The Constitution Sep 28 2023

Historical Dictionary of the U.S. Constitution Dec 20 2022 The Historical Dictionary of the U.S. Constitution covers the Founding of the American Republic and the Framers, the drafting of the Constitution, constitutional debates over ratification, and traces key events, Supreme Court chief justices, amendments, and Supreme Court cases regarding the interpretation of the Constitution from 1789-2016. The Historical Dictionary of the U.S. Constitution contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 300 cross-referenced entries on key figures in the Founding, Supreme Court chief justices, explanations of the Articles and Amendments to the Constitution, and key Supreme Court cases. This book is an excellent access point for students, researchers, and anyone wanting to know more about the U.S. Constitution.

The Founders' Key Feb 07 2022 Larry P. Arn explores the significance of the Declaration of Independence and the Constitution, and provides a powerful call for us to rediscover the connection between these two documents, and thereby restore our political faith and revive our free institutions.

Constitutional Rights Mar 30 2021 Buy a new version of this Connected Casebook and receive access to the online e-book, practice questions from your favorite study aids, and an outline tool on CasebookConnect, the all in one learning solution for law school students.

CasebookConnect offers you what you need most to be successful in your law school classes - portability, meaningful feedback, and greater efficiency. Constitutional Rights: Cases in Context, Second Edition places primary emphasis on how constitutional law has developed since the Founding, its key foundational principles, and recurring debates. By providing both cases and context, it conveys the competing narratives that all lawyers ought to know and all constitutional practitioners need to know. Teachable, manageable, class-sized chunks of material are suited to one-semester courses or reduced credit configurations. Generous case excerpts make the text flexible for most courses. Cases are judiciously supplemented with background readings from various sources. Innovative study guide questions presented before each case help students focus on the salient issues, challenging them to consider the court's opinions from various perspectives, and suggesting comparisons or connections with other cases. Key Benefits: Revised doctrinal areas with newer cases. Updated background contextual material to reflect current scholarship. A highly accessible and engaging structure that examines the competing narratives that pervade the development of American constitutional law since the founding. Related cases are grouped together into "assignments" and make for a reasonable amount of reading for each topic. A wealth of photographs, maps, and primary documents to bring the cases to life. CasebookConnect features: ONLINE E-BOOK Law school comes with a lot of reading, so access your enhanced e-book anytime, anywhere to keep up with your coursework. Highlight, take notes in the margins, and search the full text to quickly find coverage of legal topics. PRACTICE QUESTIONS Quiz yourself before class and prep for your exam in the Study Center. Practice questions from Examples & Explanations, Emanuel Law Outlines, Emanuel Law in a Flash flashcards, and other best-selling study aid series help you study for exams while tracking your strengths and weaknesses to help optimize your study time.

OUTLINE TOOL Most professors will tell you that starting your outline early is key to being successful in your law school classes. The Outline Tool automatically populates your notes and highlights from the e-book into an editable format to accelerate your outline creation and increase study time later in the semester.

The Constitution Today Apr 11 2022 A leading legal scholar addresses the most important constitutional controversies of the past two decades and illuminates the Constitution's spirit and ongoing relevance America's Constitution, Chief Justice John Marshall famously observed in McCulloch v. Maryland, aspires "to endure for ages to come." The daily news has a shorter shelf life, and when the issues of the day involve momentous constitutional questions, present-minded journalists and busy citizens cannot always see the stakes clearly. In The Constitution Today, Akhil Reed Amar, America's preeminent constitutional scholar, considers the biggest and most bitterly contested debates of the last two decades and provides a passionate handbook for thinking constitutionally about today's headlines. Amar shows how the Constitution's text, history, and structure are a crucial repository of collective wisdom, providing specific rules and grand themes relevant to every organ of the American body politic. Prioritizing sound constitutional reasoning over partisan preferences, he makes the case for diversity-based affirmative action and a right to have a gun in one's home for self-protection, and against spending caps on independent political advertising and bans on same-sex marriage. He explains what's wrong with presidential dynasties, advocates a "nuclear option" to restore majority rule in the Senate, and suggests ways to reform the Supreme Court. And he revisits three dramatic constitutional conflicts -- the impeachment of Bill Clinton, the contested election of George W. Bush, and the fight over Barack Obama's Affordable Care Act -- to show what politicians, judges, and journalists got right as events unfolded and what they missed. Leading readers through the particular constitutional questions at stake in each episode while outlining his abiding views regarding the Constitution's letter, its spirit, and the direction constitutional law must go, Amar offers an essential guide for anyone seeking to understand America's Constitution and its relevance today.

