Dannenberg, Howard Frumkin, Richard J. Jackson, 2012-09-18 The environment that we construct affects both humans and our natural world in myriad ways There is a pressing need to create healthy places and to reduce the health threats inherent in places already built However there has been little awareness of the adverse effects of what we have constructed or the positive benefits of well designed built environments This book provides a far reaching follow up to the pathbreaking *Urban Sprawl and Public Health* published in 2004 That book sparked a range of inquiries into the connections between constructed environments particularly cities and suburbs and the health of residents especially humans Since then numerous studies have extended and refined the book s research and reporting *Making Healthy Places* offers a fresh and comprehensive look at this vital subject today There is no other book with the depth breadth vision and accessibility that this book offers In addition to being of particular interest to undergraduate and graduate students in public health and urban planning it will be essential reading for public health officials planners architects landscape architects environmentalists and all those who care about the design of their communities Like a well trained doctor *Making Healthy Places* presents a diagnosis of and offers treatment for problems related to the built environment Drawing on the latest scientific evidence with contributions from experts in a range of fields it imparts a wealth of practical information with an emphasis on demonstrated and promising solutions to commonly occurring problems *Learning to Serve* Maureen E. Kenny, Lou Anna K. Simon, Karen Kiley-Brabeck, Richard M. Lerner, 2012-12-06 Service learning as defined by the editors is the generation of knowledge that is of benefit to the community as a whole This seventh volume in the Outreach Scholarship book series contributes a unique discussion of how service learning functions as a critical cornerstone of outreach scholarship The sections and chapters of this book marshal evidence in support of the idea that undergraduate service learning infused throughout the curriculum and coupled with outreach scholarship is an integral means through which higher education can engage people and institutions of the communities of this nation in a manner that perpetuate civil society The editors through this series of models of service learning make a powerful argument for the necessity of engaged institutions *Transgender History* Susan Stryker, 2008-05-06 A chronological account of transgender theory documents major movements writings and events offering insight into the contributions of key historical figures while discussing treatments of transgenderism in pop culture Original *Building Synergy for High-Impact Educational Initiatives* Janine Graziano, Lauren Chism Schmidt, 2016-05-17 Published in

partnership with the Washington Center for Improving the Quality of Undergraduate Education First year seminars and learning communities are two of the most commonly offered high impact practices on U S campuses The goals of these initiatives are similar helping students make connections to faculty and other students improving academic performance and increasing persistence and graduation As such it is not surprising that many institutions choose to embed first year seminars in learning communities This volume explores the merger of these two high impact practices In particular it offers insight into how institutions connect them and the impact of those combined structures on student learning and success In addition to chapters highlighting strategies for designing teaching in and assessing combined programs case studies offer practical insights into the structures of these programs in a variety of campus settings *The College Environment* Alexander W. Astin,1968 *Basic Study Manual* L. Ron Hubbard,2004-01-01 An in depth presentation of Study Technology Learn the reasons for academic failures as well as how to identify the barriers to learning and vital remedies for handling each of them This book can be studied by middle and high school students and adults to improve their ability to use what they study and also professionals to improve their competence in the workplace Fully illustrated **Minding the Obligation Gap in Community Colleges and Beyond** Jeremiah J. Sims,Jeramy Wallace,Lasana O. Hotep,Jennifer Taylor-Mendoza,Tabitha Conaway,2020-05-15 It is difficult to find justice centered books geared specifically for community college practitioners interested in achieving campus wide educational equity It is even more difficult to find a book in this vein written exclusively by community college practitioners Minding the Obligation Gap in Community Colleges and Beyond is just that a concerted effort by a cross representational group of community college practitioners working to catalyze conversations and eventually practices that attend to the most pressing equity gaps in and on our campuses By illuminating the constitutive parts of the ever increasing obligation gap this book offers both theory and practice in reforming community colleges so that they function as disruptive technologies It is our position that equity centered community colleges hold the potential to call out impede and even disrupt institutionalized policies pedagogies and practices that negatively impact poor ethno racially minoritized students of color If you and your college is interested in striving for educational equity campus wide please join us in this ongoing conversation on how to work for equity for all of the students that we serve *Grammar Alive!* Brock Haussamen,2003 Offers elementary teachers advice and strategies to help them teach apply and understand English grammar while still adhering to state and school standards
