Most of life is mundane: work, school, home, TV, church, sleep, repeat. Sometimes it seem as if there's no point to our "normal" lives. But what we must remember is that we're actually part of something huge: God's story—the greatest story ever told. In *The Story of Everything*, Jared Wilson takes readers on a journey that starts before the creation of the world and ends after everything has been made new. Wilson shows us that the gospel isn't just a ticket to heaven but God's incredible and unstoppable vision for all of creation. Looking at God's redemptive plan for humanity, this book will help you understand what the gospel means for your life, your home, your pets, your hobbies, and more. A groundbreaking new portrait of the apostle Paul, from one of today's leading historians of antiquity Often seen as the author of timeless Christian theology, Paul himself heatedly maintained that he lived and worked in history's closing hours. His letters propel his readers into two ancient worlds, one Jewish, one pagan. The first was incandescent with apocalyptic hopes, expecting God through his messiah to fulfill his ancient promises of redemption to Israel. The second teemed with ancient actors, not only human but also divine: angry superhuman forces, jealous demons, and hostile cosmic gods. Both worlds are Paul's, and his convictions about the first shaped his actions in the second. Only by situating Paul within this charged social context of gods and humans, pagans and Jews, cities, synagogues, and competing Christ-following assemblies can we begin to understand his mission and message. This original and provocative book offers a dramatically new perspective on one of history's seminal figures. From Rick Wilson—longtime Republican strategist, political commentator, *Daily Beast* contributor—the #1 New York Times bestseller about the disease that is destroying the conservative movement and burning down the GOP: *Trumpism*. Includes an all-new chapter analyzing Trump's impact on the 2018 elections. In the #1 New York Times bestselling *Everything Trump Touches Dies*, political campaign strategist and commentator Rick Wilson delivers “a searingly honest, biting funny, comprehensive answer to the question we find ourselves asking most mornings: ‘What the hell is going on?’” (*Chicago Tribune*). *The Guardian* hails *Everything Trump Touches Dies*, saying it gives, “more unvarnished truths about Donald Trump than anyone else in the American political establishment has offered.

Wilson never holds back.” Rick mercilessly exposes the damage Trump has done to the country, to the Republican Party, and to the conservative movement that has abandoned its principles for the worst President in American history. Wilson unblinkingly dismantles Trump’s deceptions and the illusions to which his supporters cling, shedding light on the guilty parties who empower and enable Trump in Washington and in the media. He calls out the race-war dead-enders who hitched a ride with Trump, the alt-right basement dwellers who worship him, and the social conservatives who looked the other way. Publishers Weekly calls it, “a scathing, profane, unflinching, and laugh-out-loud funny rebuke of Donald Trump and his presidency.” No left-winger, Wilson is a lifelong conservative who delivers his withering critique of Trump from the right. A leader of the Never Trump movement, he warned from the start that Trump would destroy the lives and reputations of everyone in his orbit, and Everything Trump Touches Dies is a deft chronicle the tragicomic political story of our time. From the early campaign days through the shock of election night, to the inconceivable train-wreck of Trump’s first year. Rick Wilson provides not only an insightful analysis of the Trump administration, but also an optimistic path forward for the GOP, the conservative movement, and the country. “Hilarious, smartly written, and usually spot-on” (Kirkus Reviews), Everything Trump Touches Dies is perfect for those on either side of the aisle who need a dose of unvarnished reality, a good laugh, a strong cocktail, and a return to sanity in American politics. Each of us is in the middle of a story. In this astoundingly unique book, bestselling author N.D. Wilson reminds us that to truly live we must recognize that we are dying. Cause of death: life. Death by Living is a poetic exploration of faith, futility, and the incredible joy of this mortal life. N.D. Wilson recounts stories from his life in poetic prose, giving perspective on the life we're given by God. Death by Living explores the topics of family, grappling with the death of loved ones, and how to live with intention to get the most out of our time on Earth. Wilson encourages us to live hard and die grateful, and to see Christ in every pair of eyes. To write a past we won't regret. All of us must pause and breathe. See the past, see life as the fruit of providence and thousands of personal narratives. We did not choose where to set our