Story of the Constitution 2e Answer Key May 01 2021

The Key to the Constitution of the United States Apr 04 2024

A Patriot's Call to Action Nov 06 2021 A Patriot's Call to Action will enable busy Americans to more easily square today's unending political palaver and double-talk with our Constitution's original intent. In bite-sized form, this eminently readable book clearly summarizes some key constitutional concepts, like the Supremacy Clause, the Welfare Clause, Nullification, Executive Orders, Impeachment, Secession, etc., which will enable the reader to distinguish between politically correct, agenda-driven interpretations of the Constitution and what our Founders actually intended. Given the complacency gripping the country and the political ruling class's brazen circumvention of foundational Constitutional restraints, the author fearlessly and unambiguously reminds us of our God-given rights, authority and responsibilities as citizens of a republic, and outlines a commonsense action plan for restoring constitutional order. The author posits that too many Americans are conditioned to the "benefits" of collectivism and the seductive, yet empty, promises of a suffocatingly expansive central government. Uninformed and seduced by the razzle-dazzle of self-serving political elites, many Americans have carelessly permitted our government to lead us on the path toward economic ruin and political oppression—developments which would have dumbfounded and enraged our Founding Fathers. The author unflinchingly asserts that to believe we are a republic today is foolhardy at best, delusional at worst. Absent bold grassroots remedies, the author asserts that our wealth,

our way of life, our liberties will surely go the way of the dinosaurs. If you're looking for simple-minded validation of your political party affiliation, this book isn't for you. Some of what the author says will rankle, but it will make you think and, hopefully, will encourage you to take action to restore and safeguard those principles and practices which made America history's most productive experiment in self-government.

Key Issues in Constitutional History Oct 30 2023 Presents reproducible material about the key issues in American history centering on the American Constitution.

The Key to the Constitution of the United States Jun 06 2024

The Key to the Constitution of the U. S. Mar 03 2024

The United States Constitution Jun 25 2023 My strategy in writing about the Constitution of the United States was to determine the intent of our Founding Fathers without creating doubt regarding their meaning and intent. I did not want any reader to think that I was bias and/or that my interpretation or opinion was incorrect. I also did not want any reader to even think that my writing about the Constitution was an interpretation and/or an opinion. My objective was to key in on certain key words and reference the definitions of those words to determine the intent of the Founding Fathers. This approach was selected to remove any personal interpretation and/or opinion on my part so that my writing would automatically avoid any personal interpretation and/or opinion. My secondary objective was to allow the reader to better understand what kind of government and democracy the Founder Fathers intended to create and leave no doubt as to their intent. The third objective was to prove how much more important the Preamble of the Constitution is because the Preamble of the Constitution establishes every federal agency and/or department to aEURopromote the general WelfareaEUR by the function of those agencies and/or departments. The fourth and last of my objectives was to prove that everything written in the Constitution was ordained, i.e., aEURoordered by virtue of superior authority,aEUR as per the dictionary definition. Therefore, since constitutional law is the supreme Law of the Land and no one is above the law, as per Article VI of the Constitution, any American that disobeys and/or ignores the Constitution commits a crime against the Constitution, which is the supreme Law of the Land, and becomes a domestic enemy.

