Knowledge Hans-Georg Gadamer, 2003-01-14 This book brings together nearly all of Gadamer's previously published but never translated essays on the Presocratics Beginning with a hermeneutical and philological investigation of the Heraclitus fragments 1974 and 1990 he then moves on to a discussion of the Greek Atomists 1935 and the Presocratic cosmologists 1964 In the last two essays 1978 and 1994-95 Gadamer elaborates on the profound debt that modern scientific thinking owes to the Greek philosophical tradition

Gadamer in Conversation Hans-Georg Gadamer, Carsten Dutt, Glenn W. Most, 2001-01-01 This volume presents six lively conversations with Hans Georg Gadamer born 1900 one of the twentieth century's master philosophers Looking back over his life and thought Gadamer takes up key issues in his philosophy addresses points of controversy and replies to his critics including those who accuse him of having been in complicity with the Nazis A genial and direct conversationalist Gadamer is here captured at his best and most accessible The interviews took place between 1989 and 1996 and all but one appear in English for the first time in this volume The first three conversations conducted by Heidelberg philosopher Carsten Dutt deal with hermeneutics aesthetics and practical philosophy and the question of ethics In a fourth conversation with University of Heidelberg classics professor Glenn W Most Gadamer argues for the vital importance of the Greeks for our contemporary thinking In the next the philosopher reaffirms his connection with phenomenology and clarifies his relation to Husserl and Heidegger in a conversation with London philosopher Alfons Grieder In the final interview with German Nazi expert Dorte von Westernhagen Gadamer describes his life

Gadamer and Ricoeur Francis J. Mootz III, George H. Taylor, 2011-04-14 Hans Georg Gadamer and Paul Ricoeur were two of the most important hermeneutical philosophers of the twentieth century Gadamer single handedly revived hermeneutics as a philosophical field with his many essays and his masterpiece Truth and Method Ricoeur famously mediated the Gadamer Habermas debate and advanced his own hermeneutical philosophy through a number of books addressing social theory religion psychoanalysis and political philosophy This book brings Gadamer and Ricoeur into a hermeneutical conversation with each other through some of their most important commentators Twelve leading scholars deliver contemporary assessments of the history and promise of hermeneutical philosophy providing focused discussion on the work of these two key hermeneutical thinkers The book shows how the horizons of their thought at once support and question each other and how in many ways the work of these two pioneering philosophers defines the issues and agendas for the new century

The Cambridge Companion to Gadamer Robert J. Dostal, 2002-01-21 The most convenient and accessible guide to Gadamer currently available

Hermeneutics and the Humanities Madeleine Kasten, Herman Paul, Rico Sneller, 2012 Hans Georg Gadamer's Wahrheit und Methode 1960 is one of the most influential books on interpretation to have appeared in the past half century This volume aims to continue this conversation between hermeneutics and the humanities but also tries to map Gadamer's influence on the humanities so far

Language and Linguisticity in Gadamer's Hermeneutics Hans-Georg Gadamer, Lawrence Kennedy Schmidt, 2000 In this book internationally recognized scholars in philosophical

hermeneutics discuss various aspects of language and linguisticity The translations of Hans Georg Gadamer's two recent essays provoke a preliminary discussion on the philosopher's polemic claim in *Truth and Method* Being that can be understood is language Topics addressed by the contributors include the relationship of rituals to tradition and the immemorial the unity of the word conversation translation and conceptuality and the interrelationship between the art of writing and linguisticity This work is of critical importance to anyone interested in Gadamer's claims regarding the boundaries of language the transition from the prelinguistic to linguistic realms and the role of rituals in this transition

Hermeneutics and Truth Brice R. Wachterhauser, 1994-07-06 The claim that all human thought involves interpretation that all human thought is in some way relative to a contingent context of cognitive theoretical practical and aesthetic considerations has become widely accepted but what we understand by truth and how we should best pursue it are questions raised with renewed force once a hermeneutical starting point has been embraced Brice R Wachterhauser's collection *Hermeneutics and Truth* is an attempt to contribute to this conversation No thinkers have wrestled with the issue of truth and interpretation in more illuminating ways for the Continental tradition of philosophy than Heidegger and Gadamer *Hermeneutics and Truth* is a dual focus on Heidegger and Gadamer but it concentrates primarily on Gadamer's efforts to think through the issue of truth for hermeneutics and only secondarily on Heidegger's thought on this issue [Feminist Interpretations of Hans-Georg Gadamer](#) Lorraine Code, 2010-11-01 Fifteen essays examine the work of German philosopher Hans Georg Gadamer to provide feminist interpretations of his views on science language history literature and other topics

