Gravetter, Larry B. Wallnau, 1988 **Statistics for the Behavioral Sciences** James Jaccard, Michael A. Becker, 2002 Now your students can become intelligent consumers of scientific research without being overwhelmed by the statistics Jaccard and Becker's text teaches students the basic skills for analyzing data and helps them become intelligent consumers of scientific information Praised for its real life applications the text tells students when to use a particular statistic why they should use it and how the statistic should be computed and interpreted Because many students given a set of data cannot determine where to begin in answering relevant research questions the authors explicate the issues involved in selecting a statistical test Each statistical technique is introduced by giving instances where the test is most typically applied followed by an interesting research example each example is taken from psychology literature **Solutions Manual to Accompany**

David Howell's Fundamental Statistics for the Behavioral Sciences Catherine T. Howell, 1985* *Fundamental Statistics for the Behavioral Sciences* David C. Howell, 2016-02-02 FUNDAMENTAL STATISTICS FOR THE BEHAVIORAL SCIENCES focuses on providing the context of statistics in behavioral research while emphasizing the importance of looking at data before jumping into a test This practical approach provides students with an understanding of the logic behind the statistics so they understand why and how certain methods are used rather than simply carry out techniques by rote Students move beyond number crunching to discover the meaning of statistical results and appreciate how the statistical test to be employed relates to the research questions posed by an experiment Written in an informal style the text provides an abundance of real data and research studies that provide a real life perspective and help students learn and understand concepts In alignment with current trends in statistics in the behavioral sciences the text emphasizes effect sizes and meta

analysis and integrates frequent demonstrations of computer analyses through SPSS and R Important Notice Media content referenced within the product description or the product text may not be available in the ebook version

Understanding Statistics in the Behavioral Sciences Robert R. Pagano, 2020-09-03 Based on over 30 years of successful teaching experience in this course Robert Pagano's introductory text takes an intuitive concepts based approach to descriptive and inferential statistics He uses the sign test to introduce inferential statistics empirically derived sampling distributions many visual aids and lots of interesting examples to promote reader understanding One of the hallmarks of this text is the positive feedback from users even those not mathematically inclined praise the text for its clarity detailed presentation and use of humor to help make concepts accessible and memorable Thorough explanations precede the introduction of every formula and the exercises that immediately follow include a step by step model that lets readers compare their work against fully solved examples This combination makes the text perfect for anyone building their foundation of knowledge for analyzing statistics in psychology or other social and behavioral sciences