National Security Law and the Constitution Mar 23 2023 The purchase of this ebook edition does not entitle you to receive access to the Connected eBook on CasebookConnect. You will need to purchase a new print book to get access to the full experience including: lifetime access to the online ebook with highlight, annotation, and search capabilities, plus an outline tool and other helpful resources. National Security Law and the Constitution provides a comprehensive examination and analysis of the inherent tension between the Constitution and select national security policies, and it explores the multiple dimensions of that conflict. Specifically, the Second Edition comprehensively explores the constitutional foundation for the development of national security policy and the exercise of a wide array of national security powers. Each chapter focuses on critically important precedents, offering targeted questions following each case to assist students in identifying key concepts to draw from the primary sources. Offering students a comprehensive yet focused treatment of key national security law concepts, National Security Law and the Constitution is well suited for a course that is as much an advanced "as applied" constitutional law course as it is a national security law or international relations course. New to the Second Edition: New author Gary Corn is the program director for the Tech, Law and Security Program at American University Washington College of Law, and most recently served as the Staff Judge Advocate to U.S. Cyber Command, the capstone to a distinguished career spanning over twenty-seven years as a military lawyer Two new chapters: Chapter 1 (An

Introduction to the “National Security” Constitution), and Chapter 17 (National Security in the Digital Age) Professors and students will benefit from: An organizational structure tailored to present these national powers as a coherent “big picture,” with the aim of understanding their interrelationship with each other, and the legal principles they share A comprehensive treatment of the relationship between constitutional, statutory, and international law, and the creation and implementation of policies to regulate the primary tools in the government’s national security arsenal Targeted case introductions and follow-on questions, enabling students to maximize understanding of the text Text boxes illustrating key principles with historical events, and highlight important issues, rules, and principles closely related to the primary sources Chapters that focus on primary or key authorities with limited diversion into secondary sources A text structure generally aligned to fit a three-hour, one-semester course offering

Relic Jul 03 2021 "Our government is failing us. Can we simply blame polarization, the deregulation of campaign finance, or some other nefarious force? What if the roots go much deeper, to our nation's start? In Relic, the political scientists William Howell and Terry Moe boldly argue that nothing less than the U.S. Constitution is the cause of government dysfunction. The framers came from a simple, small, agrarian society, and set forth a government comprised of separate powers, one of which, Congress, was expected to respond to the parochial concerns of citizens across the land. By design, the national government they created was incapable of taking broad and meaningful action. But a hundred years after the nation's founding, the United States was transformed into a complex, large, and industrial society. The key, they argue, is to expand the powers of the president. Presidents take a longer view of things out of concern for their legacies, and are able to act without hesitation. To back up this controversial remedy, Howell and Moe offer an incisive understanding of the Progressive Movement of the late 19th and early 20th centuries, one of the most powerful movements in American history. The Progressives shone a bright light on the mismatch between our constitutional government and the demands of modernity, and they succeeded in changing our government, sidelining Congress and installing a presidentially-led system that was more able to tackle the nation's vast social problems. Howell and Moe argue that we need a second Progressive Movement dedicated to effective government, above all to reforms that promote strong presidential leadership. For it is through the presidency that the American government can address the problems that threaten the very stability of our society"--

The Key to the Constitution of the United States Jul 07 2024

The People’s Constitution Oct 18 2022 The 233-year story of how the American people have taken an imperfect constitution—the product of compromises and an artifact of its time—and made it more democratic Who wrote the Constitution? That’s obvious, we think: fifty-five men in Philadelphia in 1787. But much of the Constitution was actually written later, in a series of twenty-seven amendments enacted over the course of two centuries. The real history of the Constitution is the astonishing story of how subsequent generations have reshaped our founding document amid some of the most colorful, contested, and controversial battles in American political life. It’s a story of how We the People have improved our government’s structure and expanded the scope of our democracy during eras of transformational social change. The People’s Constitution is an elegant, sobering, and masterly account of the evolution of American democracy. From the addition of the Bill of Rights, a promise made to save the Constitution from near certain defeat, to the post–Civil War battle over the Fourteenth Amendment, from the rise and fall of the “noble experiment” of Prohibition to the defeat and resurgence of an Equal Rights Amendment a century in the making, The People’s Constitution is the first book of its

kind: a vital guide to America's national charter, and an alternative history of the continuing struggle to realize the Framers' promise of a more perfect union.

