World Civilizations The Global Experience 5th Edition

World Civilizations Peter N. Stearns, 2001 **World Civilizations** Peter N. Stearns, 2007 The primary goal of World Civilizations is to present a truly global history since the development of agriculture and herding to the present Overview of World History Readers interested in the history and development of civilization worldwide **World Civilizations** Peter N. Stearns, Michael Adas, Stuart B. Schwartz, Marc Jason Gilbert, 2020 World history explores the human past around the globe to help us understand the world we live in today It seeks to identify how major forces like patterns of migration or world trade have developed over time It explores the cultures and political institutions of different regions to help explain commonalities and differences World history builds on a growing body of historical scholarship some of which has truly altered the picture of the past It involves a rich array of stories and examples of human variety intriguing in themselves It helps develop skills that are vital not just to the history classroom but to effective operation in a global society skills like comparing different societies appreciating various viewpoints and identifying big changes and continuities in the human experience Always however it uses the past as a prologue to the present World historians argue that no one society past or present can be understood without reference to other societies and to larger global forces They argue even more vigorously that the present which clearly involves relationships that embrace the whole world cannot be grasped without a sense of the global historical record From its first edition World Civilizations The Global Experience has aimed at capturing a truly global approach by discussing and comparing major societies and focusing on their interactions The goal is to present a clear factual framework while stimulating analysis about global contacts regional patterns and the whole process of change and continuity on a world stage This kind of world history focused on the development over time of the forces that shape the world today helps students make sense of the present and prepare to meet the challenges of the future It is hard to imagine a more important topic Embracing the whole world's history obviously requires selectivity and explicit points of emphasis This text gains coherence through decisions about time about place and about topic In all three cases the book encourages analysis relating facts to vital issues of interpretation Through analysis and interpretation students become active engaged learners rather than serving as passive vessels for torrents of historical facts Underpinning analysis the issues of time place and topic are the three keys to an intelligible global past **Advanced Placement World History: Modern** Editors, 2019-09 **World Civilizations: Volume II: Since 1500** Philip J. Jostein Gaarder's *Sophie's World* has fired the imagination of readers all over the world with more than twenty million copies in print. One day fourteen-year-old Sophie Amundsen comes home from school to find in her mailbox two notes with one question on each: Who are you and Where does the world come from? From that irresistible beginning, Sophie becomes obsessed with questions that take her far beyond what she knows of her Norwegian village. Through those letters she enrolls in a kind of correspondence course covering Socrates to Sartre with a mysterious philosopher while receiving letters addressed to another girl, Hilde. And why does her mail keep turning up? To unravel this riddle, Sophie must use the philosophy she is learning, but the truth turns out to be far more complicated than she could have imagined.

The parts move progressively along a timeline from the emergence of early humans to the present day, encouraging students to analyze historical events and develop a grasp of the chronology of human development. Readers will gain an appreciation of the national and cultural origins of all their diverse fellow citizens. MyHistoryLab is an integral part of the Spodek program. Key learning applications include the World History Video Series, MyHistoryLibrary, and the all-new Writing Space Teaching and Learning Experience.