feet in time, but we choose where to set them next. We stand in the now. God says create. Live. Choose. Shape the past. Etch your life in stone, and what you make will be forever. In Death by Living, you will: Experience life with renewed wonder Recognize mundane moments as opportunities Learn to live hard and die grateful Recognize death as a gift instead of something to be feared At once inspiring, humorous, and unbelievably moving, this a book that you will read again and again, finding fresh perspective each time you open it. You know you know it... But then again, maybe you don't. Even if you go to church, it doesn't mean that you are being exposed (or exposing others) to the gospel explicitly. Sure, most people talk about Jesus, and about being good and avoiding bad, but the gospel message simply isn't there—at least not in its specificity and its fullness. Inspired by the needs of both the over-churched and the unchurched, and bolstered by the common neglect of the explicit gospel within Christianity, popular pastor Matt Chandler writes this best-selling treatise to remind us what is of first and utmost importance—the gospel. In the United States, people of color are disproportionately more likely to live in environments with poor air quality, in close proximity to toxic waste, and in locations more vulnerable to climate change and extreme weather events. In many vulnerable neighborhoods, structural racism and classism prevent residents from having a seat at the table when decisions are made

about their community. In an effort to overcome power imbalances and ensure local knowledge informs decision-making, a new approach to community engagement is essential. In *Resilience for All*, Barbara Brown Wilson looks at less conventional, but often more effective methods to make communities more resilient. She takes an in-depth look at what equitable, positive change through community-driven design looks like in four communities—East Biloxi, Mississippi; the Lower East Side of Manhattan; the Denby neighborhood in Detroit, Michigan; and the Cully neighborhood in Portland, Oregon. These vulnerable communities have prevailed in spite of serious urban stressors such as climate change, gentrification, and disinvestment. Wilson looks at how the lessons in the case studies and other examples might more broadly inform future practice. She shows how community-driven design projects in underserved neighborhoods can not only change the built world, but also provide opportunities for residents to build their own capacities. We may know the gospel. We may believe it—even proclaim it. But we also may assume the gospel and become lethargic. In this book Jared Wilson seeks to answer the central question, how do we experience and present the gospel in a fresh, nonroutine way in order to prevent ourselves and others from becoming numb? His answer may be surprising: "by routinely presenting the unchanging gospel in a way that does justice to its earth-shaking announcement." We don't excite and awaken people to the glorious truths of the gospel by spicing up our worship services or through cutting-edge, dramatic rhetoric, but by passionately and faithfully proclaiming the same truths we have already been given in Scripture. Wilson's book will stir churches to live out the power of the gospel with a fervent, genuine zeal. After an explanation of the term "gospel wakefulness," Wilson unpacks implications for worship, hyper-spirituality, godly habits, and sanctification, as well as other aspects of church life. Pastors, church leaders, and all in ministry, especially those who are tired or discouraged, will be uplifted, emboldened, and empowered by this book. I have tutored many, many people in Math through Calculus, and I have found that if you start off with the basics and take things one step at a time - anyone can learn complex Math topics. This book has literally hundreds of example problems ranging in all levels of complexity. Each problem is broken down into bite-sized-chunks so that no one gets lost. This book will take anyone with no prior exposure to Algebra and raise their scores significantly! What is this World? What kind of place is it? "The round kind. The spinning kind. The moist kind. The inhabited kind. The kind with flamingos (real and artificial). The kind where water in the sky turns into beautifully symmetrical crystal flakes sculpted by artists unable to stop themselves (in both design and quantity). The kind of place with tiny, powerfully jawed mites assigned to the carpets to eat my dead skin as it flakes off . . . The kind with people who kill and people who love and people who do both . . . This world is beautiful but badly broken. "I love it as it is, because it is a story, and it isn't stuck in one place. It is full of conflict and darkness like every good story, a world of surprises and questions to explore. And there's someone behind it; there are uncomfortable answers to the hows and whys and whats. In