PHYSICAL EDUCATION CURRICULUM GUIDE K-12

Introduction

The purpose of this curriculum guide is to provide a framework for the development of physical education programs in Florida's schools. It is designed to ensure that all students have access to quality physical education instruction that promotes physical fitness, health, and well-being.

Physical Education Standards

The standards for physical education are organized into four domains: (1) Motor Skills, (2) Physical Fitness, (3) Health-Related Behaviors, and (4) Social-Emotional Skills. Each domain contains specific standards that describe the knowledge, skills, and attitudes that students should demonstrate by the end of each grade level.

The standards are designed to be challenging yet achievable for all students, and they provide a clear path for teachers to plan and deliver instruction that meets the needs of their students.

Implementation

Physical education programs should be implemented in a way that is consistent with the standards and that provides all students with the opportunity to participate in physical activity. This may include a variety of activities, such as team sports, individual sports, and fitness activities.

Assessment and Evaluation

Physical education programs should include a variety of assessment and evaluation strategies to measure student learning and program effectiveness. This may include self-assessment, peer assessment, and teacher assessment. The results of these assessments should be used to inform instruction and to identify areas for improvement.