A Practical Guide to Constitution Building Jun 13 2022 "A Practical Guide to Constitution Building provides an essential foundation for understanding constitutions and constitution building. Full of world examples of ground-breaking agreements and innovative provisions adopted during processes of constitutional change, the Guide offers a wide range of examples of how constitutions develop and how their development can establish and entrench democratic values. Beyond comparative examples, the Guide contains in-depth analysis of key components of constitutions and the forces of change that shape them. The Guide analyzes the adoption of the substantive elements of a new constitution by looking at forces for the aggregation or dissemination of governmental power, and forces for greater legalization or politicization of governmental power, and examining how these forces influence the content of the constitution. It urges practitioners to look carefully at the forces at play within their individual contexts in order to better understand constitutional dynamics and play a role in shaping a constitution that will put into place a functioning democratic government and foster lasting peace."--

From Words to Worlds Aug 04 2021 In the 225 years since the United States Constitution was first drafted, no single book has addressed the key questions of what constitutions are designed to do, how they are structured, and why they matter. In From Words to Worlds, constitutional scholar Beau Breslin corrects this glaring oversight, singling out the essential functions that a modern, written constitution must incorporate in order to serve as a nation's fundamental law. Breslin lays out and explains the basic functions of a modern constitution-including creating a new citizenry, structuring the institutions of government, regulating conflict between layers and branches of government, and limiting the power of the sovereign. He also discusses the theoretical concepts behind the fundamentals of written constitutions and examines in depth some of the most important constitutional charters from around the world. In assaying how states put structural ideas into practice, Breslin asks probing questions about why-and if-constitutions matter. Solidly argued and engagingly written, this comparative study in constitutional thought demonstrates clearly the key components that a state's foundational document must address. Breslin draws a critically important distinction between constitutional texts and constitutional practice.

The Language of the Constitution Feb 19 2023 What did the Founding Fathers mean when they wrote the Constitution? What did the right to keep and bear arms or an establishment of religion or the republican form of government mean to the founders? Obviously, as enlightened men of the late eighteenth century, they were familiar with a host of ideas and concepts drawn from ancient political theory as well as contemporary political pamphleteers. However, as our language has evolved the precise meaning of the words of the founders has become obscure as well as misunderstood. To make the words and concepts used by the founders clear to modern readers, Greene and his colleagues have gone back to the sources known to the founders and excerpted the key passages from these sources that bear on the language and concepts of the Constitution and the Bill of Rights. More than eighty key words are organized in alphabetical order, from accusation to witness. Under each entry, passages from key sources are provided in chronological order from as early as 1215 to December 15, 1791. Augmented by a concordance to the Constitution and a general subject index, The Language of the Constitution provides easy access to the key concepts and ideas of the Constitution as the founders understood them. This volume is invaluable for students and legal professionals, including lawyers, legislators, and judges of the state courts (which are now interpreting the

federal constitution), as well as the federal courts. It is an essential acquisition for public, school, university, and law school libraries.