the beginning was the Word, and the Word was with God, and the Word was God. Through Him were all things made . . . Welcome to His poem. His play. His novel. Let the pages flick your thumbs." The inspiring, instructive, and ultimately triumphant memoir of a man who used hard work and a Master Plan to turn a life sentence into a second chance. Growing up in a tough Washington, D.C., neighborhood, Chris Wilson was so afraid for his life he wouldn't leave the house without a gun. One night, defending himself, he killed a man. At eighteen, he was sentenced to life in prison with no hope of parole. But what should have been the end of his story became the beginning. Deciding to make something of his life, Chris embarked on a journey of self-improvement--reading, working out, learning languages, even starting a business. He wrote his Master Plan: a list of all he expected to accomplish or acquire. He worked his plan every day for years, and in his mid-thirties he did the impossible: he convinced a judge to reduce his sentence and became a free man. Today Chris is a successful social entrepreneur who employs returning citizens; a mentor; and a public speaker. He is the embodiment of second chances, and this is his unforgettable story. The Washington Post, People, Entertainment Weekly, USA Today, TIME, The A.V. Club, BuzzFeed, and PopSugar “I can’t believe how good this book is.... It’s wholly original. It’s also perfect.... Wilson writes with such a light touch.... The brilliance of the novel [is] that it distracts you with these weirdo characters and mesmerizing and funny sentences and then hits you in a way you didn’t see coming. You’re laughing so hard you don’t even realize that you’ve suddenly caught fire.” —Taffy Brodesser-Akner, author of *Fleishman is in Trouble*, New York Times Book Review

From the New York Times bestselling author of *The Family Fang*, a moving and uproarious novel about a woman who finds meaning in her life when she begins caring for two children with a remarkable ability. Lillian and Madison were unlikely roommates and yet inseparable friends at their elite boarding school. But then Lillian had to leave the school unexpectedly in the wake of a scandal and they’ve barely spoken since. Until now, when Lillian gets a letter from Madison pleading for her help. Madison’s twin stepkids are moving in with her family and she wants Lillian to be their caretaker. However, there’s a catch: the twins spontaneously combust when they get agitated, flames igniting from their skin in a startling but beautiful way. Lillian is convinced Madison is pulling her leg, but it’s the truth. Thinking of her dead-end life at home, the life that has consistently disappointed her, Lillian figures she has nothing to lose. Over the course of one humid, demanding summer, Lillian and the twins learn to trust each other—and stay cool—while also staying out of the way of Madison’s buttoned-up politician husband. Surprised by her own ingenuity yet unused to the intense feelings of protectiveness she feels for them, Lillian ultimately begins to accept that she needs these strange children as much as they need her—urgently and fiercely. Couldn’t this be the start of the amazing life she’d always hoped for? With white-hot wit and a big, tender heart, Kevin Wilson has written his best book yet—a most unusual story of parental love. What is the sun made of? What causes night and day? Why does the moon change shape? Colorful collage illustrations and an easy-to-understand text bring planets, stars, comets, and the wondrous things out there in space right down to earth in a simple introduction to the solar system for young armchair astronauts. Meet the unbeatable hero of a fresh new early chapter book series — Wednesday Wilson! The most important thing to know about Wednesday Wilson is that she’s an entrepreneur. Well, she almost is. She and her best friend, Charlie, are hard at work thinking up business ideas to make it big. Only now there’s been an incident with the Emmas (whose last initials happen to spell M.E.A.N.) involving a bearded dragon named Morten and a piece of kale . . . it’s a long story. But maybe this is just the opportunity Wednesday and her friends needed. Maybe they’ll invent something brilliant that will save the day and make them millionaires. Or . . . not? It’ll take more than one incident with the Emmas to keep this girl down. Wednesday Wilson is bound for success! Aged nineteen, Alison McKelvie was a self-confessed romantic, immersed in books and poetry, and dreaming of beauty, truth and love. In 1940, whilst working as a secretary at MI6, Alison met Alexander Wilson. Thirty years her senior, Alexander was worldly and charismatic. An intense affair quickly led to marriage and two children. But the Wilsons' lives then spiralled into the depths of poverty. Alexander was sacked, imprisoned twice, and then declared bankrupt. His lack of reliability was a hefty emotional burden for Alison to bear. Nevertheless, she loved her husband unreservedly and stuck by him through thick and thin. In 1963, Alexander died suddenly of a heart attack. Alison's world imploded when she discovered that their life together had been built upon layer after layer of deception. Who was Alexander Wilson? How well had Alison really known him? Slowly the lies were unravelled: Alexander had been a novelist, spy and, devastatingly, a bigamist. Alison was the third of four wives, her children two of seven. The inspiration for critically-acclaimed drama *Mrs Wilson*, *Before & After* is the powerful and poignant memoir of Alison Wilson. 