Effective SOPs Sep 25 2022 Do your SOPs help your business to improve its performance? Standard Operating Procedures, or SOPs, are an essential part of any business to ensure that quality and consistency occur like clockwork, amidst the busy-ness of day to day working. Unfortunately SOPs are often under-utilised and this short book can help you to get so much more out of your SOPs by making them part of your day-to-day management approach. Most businesses fail to use their SOPs effectively, relegating them to become a bunch of documents that get filed away, never to be looked at again! But, SOPs can be used as a tool to help you increase the performance of your business, if you use them in the right way. Whether you are new to SOPs or have come across this book as part of your lean manufacturing journey, the ideas contained in this practical guide can help your business

Writing High-quality Standard Operating Procedures Nov 27 2022 Pharmaceutical, biotechnology, and life-sciences companies rely on standard operating procedures (SOPs) to ensure the quality and safety of their products and services. But in many cases, these documents themselves lack quality. Containing important technical instructions, SOPs are often wordy, confusing, and imprecise, thereby increasing quality and compliance risks for the organization. The problem is not lack of technical knowledge. The professionals who write SOPs are technically sound, but what they lack is sound technical writing skills. An ideal resource for engineering professionals, technical writers, and students alike, *Writing High-Quality Standard Operating Procedures: A Practical Guide to Clear, Concise, and Correct SOPs* offers a step-by-step roadmap to take your SOP writing skills to the next level. Under the guidance of Atul Mathur, an engineer and a technical writer with over fifteen years of experience, you'll learn to identify the attributes of high-quality SOPs; create right content structure for SOPs; follow a systematic process for writing SOPs; apply best practices in SOP writing; and avoid common errors. Honing your technical writing skills is a pivotal step toward high-quality SOPs.

Army Tactical Standard Operating Procedures (ATP 3-90. 90) Jun 10 2021 Army Techniques Publication (ATP) 3-90.90 facilitates development of standard operating procedures (SOPs) in order

offsite.creighton.edu

to enhance efficiency and adaptability across the force. ATP 3-90.90 achieves this purpose through linking to a milWiki portal under the milSuite uniform resource locator (URL) containing guidance for tactical SOPs and unclassified examples of SOPs for reference. The SOP portal provides a baseline for developing new SOPs quickly and a forum for improving existing SOPs. The portal presents best practices consistent with doctrinal principles. The Combined Arms Doctrine Directorate established the SOP portal in 2009. The authors attempted to align the original information with pertinent doctrine and regulations. Where the portal's contents differ from current doctrine and regulations, the latter take precedence. The information in the SOP portal is not authoritative doctrine. The examples in the portal do not provide ready-to-use SOPs for Army units. Soldiers developing SOPs for their units are encouraged to apply critical thinking while referring to the models and other resources to aid their own content development. At a minimum, portal users must be familiar with this ATP, Field Manuals (FMs) 5-0 and 6-99.2; Army Regulations (ARs) 25-1, 34-4, and 380-5; and Department of the Army Pamphlet (DA Pam) 25-403. Soldiers are encouraged to use the portal to collaborate, to improve the portal's contents, and to upload new SOP examples. The SOP portal is secure and requires an Army Knowledge Online or Defense Knowledge Online login. The portal's contents are unclassified. Neither this manual nor the SOP portal is intended to regulate the appearance or content of unit SOPs. This ATP uses joint terms where applicable. When formal military terms are identified in the text of this ATP, the terms are italicized and the number of the proponent manual follows the definition. A standard operating procedure is a set of instructions covering those features of operations which lend themselves to a definite or standardized procedure without loss of effectiveness. The procedure is applicable unless ordered otherwise (JP 3-31). A SOP is both standing and standard: it instructs how to perform a prescribed and accepted process

