**A Wizard's Guide to Defensive Baking** T. Kingfisher,2020-07-21 Fourteen year old Mona isn't like the wizards charged with defending the city She can't control lightning or speak to water Her familiar is a sourdough starter and her magic only works on bread She has a comfortable life in her aunt's bakery making gingerbread men dance But Mona's life is turned upside down when she finds a dead body on the bakery floor An assassin is stalking the streets of Mona's city preying on magic folk and it appears that Mona is his next target And in an embattled city suddenly bereft of wizards the assassin may be the least of Mona's worries

**Animal Spirits** George A. Akerlof,Robert J. Shiller,2010-02-01 From acclaimed economists George Akerlof and Robert Shiller the case for why government is needed to restore confidence in the economy The global financial crisis has made it painfully clear that powerful psychological forces are imperiling the wealth of nations today From blind faith in ever rising housing prices to plummeting confidence in capital markets animal spirits are driving financial events worldwide In this book acclaimed economists George Akerlof and Robert Shiller challenge the economic wisdom that got us into this mess and put forward a bold new vision that will transform economics and restore prosperity Akerlof and Shiller reassert the necessity of an active government role in economic policymaking by recovering the idea of animal spirits a term John Maynard Keynes used to describe the gloom and despondence that led to the Great Depression and the changing psychology that accompanied recovery Like Keynes Akerlof and Shiller know that managing these animal spirits requires the steady hand of government simply allowing markets to work won't do it In rebuilding the case for a more robust behaviorally informed Keynesianism they detail the most pervasive effects of animal spirits in contemporary economic life such as confidence fear bad faith corruption a concern for fairness and the stories we tell ourselves about our economic fortunes and show how Reaganomics Thatcherism and the rational expectations revolution failed to account for them Animal Spirits offers a road map for reversing the financial misfortunes besetting us today Read it and learn how leaders can channel animal spirits the powerful forces of human psychology that are afoot in the world economy today In a new preface they describe why our economic troubles may linger for some time unless we are prepared to take further decisive action

**What a City Is For** Matt Hern,2016-09-23 An investigation into gentrification and displacement focusing on the case of Portland Oregon's systematic dispersal of black residents from its Albina neighborhood Portland Oregon is one of the most beautiful livable cities in the United States It has walkable neighborhoods bike lanes low density housing public transportation and significant green space not to mention craft beer bars and locavore food trucks But liberal Portland is also the whitest city in the country This is not circumstance the city has a long history of officially sanctioned racialized displacement that continues today Over the last two and half decades Albina the one major Black neighborhood in Portland has been systematically uprooted by market driven gentrification and city renewal policies African Americans in Portland were first pushed into

Albina and then contained there through exclusionary zoning predatory lending and racist real estate practices Since the 1990s they've been aggressively displaced by rising housing costs developers eager to get rid of low income residents and overt city policies of gentrification Displacement and dispossessions are convulsing cities across the globe becoming the dominant urban narratives of our time In *What a City Is For* Matt Hern uses the case of Albina as well as similar instances in New Orleans and Vancouver to investigate gentrification in the twenty first century In an engaging narrative effortlessly mixing anecdote and theory Hern questions the notions of development private property and ownership Arguing that home ownership drives inequality he wants us to disown ownership How can we reimagine the city as a post ownership post sovereign space Drawing on solidarity economics cooperative movements community land trusts indigenous conceptions of alternative sovereignty the global commons movement and much else Hern suggests repudiating development in favor of an incrementalist non market driven unfolding of the city