'Before' peels back the complex layers of a marriage steeped in lies, and the shattering heartbreak which followed. 'After' tells of an intensely-felt redemption through religion. *Before & After* is, first and foremost, a love story, but it is also an account of one extraordinarily strong woman's deep, unwavering faith. “As screenwriter Austin Lively plunges back and forth between two dark, strange places?the fantasy kingdom of Galiana and the weirdness of contemporary Los Angeles?I turned the pages faster, faster, with growing delight. Scary, suspenseful, funny, wonderfully imaginative, Another Kingdom is pure, unadulterated fun.”? Dean Koontz, #1 New York Times Bestselling author "This is a journey you won't want to miss." Gregg Hurwitz, New York Times Bestselling author of the Orphan X series Austin Lively, once just an out-of-luck Hollywood screenwriter, is now a chosen hero caught between two worlds and dual quests in both Los Angeles, California, and the magical medieval world of Galiana. Tasked with taking a talisman across the Eleven Lands to restore the rightful queen to her throne, Austin must evade a murderous, vengeance-seeking wizard who seems to have the Eleven Lands under his control. But just how far does his influence reach, and how can Austin defeat him if the wizard also has access to his darkest memories? Austin's only hope is to find a missing manuscript by the title, Another Kingdom, but his sister Riley, the one person who may hold the key has gone missing too. With a deranged billionaire set on creating a "utopia" of anarchy and death also on the hunt for the manuscript, Austin must get to Riley before the billionaire's assassins. Trapped in a house of horrors in one world and a game of cat and mouse in the other, time is running out in both of Austin's realities as he struggles to piece together the clues and find Another Kingdom. With higher stakes, darker secrets, and bigger monsters, there is no going back for Austin Lively and no guarantee he will escape the nightmare feast. "What was this place? Was I crazy? Or was I crazy before, back in L.A.? Was my real life some sort of dream? Was this hell reality?" Austin Lively is a struggling, disillusioned screenwriter whose life is suddenly changed forever when he opens a door and is unwittingly transported to a fantastical medieval realm. Austin finds himself wielding a bloody dagger while standing over a very beautiful and very dead woman. Bewildered and confused, he is seized by castle guards and thrown in a dungeon. Just when he begins to fear the worst, he is suddenly transported back to reality in LA. Did that really just happened? Has he gone insane? Was it all a dream? Did he have a brain tumor? Desperate for answers, he sets out to find them and discovers that the mystery can only be unlocked by a strange piece of fiction that holds the truth about the magical kingdom. But he isn't the only person searching for the missing manuscript, and his rivals will stop at nothing to get it first. To complicate matters more, Austin soon discovers that he has no control over when he passes between worlds and finds himself out of trust for even the simple things, like walking through doorways. Stuck between dual realities –charged for a murder he doesn't recall in one and running from a maniacal billionaire who's determined to kill him in another– Austin's monotonous life has become an epic adventure of magic, murder, and political intrigue in both the New Republic of Galiana and the streets of Los Angeles California. National Book Award Finalist. How did humanity originate and why does a species like ours exist on this planet? Do we have a special place, even a destiny in the universe? Where are we going, and perhaps, the most difficult question of all, "Why?" In The Meaning of Human Existence, his most philosophical work to date, Pulitzer Prize-winning biologist Edward O. Wilson grapples with these and other existential questions, examining what makes human beings supremely different from all other species. Searching for meaning in what Nietzsche once called "the rainbow colors" around the outer edges of knowledge and imagination, Wilson takes his readers on a journey, in the process bridging science and philosophy to create a twenty-first-century treatise on human existence—from our earliest inception to a provocative look at what the future of mankind portends. Continuing his groundbreaking examination of our "Anthropocene Epoch," which he began

