Read why the historical account of the 56 Signers of The Declaration of Independence and the story behind the 4th of July are so critically important...before they and the 4th of July are banned from American society. The urgent need to honor the 56 Signers of The Declaration of Independence came to Douglas MacKinnon, fittingly enough, on the 4th of July. While doing research for a column meant to remind the American people of that date's critical importance, he came across example after example of those from the Left and the Far-Left--be they in the mainstream media, activists,

or anarchists--calling for not only the "canceling" of the 4th of July, but the continued smearing, censorship, and canceling of our Founding Fathers. One overriding thought then filled his mind: "What if they are successful?" Those who believe such totalitarian censorship could never come to be in the United States of America, need only review how quickly and brutally many on the Left were able to create the "Woke Cancel Culture" to silence those they oppose today. Now they come for Thomas Jefferson, Richard Henry Lee, Benjamin Franklin and others who courageously signed The Declaration of Independence. That document and those men created our history. History which should never be bent, twisted, censored, or banned to fit any ideological narrative. If it is good, let us praise it. If it is bad, let us condemn it and learn from it. But let us never twist, censor, or cancel it. And yet, more and more followers of the Left want to do just that. As they control the media, academia, entertainment, science, and medicine...who is to stop them? Time is of the essence. We must find our voices. The 56 left the blueprint: Liberty. The first comprehensive study of fantasy's uses of myth, this book offers insights into the genre's popularity and cultural importance. Combining history, folklore, and narrative theory, Attebery's study explores familiar and forgotten fantasies and shows how the genre is also an arena for negotiating new relationships with traditional tales. Reprint of the original, first published in 1871. Behind the Story: Ethical Readings of Qur'ānic Narratives is a pivotal work that presents groundbreaking research on the Qur'ānic narrative as a literary genre with profound moral significance. It underscores the genre's integral role in shaping Islamic moral thought, as manifested in areas like Islamic law, theology, Sufism, politics, and art. The book offers insightful interpretations of various Qur'ānic narratives, delving into their ethical dimensions and challenges. It also examines their historical reception and influence across both Muslim and non-Muslim scholarship, covering diverse disciplines such as mysticism, art, and applied ethics. This volume stands as an invaluable resource for scholars and students seeking a deeper understanding of the Qur'ānic narrative and its multifarious interpretations in

the context of Islamic Studies and beyond.

While shaping the history of the Church and the world, Pope John Paul II lived his daily life among individuals who knew him closely as a spiritual father, colleague or friend. Friends who helped him, served him and closely collaborated with him to change the world. Polish journalist Wlodzimierz Redzioch, for over 30 years an employee of the Vatican newspaper L'Osservatore Romano, interviewed almost two dozen of them for this book, from lifelong friends who first met the Pope in Krakow (as Karol Wojtyła), to his personal physician, personal secretary, papal photographer, papal spokesman, Polish bishops, recipients of miraculous cures, members of the papal household, and Curial officials, including the German Cardinal close to the Pope who became his successor, Joseph Ratzinger. They tell inspiring and remarkable stories about Wojtyła's courageous witness as a bishop and professor of philosophy in Communist Poland, his participation in Vatican Council II, his election to the papacy, the challenges and worldwide travels of his pontificate, the sufferings of his final years, and even the process of his beatification and canonization. A composite portrait emerges of a man of heroic faith, love and deep prayer, a decisive leader who was capable of discussing, listening and delegating, a well-rounded human being with a gift for friendship, joy and humor with an awareness that seemingly insignificant moments are also part of our personal sanctification. He succeeded in changing the world because he deeply touched and changed the hearts of countless people everywhere. In this inspiring book you will discover many previously unpublished true stories and anecdotes, stories that will move you to know the great heart with

which St. John Paul II loved God and humanity. "An unforgettable journey through racism and faith across the generations. January 15, 1959-a day that changed one family forever. White supremacists kidnapped and severely beat rural Alabama preacher Israel Page, nearly killing him because he had sued a White townsman for injuries suffered in a car crash. After "they" "got Daddy," Israel Page's children began leaving the Jim Crow South, the event leaving an indelible mark on the family and its future. Decades later, the events of that day fueled journalist Sharon Tubbs's epic quest to learn who had "gotten" her mother's daddy and why. They Got Daddy follows Tubbs on her moving journey from Fort Wayne, Indiana, to the back roads and rural churches of Alabama. A powerful revelation of the sustaining and redemptive power of faith and unflinching testimony to the deeply embedded effects of racism across the generations, it demonstrates how the search for the truth can offer a chance at true healing"--

What do we know about the Vatican Military Orders, the Johanniters, Freemasons, or other secret societies like the Bilderberg Group or the Trilateral Commission? What is the connection between these and other secret groups, World Wars, Globalization and International Free Trade Agreements of today? During World War 2, which European Royal Families (our Allies) sent their families to safety in Canada and then surrendered their nations to the enemy after 1, 2, or 3 days of minimal or no fighting? Which highly respected North Americans and European Allies supported the enemy with money, oil and gas, patents, military equipment, etc., and why? Hitler and "his Handlers" wanted a New World Order (One World Government and One World Religion). These evil beings believed their victims "unworthy of life" and not only killed and enslaved peoples for religious and racial reasons, but, they satisfied their need for power and control by stealing the assets of their individual victims and of resource rich underdeveloped nations. Why do Germany and the Vatican (which has never had an independent audit) have so much gold today when they had so little before WW2? Read and Think. If too unbelievable, do the research. This book, written by Dr. Everett E. Murdock, a college professor, tells the stories behind the story of every presidential election in U.S. history, with a special focus on the volatile 2016 election. Dr. Murdock is a widely-published novelist, a storyteller, and his stories about our presidential elections provide fascinating details about behind-the-scenes events that lead to one candidate becoming president and the other being relegated to the lonely halls of history. He explores, in depth, the complex Electoral College System by which we elect our presidents, and he describes the role that slavery played in how the Congress and the Electoral College were originally designed. In his last chapter, Professor Murdock provides a detailed description of the events that unfolded day-by-day in the volatile election of 2016 that pitted the first woman candidate, Hillary Clinton, against, Donald Trump, one of the most unusual candidates in U.S. history. The author provides real insight into what led to one of the most dramatic upsets in U.S. presidential election history, helping you to understand why, once again, the candidate that won the general election didn't get to be president. Fascinating and informative, this book is perfect for sharing with friends and family and guaranteed to spice up your scripture study! Can you name the first President of the United States? It might not be quite the answer you think. Who do you think designed the United States flag? Be careful, the answer may not be so obvious. Who was the first American Rock Star? Who was considered the Father of the American Revolution? Who lost his only son to a skating accident? His signature will tell you. Who ordered American cannons to fire on his own house in Yorktown, Virginia? Who was the first Postmaster General of the United States? Who was the first and only Supreme Court Justice to be impeached? What do all of these questions have in common? The answers can be found among the 56 men who signed the Declaration of Independence. Each one had a life and each a story. Yet, the vast majority of us were never told about them. There are many individuals-whose lives we know nothing about-

that greatly influenced the creation of the United States. Those people lived, loved, prayed, cried, and laughed. But who were they really and why do we know nothing about them? *56 Men* provides a valuable resource for readers studying the influences and people who led the campaign for the emergence of the United States as a free Christian nation. It is the first book in a series that will provide a much broader spectrum of information for young people trying to fully understand the development of our nation's governmental system.
