Liquidated Karen Ho, 2009-07-13 Financial collapses whether of the junk bond market the Internet bubble or the highly leveraged housing market are often explained as the inevitable result of market cycles What goes up must come down In Liquidated Karen Ho punctures the aura of the abstract all powerful market to show how financial markets and particularly booms and busts are constructed Through an in depth investigation into the everyday experiences and ideologies of Wall Street investment bankers Ho describes how a financially dominant but highly unstable market system is understood justified and produced through the restructuring of corporations and the larger economy Ho who worked at an investment bank herself argues that bankers approaches to financial markets and corporate America are inseparable from the structures and strategies of their workplaces Her ethnographic analysis of those workplaces is filled with the voices of stressed first year associates overworked and alienated analysts undergraduates eager to be hired and seasoned managing directors Recruited from elite universities as the best and the brightest investment bankers are socialized into a world of high risk and high reward They are paid handsomely with the understanding that they may be let go at any time Their workplace culture and networks of privilege create the perception that job insecurity builds character and employee liquidity results in smart efficient business Based on this culture of liquidity and compensation practices tied to profligate deal making Wall Street investment bankers reshape corporate America in their own image Their mission is the creation of shareholder value but Ho demonstrates that their practices and assumptions often produce crises instead By connecting the values and actions of investment bankers to the construction of markets and the restructuring of U S corporations Liquidated reveals the particular culture of Wall Street often obscured by triumphalist readings of capitalist globalization

The Honest Drug Book (Deluxe Edition) Dominic Milton Trott, 2017-10-03 This is the full colour coffee table edition of The Honest Drug Book with dimensions of 8 5 x 11 21 59 x 27 94 cm Produced to do justice to the hundreds of photographs it also allows a more leisurely perusal of the contents The Honest Drug Book presents the hidden truth about a topic which touches the lives of almost everyone It cuts through the blustering rhetoric of the war on drugs and documents the facts about the subject in general and about the individual drugs specifically This is a journey through 140 psychoactives both chemical and botanical each of which was personally tested and used by the author For every drug it lists the fundamental and sometimes life critical information including the anticipated onset the common threshold doses and the expected period of efficacy It also describes the subjective experience what the drug was actually like at each stage of the duration These trip reports are vital as they help to identify pitfalls and specific risks for each substance Often this is achieved in a humorous and anecdotal manner which is occasionally accentuated by the fact that the author had to travel the world to undertake the experiments lawfully In addition to these often rich and lengthy reports the book is crammed with data and general information inclusive of legal briefings relative harm tables addiction and overdose advice detailed reference material and even a drug dictionary Of critical importance is the first section as it introduces the basics of harm reduction in the form of a 10 step procedure to help mitigate risk The same section explains core safety issues such as how to test and identify a drug and how to properly establish a dose The book itself is lavishly illustrated with hundreds of photographs including of the drugs themselves The images in the botanical section also encompass some of the indigenous settings encountered on the journey The full gamut of psychoactive chemicals and botanicals is covered The well known include LSD heroin cannabis mephedrone kratom cocaine 2C B DMT yopo methamphetamine salvia divinorum ketamine ayahuasca and MDMA The lesser known include betel nut 4 ho met changa TPA 4F MPH ephedrine ololiuqui cebil seeds mapacho MNA celastrus paniculatus yohimbe and MEAI The scope also extends beyond the most common categories of hallucinogens stimulants depressants cannabinoids and opioids Included for example are nootropics smart drugs and oneirogenics lucid and vivid dream herbs Another dimension which is covered largely in the final section is that of politics and the war on drugs This is confronted head on with a statement of intent which is crystal clear People are dying because of ignorance They are dying because unremitting propaganda is denying them essential safety information They are dying because legislators and the media are censoring the science and are ruthlessly pushing an ideological agenda instead They are dying because the first casualty of war is truth and the war on drugs is no different This book is a step to counter this harrowing and destructive situation Emphasised and underpinned throughout is personal safety and risk mitigation This is the first and last message and guides the entire narrative This is a book that won't only fascinate and inform it will save lives

Financial Literacy Education Chris Arthur, 2012 Consumer financial literacy education often appears as a helpful commonsense solution to neoliberalism and the individualization of responsibility for economic risk However in *Financial Literacy Education* Neoliberalism the Consumer and the Citizen this particular literacy is argued to be both ineffective and unjust Socially created poverty unemployment and economic insecurity require more than individual consumer solutions they require collective responses by engaged critical citizens Utilizing concepts from Marx Foucault Bourdieu and Baudrillard this book challenges those who claim that there is no alternative to neoliberal insecurity and reduce education to a consumerist training of entrepreneurial consumer citizens who can continually invest in themselves and the market Through an analysis of consumer financial literacy education s present and historical supports as well as its likely effects this book argues that the choice before us is not financial illiteracy or financial literacy Rather the choice is between subjugation to the requirements of perpetual competition or overcoming alienation insecurity and exploitation aims the critical financial literacy education outlined at the end of this book supports This book will appeal to those interested in understanding the conditions of our freedom in an increasingly financialized world critical educators philosophers and sociologists of education and financial literacy researchers

The Knowledge Gap Natalie Wexler, 2020-08-04 The untold story of the root cause of America s education crisis and the seemingly endless cycle of multigenerational poverty It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country s frustrating lack of progress when it comes to providing every child with a quality education The problem wasn t one of the usual scapegoats lazy teachers shoddy facilities lack of accountability It was something no one was talking about the elementary school curriculum s intense focus on decontextualized reading comprehension skills at the expense of actual knowledge In the tradition of Dale Russakoff s *The Prize* and Dana Goldstein s *The Teacher Wars* Wexler brings together history research and compelling characters to pull back the curtain on this fundamental flaw in our education system one that fellow reformers journalists and policymakers have long overlooked and of which the general public including many parents remains unaware But *The Knowledge Gap* isn t just a story of what schools have gotten so wrong it also follows innovative educators who are in the process of shedding their deeply ingrained habits and describes the rewards that have come along students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed If we truly want to fix our education system and unlock the potential of our neediest children we have no choice but to pay attention
