[The Journey from Music Student to Teacher](#) Feb 19 2023 From Music Student to Teacher: A Professional Approach helps prospective music educators begin their transition from music student to professional music teacher. The text uniquely works to build upon the individual’s personal experience to enhance their approach to the profession. The authors help students first recognize their personal perspectives of the profession, and uncover the assumptions they have concerning learning and teaching. They are then prepared to make mindful informed decisions about their professional education. The topics and activities are deliberately organized to help the reader think as a professional rather than a student. Divided into three parts: (a) discovery of self, (b) discovery of teaching, and (c) discovery of learners; The three parts address the primary stages of teacher development. Within each part readers are connected to the theoretical foundations of the text and the process of becoming an insider to the profession. From Music Student to Teacher: A Professional Approach incorporates online resources and tools that are already familiar to students in their world of networking through social media Features include: Social networking activities to aid self-reflection and discussion ‘Connecting to the Profession’ sections that provide resources which help to bridge the gap between theory and practice. Discussion and glossary that provide a solid base in professional terminology An integrated companion website, including videos of teaching practice and further activities for self-reflection, plus instructor material. Michael A. Raiber is Professor of Music Education at Oklahoma City University David J. Teachout is Associate Professor and Department Head of Music Education at the University of North Carolina Greensboro.

*Pax, Journey Home* Feb 27 2021 From award-winning author Sara Pennypacker comes the long-awaited sequel to Pax; this is a gorgeously crafted, utterly compelling novel about chosen families and the healing power of love. A New York Times bestseller! It's been a year since Peter and his pet fox, Pax, have seen each other. Once inseparable, they now lead very different lives. Pax and his mate, Bristle, have welcomed a litter of kits they must protect in a dangerous world. Meanwhile Peter—newly orphaned after the war, racked with guilt and loneliness—leaves his adopted home with Vola to join the Water Warriors, a group of people determined to heal the land from the scars of the war. When one of Pax's kits falls desperately ill, he turns to the one human he knows he can trust. And no matter how hard Peter tries to harden his broken heart, love keeps finding a way in. Now both boy and fox find themselves on journeys toward home, healing—and each other, once again. As he did for Pax, Jon Klassen, New York Times bestseller, Caldecott medalist, and two-time Caldecott Honoree, has created stunning jacket and interior illustrations.

**Journey Through the Workbook of A Course in Miracles** Aug 16 2022 This eight-volume set is the end product of a series of classes I conducted at our Foundation's former location in New York. The classes consisted of a line-by-line analysis of the lessons, introductions, reviews, summaries, and the Epilogue. I have considerably enlarged some of the original discussion, supplying additional references to other relevant portions of the Course, the Preface, the two pamphlets, poems from *The Gifts of God*, and the prose poem "The Gifts of God." This work can thus be seen as a complete Course companion to accompany students on their own journey through the workbook. My purpose in presenting the classes originally, as it remains in this book, was to help students better understand the meaning of the lessons and their place in the curriculum of *A Course in Miracles*, and most of all, to help students see the importance of applying the daily lessons to their everyday lives. Without such application, the brilliance of Jesus' words is wasted, and they become simply a sterile system of intellectual teachings. This book can be read in at least three ways: 1) straight through, as one would do with the text; 2) different lessons at different times; or 3) one lesson at a time, as a companion to each lesson. I would urge students, however, if they are doing the workbook for the first time, to read the lessons as they are, without my commentary. In other words, as with all my other work on *A Course in Miracles*, this book is meant to supplement a student's experience of the workbook, not to substitute for the workbook as it was given to us. (Adapted from the Preface)