with *The Social Conquest of Earth*, described by the *New York Times* as "a sweeping account of the human rise to domination of the biosphere," here Wilson posits that we, as a species, now know enough about the universe and ourselves that we can begin to approach questions about our place in the cosmos and the meaning of intelligent life in a systematic, indeed, in a testable way. Once criticized for a purely mechanistic view of human life and an overreliance on genetic predetermination, Wilson presents in *The Meaning of Human Existence* his most expansive and advanced theories on the sovereignty of human life, recognizing that, even though the human and the spider evolved similarly, the poet's sonnet is wholly different from the spider's web. Whether attempting to explicate "The Riddle of the Human Species," "Free Will," or "Religion"; warning of "The Collapse of Biodiversity"; or even creating a plausible "Portrait of E.T.," Wilson does indeed believe that humanity holds a special position in the known universe. The human epoch that began in biological evolution and passed into pre-, then recorded, history is now more than ever before in our hands. Yet alarmed that we are about to abandon natural selection by redesigning biology and human nature as we wish them, Wilson soberly concludes that advances in science and technology bring us our greatest moral dilemma since God stayed the hand of Abraham. *Spirit and Sacrament* by pastor and author Andrew Wilson is an impassioned call to join together two traditions that are frequently and unnecessarily kept separate. It is an invitation to pursue the best of both worlds in worship, the Eucharistic and the charismatic, with the grace of God at the center. Wilson envisions church services in which healing testimonies and prayers of confession coexist, the congregation sings *When I Survey the Wondrous Cross* followed by *Happy Day*, and creeds move the soul while singing moves the body. He imagines a worship service that could come out of the book of Acts: Young men see visions, old men dream dreams, sons and daughters prophesy, and they all come together to the same Table and go on their way rejoicing. In short, *Spirit and Sacrament* is an appeal to bring out of the church's storehouse all of its treasures, so that God's people can worship our unrivaled Savior with sacraments and spiritual gifts, raised hands and lowered faces. You can sin with food in many ways -- by not sharing it, by eating way too much of it, by throwing it across the restaurant table... But you do not sin with food by bowing your head over it, saying grace with true gratitude in your heart, and tucking in. Sharp-edged but humorous, *Confessions of a Food Catholic* addresses the unscriptural approach to food that many Christians have developed in recent years. (By the way, a "food catholic" is somebody who accepts all eaters of all foods, even if he or she doesn't actually eat quinoa.) Specifically, the book addresses divisive threats to Christian table fellowship, the know-it-all pride of newfangled "health food" rules, and the dislocated moralism that makes "organic" and "natural" the signs of righteousness while disdaining the brethren who buy their beef at *Stuffmart*. Wilson and Dufrene help readers foster the flexibility they need to keep from succumbing to the avoidable forces of anxiety, and open themselves to the often uncomfortable complexities and possibilities of life. Our world is unsettled and rapidly changing, and we face existential risks over the next century. Various outcomes—good and bad—are possible. Yet our approach to the future is characterized by short-term thinking, polarizing debates, alarmist rhetoric, and pessimism. In this short, exhilarating book, renowned scientist and bestselling author Martin Rees argues that humanity’s prospects depend on our taking a very different approach to planning for tomorrow. The future of humanity is bound to the future of science and hinges on how successfully we harness technological advances to address our challenges. If we are to use science to solve our problems while avoiding its dystopian risks, we must think rationally, globally, collectively, and optimistically about the long term. Advances in biotechnology, cybertechnology, robotics, and artificial intelligence—if pursued and applied wisely—could empower us to boost the developing and developed world and overcome the threats humanity faces on Earth, from climate change to nuclear war. At the same time, further advances in space science will allow humans to explore the solar system and beyond with robots and AI. But there is no “Plan B” for Earth—no viable alternative within reach if we do not care for our home planet. Rich with fascinating insights into cutting-edge science and technology, this accessible book will captivate anyone who wants to understand the critical issues that