The Myth of Sisyphus And Other Essays Albert Camus,2012-10-31 One of the most influential works of this century The Myth of Sisyphus and Other Essays is a crucial exposition of existentialist thought Influenced by works such as Don Juan and the novels of Kafka these essays begin with a meditation on suicide the question of living or not living in a universe devoid of order or meaning With lyric eloquence Albert

Camus brilliantly posits a way out of despair reaffirming the value of personal existence and the possibility of life lived with dignity and authenticity

Meiosis and Gametogenesis, 1997-11-24 In spite of the fact that the process of meiosis is fundamental to inheritance surprisingly little is understood about how it actually occurs There has recently been a flurry of research activity in this area and this volume summarizes the advances coming from this work All authors are recognized and respected research scientists at the forefront of research in meiosis Of particular interest is the emphasis in this volume on meiosis in the context of gametogenesis in higher eukaryotic organisms backed up by chapters on meiotic mechanisms in other model organisms The focus is on modern molecular and cytological techniques and how these have elucidated fundamental mechanisms of meiosis Authors provide easy access to the literature for those who want to pursue topics in greater depth but reviews are comprehensive so that this book may become a standard reference

Key Features
Comprehensive reviews that taken together provide up to date coverage of a rapidly moving field
Features new and unpublished information
Integrates research in diverse organisms to present an overview of common threads in mechanisms of meiosis
Includes thoughtful consideration of areas for future investigation