established for completing a task. Features of operations that lend themselves to standardization are common and usually detailed processes performed often and requiring minimal variation each time. Well-written and properly used unit tactical SOPs enhance effective execution of tasks; the benefits of SOPs are numerous. They reduce training time, the loss of unwritten information, the commission of errors, the omission of essential steps or processes, and the time required for completion of tasks. This does not mean, however, that carrying out SOPs never requires thought or that SOPs should never change. Indeed, tactical units must change some operating procedures as rapidly as operational environments and missions change. The SOP portal helps units avoid an unnecessary loss of effectiveness that could occur by maintaining unthinking dependence on outdated written procedures. The portal also helps units avoid a loss of effectiveness that could occur when units delay writing down processes that need to become standardized. The doctrine in this manual provides techniques for developing unit tactical SOPs. Units throughout the Army can take advantage of technology to obtain guidance, collaborate in real time, and find information quickly. This manual and the SOP portal are intended to enhance operational adaptability Army-wide. In the short term, the information in the SOP portal will help units establish or improve SOPs more rapidly. In the long term, the intention is that more and more units will build SOPs using the portal and the doctrine in this manual. SOPs throughout the Army should increase in similarity as the combination of doctrinal guidance and Army-wide milWiki collaboration facilitates consensus.

Built to Sell Nov 08 2023 Run your company. Don't let it run you. Most business owners started their company because they wanted more freedom—to work on their own schedules, make the kind of money they deserve, and eventually retire on the fruits of their labor. Unfortunately, according to John Warrillow, most owners find that stepping out of the picture is extremely difficult because their business relies too heavily on their personal involvement. Without them, their company—no matter how big or profitable—is essentially worthless. But the good news is that entrepreneurs can take specific steps—no matter what stage a business is in—to create a valuable, sellable company.

Warrillow shows exactly what it takes to create a solid business that can thrive long into the future.

Eye Banking Apr 08 2021 Corneal transplantation has been performed with increasing success for more than 100 years. In the last 20 years, standards, outcomes and developments in the field of corneal transplantation and eye banking have been discussed at the annual meetings of the European Eye Bank Association (EEBA) to share and promote good practice and guarantee a high level of safety for the recipients. The EEBA standards for donor selection and eye banking provide professional advice and guidance to eye banks and corneal surgeons. This book highlights the history

and development of eye banking and all significant steps including the donation, processing and distribution of corneas for transplantation. Additional contributions on the sclera, amnion and retinal pigment epithelium provide further insights into ocular surgery and the future potential for transplantation. This book contributes the essentials in eye banking activities for ophthalmologists and eye bankers as well as for regulatory and legislative authorities.

The SOP portal is secure and requires an Army Knowledge Online or Defense Knowledge Online login. The portal's contents are unclassified. Neither this manual nor the SOP portal is intended to regulate the appearance or content of unit SOPs. Note. In June 2010, JP 3-31 changed standing operating procedure to standard operating procedure. The meaning is unchanged. The doctrine in this manual provides techniques for developing unit tactical SOPs. Units throughout the Army can take advantage of technology to obtain guidance, collaborate in real time, and find information quickly. This manual and the SOP portal are intended to enhance operational adaptability Army-wide. In the short term, the information in the SOP portal will help units establish or improve SOPs more rapidly. In the long term, the intention is that more and more units will build SOPs using the portal and the doctrine in this manual. Ideally, SOPs throughout the Army should increase in similarity as the combination of doctrinal guidance and Army-wide milWiki collaboration facilitates consensus. This will help units communicate and coordinate with one another more easily. Reassigned Soldiers and units will become familiar with SOPs in their new assignments more quickly. Chapter 1 of this ATP discusses resources for integrating SOP development with collaborative technology, doctrine, and policy. Chapter 2 discusses a process to help authors develop effective SOPs. Chapter 3 provides the SOP portal's URL and detailed instructions on how to use the portal. To enhance standardization of tactical SOPs, the SOP portal provides tactical SOP guidance organized according to the Army operation plan and order format. For the reader's convenience, chapter 3 of this manual shows a list of attachments and responsible staff officers as table 3-1 (pages

3-4 to 3-7). Table 3-1 serves as an approximate table of contents for the information under the portal's tactical SOP guidance tab. Because the volume and variability of material in the portal, providing a fixed listing of the portal's contents in this ATP is not practical. Unit SOP examples are organized under the portal's categories tab (described in chapter 3). The general categories used for SOP examples are nondoctrinal and variable; they will expand or change as Soldiers modify them.