Hermeneutics, Religion, and Ethics Hans-Georg Gadamer, 2008-10-01 In the years shortly before and after the publication of his classic *Truth and Method* 1960 the eminent German philosopher Hans Georg Gadamer returned often to questions surrounding religion and ethics In this selection of writings from *Gesammelte Werke* that are here translated into English for the first time Gadamer probes deeply into the hermeneutic significance of these subjects Gadamer raises issues of importance to ethicists and theologians as well as students of language and literature In such outstanding essays as *Kant and the Question of God* *Thinking as Redemption* *Plotinus between Plato and Augustine* and *Friendship and Self Knowledge* *Reflections on the Role of Friendship in Greek Ethics* Gadamer discusses the nature of moral behavior ethics as a form of knowing and the hermeneutic task of mediating ethos and philosophical ethics with one another **Gadamer** Georgia Warnke, 2013-05-08 Hans Georg Gadamer is one of the leading philosophers in the world today His philosophical hermeneutics has had a major impact in a wide range of disciplines including the social sciences literary criticism theology and jurisprudence *Truth and Method* his major work is widely recognised to be one of the great classics of twentieth century thought In this book Georgia Warnke provides a clear and systematic exposition of Gadamer's work as well as a balanced and thoughtful assessment of his views Warnke gives particular attention to the ways in which Gadamer's work has been taken up and criticised by literary critics social theorists and philosophers such as Hirsch Habermas and Rorty She thus provides

an introduction to Gadamer which demonstrates the relevance of his work to current debates in a variety of disciplines This book will be invaluable to students and specialists throughout the humanities and social sciences as well as to anyone who is interested in the most important developments in contemporary thought

Gadamer Donatella Di Cesare, 2013-02-20 Hans Georg Gadamer 1900-2002 one of the towering figures of contemporary Continental philosophy is best known for *Truth and Method* where he elaborated the concept of philosophical hermeneutics a programmatic way to get to what we do when we engage in interpretation Donatella Di Cesare highlights the central place of Greek philosophy particularly Plato in Gadamer's work brings out differences between his thought and that of Heidegger and connects him with discussions and debates in pragmatism This is a sensitive and thoroughly readable philosophical portrait of one of the 20th century's most powerful thinkers

Gadamer's Century Jeff Malpas, Ulrich Arnschwald, Jens Kertscher, 2002-01-18 Philosopher Hans Georg Gadamer has made major contributions to aesthetic theory Plato and Hegel studies humanistic studies and the philosophy of history A student of Martin Heidegger Gadamer took up and developed a number of central Heideggerian insights He also had productive public debates with contemporaries such as Emilio Betti and Jürgen Habermas The shape of contemporary hermeneutics is due almost entirely to Gadamer's influence and his magnum opus *Truth and Method* is considered one of the great philosophical works of the twentieth century This book is dedicated to Gadamer in honor of his hundredth birthday in 2000 The essays provide a measure of the classical character of Gadamer's work by showing the breadth of engagement his ideas have provoked As in Gadamer's own life and work dialogue and conversation figure as important themes in all of the essays While they encompass a diversity of philosophical perspectives interests and styles the essays also suggest the ever present possibility of dialogue across language and tradition and of the formation of new modes of discourse and philosophizing

The Democratic Theory of Hans-Georg Gadamer Darren Walhof, 2016-11-29 This book examines the distinctive contribution that the writings of Hans Georg Gadamer make to democratic theory Walhof argues that Gadamer's hermeneutical philosophy enlarges our perspective by shifting our view away from individual citizens to what exists between citizens thereby allowing us to envision political realities that are otherwise hard to see These realities include the disclosure of truth in democratic politics achieving common ground in democratic dialogue even amidst significant disagreement and diversity the public and political nature of the religious traditions that make claims on and shape citizens and the solidarities that connect us to each other and enable democratic action The author argues that bringing these dimensions to awareness enriches our theories of democracy and is particularly crucial in an era of hyper partisanship accelerating inequality and social conflicts involving racial sexual and religious identities

Dialogue and Dialectic Hans-Georg Gadamer, 1983-01-01 The author approaches Plato's dialogues as live discussions in which the concrete concerns of the participants define the horizons of discourse He takes up such perplexing problems of Plato's thought as the role of poetry in the state and the theory of ideal numbers and brings to them a fresh understanding With its emphasis on the dialogue form and the dramatic situation

this work complements the main tendencies of the analytical tradition which dominates contemporary Anglo Saxon writing on Plato
