Transportable Environments explores aspects of the historical and theoretical basis for portable architecture and provides an insight into the wide range of functions that it is used for today, the varied forms that it takes and the concerns and ideas for its future development. Written by a team of international commentators, this volume provides a state-of-the-art survey of this specialist area and will be of interest to a wide range of professionals across the construction and design industries. Featuring art and writing from the students of the Parkland tragedy, this is a raw look at the events of February 14, and a poignant representation of grief, healing, and hope. The students of Marjory Stoneman Douglas High School share their emotional journeys that began on February 14, 2018, and continue today. This revealing and unfiltered look at teens living in the wake of tragedy is a poignant representation of grief, anger, determination, healing, and hope. The intimate collection includes poetry, eyewitness accounts, letters, speeches, journal entries, drawings, and photographs from the events of February 14 and its aftermath. Full of heartbreaking loss, a rally cry for change, and hope for a safe future, these artistic pieces will inspire readers to reflect on their own lives and the importance of valuing and protecting the ones you love. Flexible architecture adapts to new uses, responds to change rather than stagnating, and is motive rather than static. Understanding how it has been conceived, designed, made, and used helps us understand its potential in solving current and future problems associated with technological, social, and economic change. This book explores the whole genre of flexible architecture buildings that are intended to respond to evolving situations in their form, operation, or location. Crossing the boundaries between architecture, interior design, product design, and furniture design, this innovative book is the first to deal with the entire scope of the topic.
