Self-Care for TEACHERS Dr. Matthew Allen,2013-06-12 Designed for both individual use and professional development programs Self Care for Teachers provides guided reflections and practical advice for classroom teachers and educational leaders alike and will be of immediate benefit to many who feel overwhelmed by the increasing demands of the profession and are struggling to avoid burn out and find balance Clearly many teachers are stretched to the breaking point and much the same could be said of many administrators Indeed there is a curious conspiracy at work in overwork Teachers typically find it almost impossible to say no to more work and greater expectations just as administrators can't help themselves asking for more With the best of intentions we all put students first and sacrifice ourselves as necessary Various remedies have been suggested but most focus on managerial strategies or pedagogical reform organizations and teaching rather than teachers Dr Allen's approach is fundamentally different Twenty five years wide experience in education beginning with a boys boarding school and including a university lectureship a post at a prestigious prep school and various teaching and administrative positions in international schools has convinced him two simple truths Teachers can never meet the endless demands of the profession Not only that but as much as we care for our students we don't look after ourselves very well Consequently he suggests that a good part of the solution to the beguiling business of overwork and its attendant maladies must be what he has come to call self care both a missing piece of pedagogy and an overlooked aspect of educational leadership By self care I simply mean learning to look after ourselves better so that we can continue to look after our students as we would like to However much or little we are supported in our work and outside it I suggest that we appoint ourselves our own chief care givers and consciously seek whatever it is which sustains us most The purpose of this book is to further that initiative Since by self selection rigorous training and long habit educators often become used to unnecessary self sacrifice and constant self neglect Self Care for Teachers emphasizes learning learning to look after one's self and is as inspirational as it is instructional balancing inventory exercises with personal anecdotes Self Care for Teachers will help educators everywhere to regain their balance reclaim their time and renew their practice and will be of critical importance to thousands of teachers and administrators in the IB International Baccalaureate Program who believe in the IB ideal of balance but require explanation and guidance to make this concept a reality in their lives and schools Blending current research personal experience and literary reflections Self Care for Teachers at once scholarly artful and moving Written in a lively and accessible style this thought provoking work invites readers to reconsider long held views and values about vocation success balance time productivity and spirituality By reconsidering these fundamentals together educators everywhere can literally change their minds about their work as professionals and their lives as people and move towards greater peace productivity and pleasure

Find Your Balance Point Brian Tracy,Christina Stein,2015-09-01 Accomplish what matters most Because we all have too much to do it feels like our lives are out of balance But Brian Tracy and Christina Stein argue that imbalance results not so much from doing too much but from doing too much of the wrong things They provide a process that enables you to sort out what is most important to you from among the many activities you could focus on When you can efficiently identify and accomplish what really matters to you you ve found your balance point

Equity-Centered Trauma-Informed Education Alex Shevrin Venet,2023-09-01 Educators must both respond to the impact of trauma and prevent trauma at school Trauma informed initiatives tend to focus on the challenging behaviors of students and ascribe them to circumstances that students are facing outside of school This approach ignores the reality that inequity itself causes trauma and that schools often heighten inequities when implementing trauma informed practices that are not based in educational equity In this fresh look at trauma informed practice Alex Shevrin Venet urges educators to shift equity to the center as they consider policies and professional development Using a framework of six principles for equity centered trauma informed education Venet offers practical action steps that teachers and school leaders can take from any starting point using the resources and influence at their disposal to make shifts in practice pedagogy and policy Overthrowing inequitable systems is a process not an overnight change But transformation is possible when educators work together and teachers can do more than they realize from within their own classrooms
