A set of textbooks for United States history from earliest Indian civilizations to the present, with maps, charts, activities, study questions, and review chapters. With 26 primary source documents, The American Nation, Twelfth Edition, Primary Source Edition, Volume Two, has everything students need to master the course—a rich text with a clear, relevant, and balanced portrait of the social, economic, and cultural issues in U.S. history plus a wealth of original documents that help make the material come alive. In addition, "Document Analysis" questions encourage students to delve deeper into the documents and to explore how they relate to the events of the time. Book jacket. • A New Republic Best Book of the Year • The Globalist Top Books of the Year • Winner of the Maine Literary Award for Non-fiction Particularly relevant in understanding who voted for who during presidential elections, this is an endlessly fascinating look at American regionalism and the eleven "nations" that continue to shape North America According to award-winning journalist and historian Colin Woodard, North America is made up of eleven distinct nations, each with its own unique historical roots. In American Nations he takes readers on a journey through the history of our fractured continent, offering a revolutionary and revelatory take on American identity, and how the conflicts between them have shaped our past and continue to mold our future. From the Deep South to the Far West, to Yankeedom to El Norte, Woodard (author of American Character: A History of the Epic Struggle Between Individual Liberty and the Common Good) reveals how each region continues to uphold its distinguishing ideals and identities today, with results that can be seen in the composition of the U.S. Congress or on the county-by-county election maps of any hotly contested election in our history. Excerpt from A History of the American Nation A History of the American Nation was written by Andrew C. McLaughlin in 1909. This is a 649 page book, containing 182641 words and 163 pictures. Search Inside is enabled for this title. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works. The American Nation makes available, in one volume, many of the most crucial documents necessary for understanding the variety of policies and viewpoints driving American public life during an important, substantive part of American history. The primary sources in The American Nation are relevant to the Civil War, Reconstruction, the rise of a national capitalist system and culture, the waves of reform-minded thought and policy that moved the nation toward formation of the national administrative and welfare states, and America's emergence as a major power on the world stage. This period was a watershed in the history of the nation -- the time of establishing and consolidating national power and laying the foundations of a national government committed to promoting the material well-being of Americans. It was an era that witnessed the development of the nation-state and the establishment of the New Deal regime, which set the stage for the radical social movements of the 1960s and beyond. A textbook tracing the political, social, and economic history of the United States from the discovery of America to the present day. The Primary Source Edition of The American Nation shows how the political history of the United States is intimately tied to the social, economic and cultural development of the nation. The Primary Source Edition utilizes primary sources, along with critical thinking questions for each, to immerse the reader in the unfolding story of America. Co-authors Mark Carnes and John Garraty explore the relationship between these various histories and show how it took the voices and actions of many peoples to produce this singular political structure - The United States of America. Long renowned for its elegant narrative style, The American Nation in this Twelfth Edition retains its most significant strength—its rich and memorable prose. Are we now, or have we ever been, a nation? As this century comes to a close, debates over immigration policy, racial preferences, and multiculturalism challenge the consensus that formerly grounded our national culture. The question of our national identity is as urgent as it has ever been in our history. Is our society disintegrating into a collection of separate ethnic enclaves, or is there a way that we can forge a coherent, unified identity as we enter the 21st century? In this "marvelously written, wide-ranging and thought-provoking" book, Michael Lind provides a comprehensive revisionist view of the American past and offers a concrete proposal for nation-building reforms to strengthen the American future. He shows that the forces of nationalism and the ideal of a trans-racial melting pot need not be in conflict with each other, and he provides a practical agenda for a liberal nationalist revolution that would combine a new color-blind liberalism in civil rights with practical measures for reducing class-based barriers to racial integration. A stimulating critique of every kind of orthodox opinion as well as a vision of a new "Trans-American" majority, The Next American Nation may forever change the way we think and talk about American identity. *New York Newsday A textbook tracing the political, social, and economic history of the United States from the discovery of America to the present day. ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable.