History of the United States Democracy: Key Civil Rights Acts, Constitutional Amendments, Supreme Court Decisions & Acts of Foreign Policy (Including Declaration of Independence, Constitution & Bill of Rights) Feb 02 2024 This eBook edition of "History of the United States Democracy: Key Civil Rights Acts, Constitutional Amendments, Supreme Court Decisions & Acts of Foreign Policy" has been formatted to the highest digital standards and adjusted for readability on all devices. This is a unique collection of U.S. Government legal documents that shaped and built the American democracy. From the Declaration of Independence to the Civil Rights Act of 1968, this collection contains 40 most important acts and decisions which forged the legal system and democratic principles of USA: Declaration of Independence (1776) U.S. Constitution (1787) Bill of Rights (1791) Amendments (1792-1991) The Federalist Papers (1787-1788) Marbury v. Madison (1803) The Louisiana Purchase Treaty (1803) Treaty of Ghent (1814) Monroe Doctrine (1823) Treaty of Guadalupe Hidalgo (1848) Emancipation Proclamation (1863) Gettysburg Address (1863) The Civil Rights Act of 1866 Treaty of Fort Laramie/Sioux Treaty (1868) The Enforcement Act of 1870 The Second Enforcement Act of 1871 (Ku Klux Klan Act of 1871) Civil Rights Act of 1875 Interstate Commerce Act (1887) Dawes Act (1887) Sherman Anti-Trust Act (1890) Plessy v. Ferguson (1896) Keating-Owen Child Labor Act of 1916 (1916) President Woodrow Wilson's 14 Point Program (1918) National Industrial Recovery Act (1933) Social Security Act (1935) Lend-Lease Act (1941) Brown v. Board of Education (1954) Civil Rights Act of 1957 Civil Rights Act of 1960 Establishment of the Peace Corps (1961) Test Ban Treaty (1963) Equal Pay Act of 1963 Civil Rights Act of 1964 Tonkin Gulf Resolution (1964) Heart of Atlanta Motel, Inc. v. United States (1964) Voting Rights Act (1965) Loving v. Virginia (1967) Civil Rights Act of 1968 Rehabilitation Act of 1973 Pregnancy Discrimination Act of 1978

In Defense of the Constitution: Ending America's Occupation Jan 21 2023 This highly controversial book is going to change the political and cultural direction and scene of America in the 21st Century. It will do this by providing Americas Compatriots the tools theyve been searching for to stop Americas Government, Supreme Court Judges, and Politicians from continuing to push this great Republic into the Abyss of a Borderless and lawless nation. By analyzing key words and the US Constitution, this book shows Americas Compatriots how to stop their Government from wresting power from the Republic (a Government who continues to misinterpret and misread key parts of the Constitution). And, unfortunately for the Republic, these misinterpretations are allowing Mexicos (and other foreign nations) criminal citizens and colonizers to invade and occupy US sovereign soil, destroy Americas Western Christian Culture via cultural genocide, and allowing their American born (not-legal) children to claim unlawful citizenship. Unfortunately for Mexicos colonizing invaders and these children, this book proves these lawless colonizers invasion, is not, any kind of immigration, so politicians are breaking Federal law to protect them. Chapter 1: This book tells readers why this book was written; Chapters 2 through 4 are this books heart. It introduces readers to key literary facts, definitions, and analysis of the Constitution, and key sections that prove Americas Government and politicians have betrayed the Republics Citizens. Finally, Chapter 5, and the 3 Appendixes sum up and complete the research. We feel, with these facts, Americans should be ready to save the Country that our Constitutions drafters wrote was blessed and ordained by God. We hope they will be ready to fight these rogue politicians and judges, and to stop the cultural genocide of Americas Western Christian culture, English language, and US sovereignty.

The U.S. Constitution and Other Key American Writings Nov 30 2023

The U.S. Constitution and Other Key American Writings Aug 28 2023 A collection of essential documents from American history, now with a creatively embroidered cover. *The U.S. Constitution and Other Key American Writings* is a collection of the crucial documents that established the United States. In addition to the Constitution, readers can study supplementary texts such as the Declaration of Independence, the Articles of Confederation, the Federalist Papers, and even important speeches by early presidents. The Founding Fathers' inspirational and revolutionary ideals are all included in these doctrines, and this is a perfect volume for anyone who finds the history of America to be a fascinating and enlightening journey. This *Crafted Classics* edition features a decorative cover to give the book a unique embroidered appearance.

