Shop Manual

This training of trainers (ToT) manual aims to provide insights into the operation, maintenance and basic repair of farm machinery. It provides an overview of the main concepts of equipment that can facilitate sustainable agriculture practices, with examples and guidelines on the topic. Its objective is to provide extension officers, technicians, mechanics, and youth with the necessary information and skills to become trainers and deliver technical capacity sessions on this topic. There is a mix of theory and practice in this training. Participants must have the time to individually perform the different tasks described in the modules with close supervision. The training manual comprises four modules: ? Module 1 covers different tractors as a power source and power take-off operations. ? Module 2 focuses on the implements and equipment attached to tractors for field operations. ? Module 3 is about harvest, post-harvest and storage technologies. ? Module 4 covers general aspects and tips for maintenance, spare parts and replacements. This individual Shop Manual is one unit of a series on agricultural wheel type tractors. Contained in it are the necessary specifications and the brief but terse procedural data needed by a mechanic when repairing a tractor on which he has had no previous actual experience. The material is arranged in a systematic order beginning with an index which is followed immediately by a Table of Condensed Service Specifications. These specifications include dimensions, fits, clearances and timing instructions. Next in order of arrangement is the procedures section. In the procedures section, the order of presentation starts with the front axle system and steering and proceeds toward the rear axle. The last portion of the procedures section is devoted to the power take-off and power lift systems. Interspersed where needed in this section are additional tabular specifications pertaining to wear limits, torquing. etc. International-Harvester H4 International-Harvester J4 Wico C Wico X RELAYS AND REGULATORS Auto-Lite & Delco-Remy SPECIFICATIONS STARTING
