The Routledge Handbook of Magazine Research David

Abrahamson, Marcia R. Prior-Miller, 2015-06-05 Scholarly engagement with the magazine form has in the last two decades produced a substantial amount of valuable research. Authored by leading academic authorities in the study of magazines, the chapters in *The Routledge Handbook of Magazine Research* not only create an architecture to organize and archive the developing field of magazine research but also suggest new avenues of future investigation. Each of 33 chapters surveys the last 20 years of scholarship in its subject area, identifying the major research themes, theoretical developments, and interpretive breakthroughs. Exploration of the digital challenges and opportunities which currently face the magazine world are woven throughout, offering readers a deeper understanding of the magazine form as well as of the sociocultural realities it both mirrors and influences. The book includes six sections: Methodologies and structures, presents theories and models for magazine research in an evolving global context; Magazine publishing: the people and the work, introduces the roles and practices of those involved in the editorial and business sides of magazine publishing; Magazines as textual communication, surveys the field of contemporary magazines across a range of theoretical perspectives; subjects, genre, and format questions; Magazines as visual communication, explores cover design, photography, illustrations, and interactivity; Pedagogical and curricular perspectives, offers insights on undergraduate and graduate teaching topics in magazine research; The future of the magazine form, speculates on the changing nature of magazine research via its environmental effects, audience, and transforming platforms.

Fashion and Everyday Life Cheryl Buckley, Hazel Clark, 2017-02-09 Taking cultural theorist Michel de Certeau's notion of the everyday as a critical starting point, this book considers how fashion shapes and is shaped by everyday life. Looking historically for the imprint of fashion within everyday routines such as going to work or shopping or in leisure activities like dancing, the book identifies the fashion system of the ordinary in which clothing has a distinct role in the making of self and identity. Exploring the period from 1890 to 2010, the study is located in London and New York cities that emerged as socially, ethnically, and culturally diverse as well as increasingly fashionable. The book re-focuses fashion discourse away from well-trodden power-laden dynamics towards a re-evaluation of time, memory, and above all, history, and their relationship to fashion and everyday life. The importance of place and space and issues of gender, race, and social class provides the broader framework, revealing fashion as both routine and exceptional and as an increasingly significant part of urban life. By focusing on key themes such as clothing, the city, what is worn on the streets, the imagining and performing of multiple identities by dressing up and down, going out and showing off, *Fashion and Everyday Life* makes a unique contribution to the literature of fashion studies, fashion history, cultural studies, and beyond.

All That Glitters Thomas Maier, 2019-09-03 From the bestselling author and television producer of *Masters of Sex*, a true story of the intrigue and infighting of Condé Nast Anna Wintour, S.I. Newhouse Jr., and Tina Brown, and optioned by Sony Television Productions, inside the Condé Nast magazine world run by billionaire S.I.

Newhouse Jr Anna Wintour and Tina Brown were bold and talented British women who fought their way to the top of this male dominated American industry driven by greed and betrayal Wintour became an icon of fashion and New York s high society while Brown helped define the intersection of literary culture and Hollywood celebrity They jockeyed for power in the hypercompetitive off with their heads atmosphere set up by Newhouse and his longtime creative guru Alex Liberman two men who for years controlled the glossy Cond Nast magazines that dictated how women should look dress and feel In turning this world upside down Wintour and Brown challenged the old rules and made Newhouse s company internationally famous Ultimately one of them won in their fascinating struggle for fame and fortune during the height of New York s gilded age of print a time before the internet before 9 11 when the Reagans ruled the White House and Donald Trump was a mere local developer featured on the cover of Newhouse s publications This book traces the careers of Wintour and Brown and shows how they and the Cond Nast media empire were major media enablers in the rise of Donald Trump and Hollywood mogul Harvey Weinstein At its heart All That Glitters is a parable about the changes in America s media where corruption and easy compromises are sprinkled with glitter power and glory Originally titled Newhouse this revised and updated edition with a new introduction and afterword won the 1994 Frank Luther Mott Award for best researched media book of the year