The Founders' Key Jan 01 2024 Today the integrity and unity of the Declaration of Independence and the Constitution are under attack by the Progressive political movement. And yet, writes Larry P. Arnn: "The words of the Declaration of Independence ring across the ages. The arrangements of the Constitution have a way of organizing our actions so as to produce certain desirable results, and they have done this more reliably than any governing instrument in the history of man. Connect these arrangements to the beauty of the Declaration and one has something inspiring and commanding." From Chapter 2, *The Founders' Key* Dr. Arnn, president of Hillsdale College, reveals this integral unity of the Declaration and the Constitution. Together, they form the pillars upon which the liberties and rights of the American people stand. United, they have guided history's first self-governing nation, forming our government under certain universal and eternal principles. Unfortunately, the effort to redefine government to reflect "the changing and growing social order" has gone very far toward success. Politicians such as Franklin Roosevelt found ways to condemn and discard the Constitution and to redefine the Declaration to justify government without limit. As a result, both documents have been weakened, their influence diminished, and their meaning obscured—paving the way for the modern administrative state, unaccountable to the will of the people. *The Founders' Key* is a powerful call to rediscover the connection between these two mighty documents, and thereby restore our political faith and revive our free institutions.

The Invisible Constitution May 25 2023 As everyone knows, the United States Constitution is a tangible, visible document. Many see it in fact as a sacred text, holding no meaning other than that which is clearly visible on the page. Yet as renowned legal scholar Laurence Tribe shows, what is not written in the Constitution plays a key role in its interpretation. Indeed some of the most contentious Constitutional debates of our time hinge on the extent to which it can admit of divergent readings. In *The Invisible Constitution*, Tribe argues that there is an unseen constitution--impalpable but powerful--that accompanies the parchment version. It is the visible document's shadow, its dark matter: always there and possessing some of its key meanings and values despite its absence on the page. As Tribe illustrates, some of our most cherished and widely held beliefs about constitutional rights are not part of the written document, but can only be deduced by piecing together hints and clues from it. Moreover, some passages of the Constitution do not even hold today despite their continuing existence. Amendments may have fundamentally altered what the Constitution originally said about slavery and voting rights, yet the old provisos about each are still in the text, unrevised. Through a variety of historical episodes and key constitutional cases, Tribe brings to life this invisible constitution, showing how it has evolved and how it works. Detailing its invisible structures and principles, Tribe compellingly demonstrates the invisible constitution's existence and operative power.

Remarkably original, keenly perceptive, and written with Tribe's trademark analytical flair, this latest volume in Oxford's Inalienable Rights series offers a new way of understanding many of the central constitutional debates of our time. About the Series: Combining authority with wit, accessibility, and style, Very Short Introductions offer an introduction to some of life's most interesting topics. Written by experts for the newcomer, they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics, from philosophy to Freud, quantum theory to Islam.

Inside Constitutional Law Sep 16 2022 With dynamic learning features and visual aids, the Inside Series helps you make the most of your study time, throughout the semester and as you prepare for the final. Unlike heavily abridged treatises, the Inside Series is carefully written in a concise, straightforward style that clearly identifies the essential components of the law and how they fit together. You can quickly learn what is important and why. Overviews and Tables of Contents in each chapter act as a roadmap to guide you through topics, showing you how each relates to the larger legal framework. FAQs clarify points of law and help you avoid common mistakes and misconceptions. Sidebars give fascinating additional detail from legal history, policy, famous cases and more. The graphic design supports your visual learning, and features such as bolded key terms, summaries, and Connections help reinforce your understanding while giving you ample opportunity for self-review. Surprisingly concise, visually compelling, the Inside Series is extremely useful throughout the semester to help you identify the essential components of the law and how they fit together. Comprehensive coverage of the essential topics emphasizes what you need to know and why. Clear, straightforward, informal writing explains every topic for you without over-simplifying the concepts. Overviews and Tables of Contents in each chapter act as a roadmap to guide you through topics, showing you why each matters and how it fits into the larger framework of the law. FAQs clarify points of law and help you avoid common mistakes and misconceptions. Sidebars enrich the text with fascinating detail from legal history, policy, famous cases and more. Bolded key terms, Connections and summaries reinforce your understanding and give you ample opportunity for self-review. The overall graphical design of the series supports your visual learning.

