2. PURPOSE: To outline the guidelines, policies, and procedures for the 310th Quartermaster Detachment's Safety and Occupational Health (SOH) Performance plan objectives as per 4th ESC OPORD 004-14-002, Safety Performance Plan Objectives FY14. This program is a proactive and aggressive approach to ensure Safety is the number one priority in all operations. This SOP will address requirements and will apply to all personnel in this command; use the references listed above as guidance.

3. BACKGROUND: Safe operations start with unit readiness. Readiness depends on the ability of a unit to perform its mission-essential task list (METL) to standard. Ready units have self-disciplined Soldiers who consistently perform to standard; leaders who are ready, willing and able to enforce standards; training that provides skills needed for performance to standards; standards and procedures for task performance that are clear and practical; and support for task performance, including required equipment, maintenance, facilities, and services. Performing to standard is one of the key steps in preventing accidents. However, engaged leaders are aware that written standards may not exist for every task. Leaders must identify high risk tasks and review to ensure adequate standards exist and risks are mitigated. When safety is fully integrated in a unit, Soldier errors, equipment breakdowns, and the negative effects of the operating environment are kept to a minimum.
