*Towards a Philosophy of Education* Charlotte Mason, 2024-03-26 *Towards a Philosophy of Education* is Charlotte Mason's final book in her Homeschooling Series written after years of seeing her approach in action. This volume gives the best overview of her philosophy and includes the final version of her 20 Principles. This book is particularly directed to parents of older children about ages 12 and up but is a valuable overview for parents of younger children as well. Part I develops and discusses her 20 principles. Part II discusses the practical application.

**Towards a Philosophy of Education** Charlotte Mason, 2010-08-01 *Towards a Philosophy of Education* is the sixth volume of Charlotte Mason's six-part homeschooling series, a series that is considered one of the finest ever written on education. *Towards a Philosophy of Education* gives the best overview of Mason's teaching philosophy. Written years after she was able to see her teaching methods in action, she is able to give further examples and directions. Mason's method of education shows its strength through its widespread use today by private schools and homeschooling families. It is flexible and includes first-hand exposure to ideas through books in art, music, and poetry, nature observation as the primary means of early science teaching, use of manipulatives, and real-life application to understand mathematical concepts and learning to reason rather than rote memorization, and an emphasis on character and on cultivating and maintaining good personal habits. The complete collection of Charlotte Mason's Original Homeschooling Series includes Volume 1 Home Education, Volume 2 Parents and Children, Volume 3 School Education, Volume 4 Ourselves, Volume 5 Formation Of Character, and Volume 6 **Towards A Philosophy of Education**.

**A Philosophy of Education** Charlotte Mason, 2017-09-13 *A Philosophy of Education* is Volume 6 of the Home Education Series by Charlotte Mason, in which she examines her 20 Principles in depth and provides curriculum guidance in all subjects. This edition has been edited to include the American English use of words, original page numbers noted within the text, translation of foreign phrases, and formatting that more easily conveys the original author's message. From Miss Mason's preface of this volume: My object in offering this volume to the public is to urge upon all who are concerned with education a few salient principles which are generally either unknown or disregarded and a few methods which like that bathing in Jordan are too simple to commend themselves to the general. Yet these principles and methods make education entirely effectual.

**Home Education** Charlotte Mason, 2013-02-18 *Home Education* consists of six lectures by Charlotte Mason about the raising and educating of young children up to the age of nine for parents and teachers. She encourages us to spend a lot of time outdoors, immersed in nature, handling natural objects and collecting experiences on which to base the rest of their education. She discusses the use of training in good habits such as attention, thinking, imagining, remembering, performing tasks with perfect execution, obedience, and truthfulness to replace undesirable tendencies in children and the adults that they grow into. She details how lessons in various school subjects can be done using her approach. She concludes with remarks about the Will, the