Founding Factions Jan 09 2022 The fundamental importance of the 1787 Constitutional Convention continues to affect contemporary politics. The Constitution defines the structure and limits of the American system of government, and it organizes contemporary debates about policy and legal issues—debates that explicitly invoke the intentions and actions of those delegates to the Convention. Virtually all scholarship emphasizes the importance of compromise between key actors or factions at the Convention. In truth, the deep structure of voting at the Convention remains somewhat murky because the traditional stories are incomplete. There were three key factions at the Convention, not two. The alliance of the core reformers with the slave interests helped change representation and make a stronger national government. When it came time to create a strong executive, a group of small state delegates provided the crucial votes. Traditional accounts gloss over the complicated coalition politics that produced these important compromises, while this book shows the specific voting alignments. It is true that the delegates came with common purposes, but they were divided by both interests and ideas into three crosscutting factions. There was no persistent dominant coalition of reformers or nationalists; rather, there was a series of minority factions allying with one another on the major issues to fashion the compromise. Founding Factions helps us understand the nature of shifting majorities and how they created the American government.

The Constitution of Knowledge Dec 08 2021 Arming Americans to defend the truth from today's

war on facts “In what could be the timeliest book of the year, Rauch aims to arm his readers to engage with reason in an age of illiberalism.” —Newsweek A New York Times Book Review Editors' Choice Disinformation. Trolling. Conspiracies. Social media pile-ons. Campus intolerance. On the surface, these recent additions to our daily vocabulary appear to have little in common. But together, they are driving an epistemic crisis: a multi-front challenge to America's ability to distinguish fact from fiction and elevate truth above falsehood. In 2016 Russian trolls and bots nearly drowned the truth in a flood of fake news and conspiracy theories, and Donald Trump and his troll armies continued to do the same. Social media companies struggled to keep up with a flood of falsehoods, and too often didn't even seem to try. Experts and some public officials began wondering if society was losing its grip on truth itself. Meanwhile, another new phenomenon appeared: “cancel culture.” At the push of a button, those armed with a cellphone could gang up by the thousands on anyone who ran afoul of their sanctimony. In this pathbreaking book, Jonathan Rauch reaches back to the parallel eighteenth-century developments of liberal democracy and science to explain what he calls the “Constitution of Knowledge”—our social system for turning disagreement into truth. By explicating the Constitution of Knowledge and probing the war on reality, Rauch arms defenders of truth with a clearer understanding of what they must protect, why they must do—and how they can do it. His book is a sweeping and readable description of how every American can help defend objective truth and free inquiry from threats as far away as Russia and as close as the cellphone.

Our Republican Constitution Jul 27 2023 A concise history of the long struggle between two fundamentally opposing constitutional traditions, from one of the nation's leading constitutional scholars—a manifesto for renewing our constitutional republic. The Constitution of the United States begins with the words: “We the People.” But from the earliest days of the American republic, there have been two competing notions of “the People,” which lead to two very different visions of the Constitution. Those who view “We the People” collectively think popular sovereignty resides in the people as a group, which leads them to favor a “democratic” constitution that allows the “will of the people” to be expressed by majority rule. In contrast, those who think popular sovereignty resides in the people as individuals contend that a “republican” constitution is needed to secure the pre-existing inalienable rights of “We the People,” each and every one, against abuses by the majority. In *Our Republican Constitution*, renowned legal scholar Randy E. Barnett tells the fascinating story of how this debate arose shortly after the Revolution, leading to the adoption of a new and innovative “republican” constitution; and how the struggle over slavery led to its completion by a newly formed Republican Party. Yet soon thereafter, progressive academics and activists urged the courts to remake our Republican Constitution into a democratic one by ignoring key passages of its text. Eventually, the courts complied. Drawing from his deep knowledge of constitutional law and history, as well as his experience litigating on behalf of medical marijuana and against Obamacare, Barnett explains why “We the People” would greatly benefit from the renewal of our Republican Constitution, and how this can be accomplished in the courts and the political arena.

