The Once and Future Worker Oren Cass,2018-11-13 Cass's core principle a culture of respect for work of all kinds can help close the gap dividing the two Americas William A Galston The Brookings Institution The American worker is in crisis Wages have stagnated for more than a generation Reliance on welfare programs has surged Life expectancy is falling as substance abuse and obesity rates climb These woes are not the inevitable result of irresistible global and technological forces They are the direct consequence of a decades long economic consensus that prioritized increasing consumption regardless of the costs to American workers their families and their communities Donald Trump's rise to the presidency focused attention on the depth of the nation's challenges yet while everyone agrees something must change the Left's insistence on still more government spending and the Right's faith in still more economic growth are recipes for repeating the mistakes of the past In this groundbreaking re-evaluation of American society economics and public policy Oren Cass challenges our basic assumptions about what prosperity means and where it comes from to reveal how we lost our way The good news is that we can still turn things around if the nation's proverbial elites are willing to put the American worker's interests first Which is more important pristine air quality or well-paying jobs that support families Unfettered access to the cheapest labor in the world or renewed investment in the employment of Americans Smoothing the path through college for the best students or ensuring that every student acquires the skills to succeed in the modern economy Cutting taxes expanding the safety net or adding money to low wage paychecks The renewal of work in America demands new answers to these questions If we reinforce their vital role workers supporting strong families and communities can provide the foundation for a thriving self-sufficient society that offers opportunity to all

Dionne,2016-01-19 Why the Right Went Wrong offers a historical view of the right since the 1960s Its core contention is that American conservatism and the Republican Party took a wrong turn when they adopted Barry Goldwater's worldview during and after the 1964 campaign The radicalism of today's conservatism is not the product of the Tea Party Washington Post columnist E J Dionne writes The Tea Partiers are the true heirs to Goldwater ideology The purity movement did more than drive moderates out of the Republican Party it beat back alternative definitions of conservatism Publisher information

The Economics of Discontent Jean-Michel Paul,2019-06-14 The social contract that has underpinned growth and political stability in the Western world since World War II has broken down. Health care and higher education have become unaffordable to a majority of people while the burden of unregulated monopolies, globalization and uncontrolled immigration has fallen disproportionately on the lower and middle classes. Wrapped in political correctness an increasingly out of touch Western elite continues catering to special interests and fails to grasp the urgency for change. Populist movements harnessing public anger appear unable to propose and implement effective solutions. The last financial crisis was bad enough. But the next crisis will spread deeper and wider. And yet we stand economically, politically and most of all intellectually unprepared. This book is the story of how we have arrived at the brink of disaster and how we can move away from the win lose policies of recent decades to restore much needed balance.

America vs. Americans Eric Wade,2024-02-06 In *America vs. Americans* Eric Wade presents American Laborism a revolutionary new economic system where the greatest commodity isn't cash it's work. Capitalism is broken. Despite its successes capitalism gives us the largest wealth gap in American history, failing Social Security, a weak currency and a looming threat of AI destroying our workforce. We need a new system, one built around people rather than capital. A system that values each person's unique contribution, ingenuity and hard work, their labor. A system in which the greatest commodity isn't cash it's work. And a system in which Americans at every level of society and government are working together. We need American Laborism, a revolutionary new system that presents a workable, low tax form of capitalism for those who want it and a dignified, healthy, happy and fulfilled life for everyone else. Under American Laborism if you're happy with the current capitalist system, great. Carry on, but you'll get to do it with a smaller government, fewer regulations, better educated employees and lower taxes. And if capitalism hasn't worked out as well for you, you get access to unlimited free education and training, guaranteed housing and food, and a sound asset backed currency. Everybody wins. American Laborism isn't just a replacement for capitalism, it's an upgrade. Every American has the right to live a life of dignity, to contribute and to ensure that their basic needs are respected by their society. American Laborism can improve the lives of every American by bringing the least among us up without bringing anyone else down. It's time to heal our nation. It's time for American Laborism.
