**Go-Kart Alley** Oct 28 2023 When the railroad tracks through Sumner are abandoned, twelve-year-old Jess McCormick and his little brother, Brian, find an opportunity to capitalize on the situation. Seventy-five miles of railroad right-of-way become a go-kart highway, practically running through their backyard. With technical skills beyond those of their peers, endless resources, tools and used parts, they become entrepreneurs by opening up a custom go-kart shop in an old work shed behind their house. Their shop becomes the go-kart center of the trail. Every kid in Sumner and the surrounding area comes to see the small-engine whiz kids about getting modifications made to their go-karts. Everyone scrounges, saves and raids area junkyards in search of resources to build the faster, better go-kart. Some come by the local pizza parlor to challenge Jess, who is known all along the trail to have the fastest go-kart. The hard working boys make a few enemies along the way, but they also embrace friendships. They make a little money, hang out a lot, go on a few hairy rides, and even get a friend or two out of a tight scrape. It isn't until they venture into the world of Jr. Drag Racing that their mechanical as well as business skills are really put to the test.

*Our Last Great Hope* Feb 25 2021 Every day we encounter scores of people headed to an eternity without God. What will it take to wake us up to their desperate need for a Savior? While the earth's time clock ticks away, well-meaning Christians go to church, pay their tithes, and pray for foreign missionaries—going through the motions of Christian life as millions face an eternity without God. If heaven is indeed for real, and only those who have put their faith in Christ will be given entrance, shouldn't we be making the most of every opportunity to share the Gospel, the last great hope for all the world? Join pastor Ronnie Floyd as he challenges readers to face reality and begin a global movement to reach the lost. He says, "God is calling us to an awakening regarding his most urgent command found in Matthew 28:19 to go and make disciples of all nations. This Great Commission is the compelling charge given to us with divine authority by our Commander in Chief, Jesus Christ." *Our Last Great Hope* will move us beyond casual and theoretical talk about the Great Commission and lead us into a Great Awakening. "This book could revolutionize the way we think. . . . Read it and be inspired, changed, and equipped." —Bruce Wilkinson, best-selling author of *The Prayer of Jabez* "Floyd challenges us to engage the next generation . . . a must-read." —Greg Surratt, lead pastor of Seacoast Church and author of *IR-REV-REND* "This book inspires me to do extraordinary things through my most ordinary life. *Our Last Great Hope* should be your first required read." —Leonard Sweet, best-selling author of *Jesus Manifesto* "Our Last Great Hope pushes us beyond predictability and points us to a deep, intimate knowledge of why we are here." —Ed Young Jr., pastor of Fellowship Church and author of *Outrageous, Contagious Joy* "I'll be pulling this book off my shelf again and again." —Pete Wilson, author of *Plan B and Empty Promises* "This book is an energizing wake-up call to today's churches." —Ed Stetzer, director of LifeWay Research

Design and Fabrication of Cost Effective Go Kart Jan 31 2024 The Go Kart is a type of open wheel car. Go Karts come in all shapes and size, from motor less models to high powered racing machines. Some such as Super karts are able to beat racing cars or motorcycles on long circuit. It is a small four wheeler run by I.C Engine. It is a miniature of a racing car. Go Kart is not a factory made product; it can be made by engineers. This report documents the process and methodology to produce a low cost go-kart. Now a days the Go Karts which are available in the market which have cost more than Rs.1 lakh. We have made a simple, self-fabricated Go Kart in just 50000 rupees. Chassis formed by hollow rectangular bar, powered by 125 cc engine fitted with disc brake. The chassis are made of mild steel. There is no suspension therefore chassis have to be flexible enough to work as a suspension and stiff enough not to break or give way on a turn. We are replacing hollow tubular shaft with hollow rectangular shaft. The purposes of this replacement are; For the same length of tubular shaft, rectangular shaft weighs the same, for visual improvement, for better mounting ability and the main thing is our aim is to make a Kart which is cost effective and it is found that hollow rectangular shaft has more bending stress than the tubular shaft.

*High-Performance Cams & Valvetrains* Apr 09 2022 Understand the "magic" of how optimized camshafts extract the most performance from every engine component, eliminating valvetrain guesswork. Camshafts are the coach and conductor of any four-stroke engine from early flatheads to modern Formula 1. Performance engines are amazingly sensitive to how and when the valves to the combustion chamber open and close. The valvetrain configuration and flow characteristics may change significantly between applications, but the fundamental principles are universal. This allows the language, setup, dynamics, energy, and pressure aspects of a valvetrain to be covered in a way that is just as useful for optimizing a sub-15-hp go-kart engine as it is on a 500-plus-hp street engine or modern 1,500-plus-hp NHRA Pro Stock engine. In *High-Performance Cams & Valvetrains: Theory, Technology, and Selection*, farm kid-turned-physicist Billy Godbold combines his quarter-century of experience with valvetrains at Comp Cams, Lunati, Crane Cams, and Edelbrock along with the techniques he uses with professional teams in NASCAR, NHRA, road racing, dirt track racing, offshore racing, and land speed racing, guiding you to think about any valvetrain system with his perspective. Often lighthearted and filled with analogies, this book endeavors to make complex concepts easy to understand without ever watering down important details. Specific configurations and applications are covered, providing techniques and examples for optimizing camshafts and the valvetrain around intakes, headers, superchargers, turbochargers, fuels, carburetors, and modern EFI applications. If you are planning or building a classic hot rod (Chevy, Ford, Chrysler, etc.), modern performance (LS, Hemi, Coyote, or Godzilla), or competition engine (road racing, circle track racing, or drag racing), these practical details show you how any valvetrain system should be modified to extract the most from every component and help you achieve your unique goals.

**Karting** May 23 2023 Now that people are starting to see that karting is the perfect training ground for professional racers of all stripes—as well as a not-so-expensive alternative to full-scale road racing and oval track racing—it's become the fastest-growing motorsport in the U.S. and the world. For the novice confronted with a bewildering array of choices—kart types and classes, road racing, sprint track racing, oval racing—this book offers answers. The best single resource on kart racing, *Karting* will teach you the ins and outs of the sport, from choosing a class and kart to selecting safety equipment to performing maintenance and mastering racing techniques that will get you up to speed on the track.
