Questions Are the Answer Hal Gregersen, 2018-11-13 2018 Nautilus Book Awards Silver Winner What if you could unlock a better answer to your most vexing problem in your workplace community or home life just by changing the question Talk to creative problem solvers and they will often tell you the key to their success is asking a different question Take Debbie Sterling the social entrepreneur who created GoldieBlox The idea came when a friend complained about too few women in engineering and Sterling wondered aloud why are all the great building toys made for boys Or consider Nobel laureate Richard Thaler who asked would it change economic theory if we stopped pretending people were rational Or listen to Jeff

Bezos whose relentless approach to problem solving has fueled Amazon's exponential growth Getting the right question is key to getting the right answer Great questions like these have a catalytic quality that is they dissolve barriers to creative thinking and channel the pursuit of solutions into new accelerated pathways Often the moment they are voiced they have the paradoxical effect of being utterly surprising yet instantly obvious For innovation and leadership guru Hal Gregersen the power of questions has always been clear but it took some years for the follow on question to hit him If so much depends on fresh questions shouldn't we know more about how to arrive at them That sent him on a research quest ultimately including over two hundred interviews with creative thinkers Questions Are the Answer delivers the insights Gregersen gained about the conditions that give rise to catalytic questions and breakthrough insights and how anyone can create them *Answers to Life's Difficult Questions* Richard Warren, 1985 **Ask...** John L. happened to you before there isn't anything wrong with you. You just didn't know what you didn't know. No one ever told you about this. There aren't any classes in school teaching you the habit of asking strong empowering questions. Some people live 80 years and never consider what they've been asking themselves all day every day, thus they think success in life is based on randomness, the luck of the draw. Success and happiness are not random. You become exactly what you ask yourself. Are you ready to ask yourself better questions and improve your life one answer at a time? You better be because the journey begins on the next page. Let's get started.

[A More Beautiful Question](#) Warren Berger, 2014-03-04. To get the best answer in business in life, you have to ask the best possible question. Innovation expert Warren Berger shows that ability is both an art and a science. It may be the most underappreciated tool at our disposal, one we learn to use well in infancy and then abandon as we grow older. Critical to learning, innovation, success, even to happiness, yet often discouraged in our schools and workplaces, it can unlock new business opportunities and reinvent industries, spark creative insights at many levels, and provide a transformative new outlook on life. It is the ability to question and to do so deeply, imaginatively, and beautifully. In this fascinating exploration of the surprising power of questioning, innovation expert Warren Berger reveals that powerhouse businesses like Google, Nike, and Netflix, as well as hot Silicon Valley startups like Pandora and Airbnb, are fueled by the ability to ask fundamental, game-changing questions. But Berger also shares human stories of people using questioning to solve everyday problems, from "How can I adapt my career in a time of constant change?" to "How can I step back from the daily rush and figure out what really makes me happy?" By showing how to approach questioning with an open, curious mind and a willingness to work through a series of "Why? What if? and How?" queries, Berger offers an inspiring framework of how we can all arrive at better solutions, fresh possibilities, and greater success in business and life.
