Interest in prescribing rigid gas permeable (RGP) contact lenses is on the rise, fueled by the increased use of orthokeratology, bifocal lenses, and advances in corneal topography (making fitting easier). This concise and comprehensive resource provides valuable coverage for the prescribing and fitting of RGP lenses. Based on the authors' years of expertise in fitting these lenses, this clinically oriented manual also includes a companion CD-

ROM to illustrate the fitting techniques. Content focuses specifically on rigid gas permeable contact lenses so all the essential information needed for prescribing and fitting is in one, convenient resource. A companion CD-ROM illustrates the difficult fitting techniques encountered with RGPs. A comprehensive guide for practitioners, covering patient management, initial assessment, lens selection, and detailed fitting procedures for both basic and complex lenses. The importance of aftercare is emphasized, both in routine follow-up and for problems which may arise with long-term wear.