will define the future of humanity on Earth and beyond. Fully revised and updated for a new generation of educators, this is the definitive guide to meeting the learning needs of gifted students in the mixed-abilities classroom—seamlessly and effectively with minimal preparation time. Included are practical, classroom-tested strategies and step-by-step instructions for how to use them. The new edition provides information on using technology for accelerated learning, managing cluster grouping, increasing curriculum rigor, improving assessments, boosting critical and creative thinking skills, and addressing gifted kids with special needs. Already a perennial best seller, this guide’s third edition is sure to be welcomed with open arms by teachers everywhere. Digital content provides a PowerPoint presentation for professional development, customizable reproducible forms from the book, additional extension menus for students in the primary and upper-elementary grades, and a special supplement for parents of gifted children. In June 1792, amidst the chaos of the French Revolution, two intrepid astronomers set out in opposite directions on an extraordinary journey. Starting in Paris, Jean-Baptiste-Joseph Delambre would make his way north to Dunkirk, while Pierre-François-André Méchain voyaged south to Barcelona. Their mission was to measure the world, and their findings would help define the meter as one ten-millionth of the distance between the pole and the equator—a standard that would be used “for all people, for all time.” The Measure of All Things is the astonishing tale of one of history’s greatest scientific adventures. Yet behind the public triumph of the metric system lies a secret error, one that is perpetuated in every subsequent definition of

the meter. As acclaimed historian and novelist Ken Alder discovered through his research, there were only two people on the planet who knew the full extent of this error: Delambre and Méchain themselves. By turns a science history, detective tale, and human drama, *The Measure of All Things* describes a quest that succeeded as it failed—and continues to enlighten and inspire to this day. 'Another deeply hued and character-rich biography to match his justly celebrated study of Lindbergh' *Financial Times* From Pulitzer Prize-winning, New York Times bestselling author, A. Scott Berg comes the definitive – and revelatory – biography of one of the great American figures of modern times. One hundred years after his inauguration, Woodrow Wilson still stands as one of the most influential figures of the twentieth century, and one of the most enigmatic. And now, after more than a decade of research and writing, A. Scott Berg has completed *Wilson* – the most personal and penetrating biography ever written about the 28th President. This is not just Wilson the icon – but Wilson the man. This is the new, improved 2nd Edition version of *No-Nonsense Algebra*. Completely edited, and now contains extra quizzes for each chapter to maximize learning. Too many discipleship books are written for clean, perfect people who know all the right Sunday school answers. *The Imperfect Disciple* is for the rest of us--people who screw up, people who are weary, people who are wondering if it's safe to say what they're really thinking. For the believer who is tired of quasi-spiritual lifehacks being passed off as true, down-and-dirty discipleship, here is a discipleship book that isn't afraid to be honest about the mess we call real life. With incisive wit, warm humor, and moving stories, Jared Wilson shows readers how the gospel works in them and in their lives when - they can't get their act together - they think God is giving them the silent treatment - they think church would be better without all the people - they're not happy with the person in the mirror - and much more. Wilson frees readers from the self-doubt and even the misplaced self-confidence they may feel as they walk with Jesus down the often difficult road of life. The result is a faith that weathers storms, lifts burdens, and goes forth to make more imperfect disciples. Jack is back! In the new *Repairman Jack* thriller, Jack fights a new street drug, *Berserk*. Can you imagine a new chemical compound, a non-addictive designer drug that heightens your assertiveness, opens the door to your primal self, giving you an edge wherever you compete? Whether on the street or the football field, in a classroom or a boardroom. Wouldn't you be tempted to try it . . . just once? What happens if it releases uncontrollable rage and makes you a killer? Jack finds himself fighting against the makers and sellers of this dangerous new street drug. The drug brings out the user's most aggressive behavior, gifting the user with a God-like feeling -- useful in small doses, but also capable of sending the user into a mindless, destructive rage. After checking around, Jack realizes that the drug comes from a most surprising source. . . . a source that