in human sexuality, based on the nourishment and cultivation of the natural gift of a person's character. The series is based on the premise that SEXUALITY EDUCATION is, basically, CHARACTER EDUCATION, which in turn is founded on human dignity and encompasses formation in moral standards and human conduct; hence, covering the key elements of "life and love, and everything in between". Comprising an introductory volume for parents and teachers; a volume for classroom use of teachers; a volume for parents; and eight volumes for Grades 5 to 12, respectively, this current volume is specifically addressed to Grade 6 pupils, about 17 to 18 year olds in their late adolescence. It talks about SPECIAL QUESTIONS: on issues concerning life; sex; marriage; and human identity. Since men and women have been gifted with intellect and will, one becomes highly capable of using well or abusing these powers for the good or damage of self and fellowmen. It is thus extremely important that students at this age have a deep appreciation of the issues confronting the modern world, especially in the realm of sexuality and the channels of its development. The book series is characterized by sound, perennial concepts and by teaching and learning*

*Physical Education 5-11 Dec 05 2021 Physical Education 5-11 is about lighting or relighting a fire in all those who have the privilege and the responsibility of teaching children physical education in Primary schools today. It is written at a time of great change: a revised Primary curriculum; an increased drive to raise achievement and potentially a narrowing of curricular scope in favour of literacy and numeracy. It is little wonder that teachers are looking for certainty and answers to questions such as:- What do I teach in PE? What do I need to know about children's development? What does good teaching look like in PE? How can I assess such a practical subject effectively? This new and updated edition provides answers to those questions, covers issues in Physical Education and provides a wealth of*

*practical advice on teaching across the stages of the new 2014 curriculum. Drawing upon the author's experiences as a teacher, coach, lecturer and adviser, it delivers a justification for PE as an essential element in the Primary curriculum, imbues a theory into practice approach that provides readers with clarity, instils confidence and offers a licence to teach all practical aspects of PE effectively and creatively underpinned by knowledge of children's development, their learning and the critical professional issues in PE today. This book is the essential companion to inform and inspire students and practising teachers in this most dynamic and exciting of subjects!*