Constitutional Structure Feb 27 2021 The purchase of this ebook edition does not entitle you to receive access to the Connected eBook with Study Center on CasebookConnect. You will need to purchase a new print book to get access to the full experience, including: lifetime access to the online ebook with highlight, annotation, and search capabilities; practice questions from your favorite study aids; an outline tool and other helpful resources. *Constitutional Structure: Cases*

in Context, Second Edition places primary emphasis on how constitutional law has developed since the Founding, its key foundational principles, and recurring debates. By providing both cases and context, it conveys the competing narratives that all lawyers ought to know and all constitutional practitioners need to know. Teachable, manageable, class-sized chunks of material are suited to one-semester courses or reduced credit configurations. Generous case excerpts make the text flexible for most courses. Cases are judiciously supplemented with background readings from various sources. Innovative study guide questions presented before each case help students focus on the salient issues, challenging them to consider the court's opinions from various perspectives, and suggesting comparisons or connections with other cases. Key Benefits: Revised doctrinal areas with newer cases. Updated background contextual material to reflect current scholarship. A highly accessible and engaging structure that examines the competing narratives that pervade the development of American constitutional law since the founding. Related cases are grouped together into "assignments" and make for a reasonable amount of reading for each topic. A wealth of photographs, maps, and primary documents to bring the cases to life.

The Negotiable Constitution May 13 2022 In matters of rights, constitutions tend to avoid settling controversies. With few exceptions, rights are formulated in open-ended language, seeking consensus on an abstraction without purporting to resolve the many moral-political questions implicated by rights. The resulting view has been that rights extend everywhere but are everywhere infringed by legislation seeking to resolve the very moral-political questions the constitution seeks to avoid. The Negotiable Constitution challenges this view. Arguing that underspecified rights call for greater specification, Grégoire C. N. Webber draws on limitation clauses common to most bills of rights to develop a new understanding of the relationship between rights and legislation. The legislature is situated as a key constitutional actor tasked with completing the specification of constitutional rights. In turn, because the constitutional project is incomplete with regards to rights, it is open to being re-negotiated by legislation struggling with the very moral-political questions left underdetermined at the constitutional level.

The Federalist Papers Apr 23 2023 Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

Key Word in Context Index to the Constitution of the United States of America Including Amendments 1--26 Jul 15 2022

The U.S. Constitution and Other Key American Writings May 05 2024 "We the People of the United States, in order to form a more perfect union . . ." — The U.S Constitution The U.S. Constitution and Other Key American Writings is part of the Word Cloud Classics series and a collection of the crucial documents that established the United States. In addition to the Constitution, readers can study supplementary texts like the Declaration of Independence, the Articles of Confederation, the Federalist Papers, and even important speeches by early presidents. The Founding Fathers' inspirational and revolutionary ideals are all included in these doctrines, and this is a perfect volume for anyone who finds the history of America to be a fascinating and enlightening journey.

The Cult of the Constitution Mar 11 2022 "A powerful challenge to the prevailing constitutional orthodoxy of the right and the left . . . A deeply troubling and absolutely vital book" (Mark Joseph Stern, Slate). In this provocative book, Mary Anne Franks examines the thin line between constitutional fidelity and constitutional fundamentalism. The Cult of the Constitution reveals how deep fundamentalist strains in both conservative and liberal American thought keep the Constitution in the service of white male supremacy. Franks demonstrates how constitutional fundamentalists read the Constitution selectively and self-servingly, thus undermining the integrity of the document as a whole. She goes on to argue that economic and civil libertarianism have merged to produce a deregulatory, "free-market" approach to constitutional rights that achieves fullest expression in the idealization of the Internet. The fetishization of the first and second amendments has blurred the boundaries between conduct and speech and between veneration and violence. But the Constitution itself contains the antidote to fundamentalism. The Cult of the Constitution lays bare the dark, antidemocratic consequences of constitutional fundamentalism and urges readers to take the Constitution seriously, not selectively.

The Changing Constitution Jun 01 2021 The Changing Constitution provides concise, scholarly and thought-provoking essays on the key issues surrounding the UK's constitutional development, and the current debates around reform.