may have deadly effects on Jack's life and the lives of those he cares most about . . . It's up to Jack to destroy this source, put an end to it and save countless lives . . . even though it may cost him his own. However, we've too often assumed this requires loud music, flashy lights, and skinny jeans. In this gentle manifesto, Jared Wilson—a pastor who knows what it's like to serve in a large attractional church—challenges pastors to reconsider their priorities when it comes to how they "do church" and reach people in their communities. Writing with the grace and kindness of a trusted friend, Wilson encourages pastors to reexamine the Bible's teaching, not simply return to a traditional model for tradition's sake. He then sets forth an alternative to both the attractional and the traditional models: an explicitly biblical approach that is gospel focused, grace based, and fruit oriented. Expository Bible-study guide to 1 Corinthians. The scope of 1 Corinthians is breathtaking. Paul tackles a huge variety of subjects, and as he does so, he gives us a precious insight into what a local church is (or at least can be). As Andrew Wilson walks through this compelling, challenging epistle, you'll see how grace looks in every Christian and how it can shape every church—even a church as flawed as the Corinthian one. This expository guide is less academic than a traditional commentary and includes lots of application. It can be read from cover to cover, used in personal devotions, used to lead small group studies, or used for sermon preparation. 'Painful, raw and with an honesty that rings clear as a bell' Catherine Simpson, author of *When I Had a Little Sister* A searing account of a mother's late-diagnosis of autism – and its reaching effects on a whole family. Abstract theology is overrated, for God can be found in even the most ordinary of things. Jesus used things like a lily, sparrow, and sheep to teach about the kingdom of God. And in the Old Testament, God repeatedly describes himself and his saving work in relation to physical things such as a rock, horn, or eagle. In *God of All Things*, pastor and author Andrew Wilson invites you to rediscover God in this way, too--through ordinary, everyday things. He explores the idea of a material world and presents a variety of created marvels that reveal the gospel in everyday life and fuel worship and joy in God--marvels like: Dust: the image of God Horns: the salvation of God Donkeys: the peace of God Water: the life of God Viruses: the problem of God Cities: the kingdom of God *God of All Things* will leave you with a deeper understanding of Scripture, the world you live in, and the God who made it all.

"Magnificent." —People Magazine The instant New York Times bestseller: Laugh-out-loud, deeply insightful, and emotion-filled essays from multitalented actress, comedian, podcaster, and writer Casey Wilson. Casey Wilson has a lot on her mind and she isn't afraid to share. In this dazzling collection, each essay skillfully constructed and brimming with emotion, she shares her thoughts on the joys and vagaries of modern-day womanhood and motherhood, introduces the not-quite-typical family that made her who she is, and persuasively argues that lowbrow pop culture is the perfect lens through which to examine human nature. Whether she's extolling the virtues of eating in bed, processing the humiliation over her father's late in life perm, mourning her mother's passing, or revealing her patented method for keeping the mystery alive in a marriage, Casey is witty, candid, and full of poignant and funny surprises. Humorous dives into her obsessions and areas of personal expertise—self-help, nice guys, cool girls (not her) and how to receive visitors in the bath—are matched by touching meditations on female friendship, anger, grief, motherhood, and identity. Reading *The Wreckage of My Presence* is like spending time with a close friend—a deeply passionate, full-tilt, joyous, excessive, compulsive, shameless, hungry-for-it-all, loyal, cheerleading friend. A friend who is ready for any big feelings that come her way—and isn't afraid to embrace them. Marty and her sister Melissa couldn't be more different. "That's the worst thing about my sister. She NEVER misses a chance to wind me up." Football-mad Marty loves her Converse and helping her dad with his DIY. Melissa, however, loves all things pink and girly. So it comes as no surprise that when they have to share a bedroom, Marty and Melissa struggle to get along. But all that changes after a terrible accident, which helps the sisters realise they are closer than they thought... From bestselling author Jacqueline Wilson, *The Worst Thing About My Sister* explores sibling rivalry and the importance of family. *The Worst Thing About My Sister* is full of fun, frolics and little pearls of wisdom. Here she focuses on that old family chestnut - sibling rivalry - and gives quarrelling sisters plenty of food for thought - Blackpool Gazette
