*This Is How You Lose the Time War* Apr 19 2022 \* HUGO AWARD  
WINNER: BEST NOVELLA \* NEBULA AND LOCUS AWARDS WINNER:  
BEST NOVELLA \* "[An] exquisitely crafted tale...Part epistolary

romance, part mind-blowing science fiction adventure, this dazzling story unfolds bit by bit, revealing layers of meaning as it plays with cause and effect, wildly imaginative technologies, and increasingly intricate wordplay... This short novel warrants multiple readings to fully unlock its complexities." —Publishers Weekly (starred review) From award-winning authors Amal El-Mohtar and Max Gladstone comes an enthralling, romantic novel spanning time and space about two time-traveling rivals who fall in love and must change the past to ensure their future. Among the ashes of a dying world, an agent of the Commandment finds a letter. It reads: Burn before reading. Thus begins an unlikely correspondence between two rival agents hellbent on securing the best possible future for their warring factions. Now, what began as a taunt, a battlefield boast, becomes something more. Something epic. Something romantic. Something that could change the past and the future. Except the discovery of their bond would mean the death of each of them. There's still a war going on, after all. And someone has to win. That's how war works, right? Cowritten by two beloved and award-winning sci-fi writers, This Is How You Lose the Time War is an epic love story spanning time and space.

**Interchange Fee Economics** May 21 2022 Interchange fees have been the focal point for debate in the card industry, among competition authorities and policy makers, as well as in the economic literature on two-sided markets and on the regulation of market failures. This book offers insight into the economics of interchange fees. First, it explains the nature of two-sided markets/platforms/networks and elaborates on four-party schemes and on the rationale behind interchange fees according to Baxter's model and its later refinements. It also includes the debate about the optimum level of interchange fees and its determination ("tourist test"), and presents the original framework for assessing the impact of interchange fee regulatory reductions for the market participants: consumers, merchants, acquirers, issuers, and card organisations. The framework addresses three areas of concern in reference to the transmission channels of interchange fee reductions (pass-through) and the card scheme domain (triangle: payment organisation, issuer, acquirer). The book discusses the effects of regulatory interchange fee reductions in Australia, USA, Spain, and, most specifically, Poland. It will be of interest to policy makers, card and payments industry practitioners, academics, and students.
