The Energy Healing Experiments Gary E. Schwartz, 2007-08-07 A healer removes the pain of a broken wrist in fifteen minutes Another removes an ovarian tumor in a couple of weeks Still another from thousands of miles away regenerates the nerves of an injured spine for a patient on whom the doctors had given up These sound like tabloid stories but could they be true They are just three out of millions of instances in which healers have claimed to manipulate energy fields to cure the body Books on vibrational medicine prayer and spiritual healing present readers with an array of historical and current discoveries and techniques But so far nobody has addressed the reality of healing through comprehensive scientific research The Energy Healing Experiments fills that void Harvard educated Dr Gary E Schwartz provides scientific experiments and evidence to reveal the truth about the existence of energy fields and unlocks their potential for enhancing your health

The Living Energy Universe Gary E. Schwartz, Linda G. S. Russek, 2006-09 Using the tools of science two university scientists demonstrate that everything in the universe is alive eternal and evolving and present their new model of life the universal living memory

The Science of Subtle Energy Yury Kronn, 2022-04-19 Shares the results of the author's rigorous repeatable and predictable experiments with subtle energy Shows how the mind interacts with matter by means of subtle energy the key to the placebo effect the healing power of affirmations and prayers and energy medicine Demonstrates how to harness subtle energy and explains the author's technology to generate subtle energy formulations with practical applications Instruments of modern physics can measure the energies of the electromagnetic spectrum but these energies only account for roughly 4 percent of the total identifiable mass energy of the universe What makes up the remaining 96% In this scientifically based yet accessible analysis Yury Kronn Ph D explores the nature of the remaining 96% of the universe's mass energies Contemporary science calls this mass energy dark matter and the ancients called it life force prana or chi Kronn shows how this subtle energy belongs to the subatomic world and how it follows laws that are fundamentally different from those known to contemporary science Sharing the results of his rigorous repeatable and predictable experiments with subtle energy the author looks at the possible mechanisms of subtle energy's interaction with physical matter and with the human body He shows how the mind interacts with matter by means of subtle energy giving us the key to understanding the placebo effect and extrasensory perception as well as the healing power of affirmations and energy medicine Kronn demonstrates how it's possible to harness subtle energy and explains his development of Vital Force Technology which integrates ancient knowledge of the life force with modern technology to generate specific subtle energy formulations for practical applications He presents his experimental results creating subtle energy formulas to positively influence the germination of seeds and the growth of plants He also demonstrates the possibility of using subtle energy for creating clean and energetic pollution free environments for vitality and better healing Outlining the many benefits of subtle energy

technology to individuals societies and the planet as a whole Kronn reveals how the transformative power of subtle energy arises from the vast potential of human consciousness

The Afterlife Experiments Gary E. Schwartz, William L. Simon, 2002-03-13 An esteemed scientist's personal journey from skepticism to wonder and awe provides astonishing answers to a timeless question: Is there life after death? Are love and life eternal? This exciting account presents provocative evidence that could upset everything that science has ever taught. Daring to risk his worldwide academic reputation, Dr. Gary E. Schwartz, along with his research partner Dr. Linda Russek, asked some of the most prominent mediums in America, including John Edward, Suzane Northrup, and George Anderson, to become part of a series of extraordinary experiments to prove or disprove the existence of an afterlife.

THE AFTERLIFE EXPERIMENTS This riveting narrative, with its electrifying transcripts, puts the reader on the scene of a breakthrough scientific achievement: contact with the beyond under controlled laboratory conditions. In stringently monitored experiments, leading mediums attempted to contact dead friends and relatives of sitters who were masked from view and never spoke, depriving the mediums of any cues. The messages that came through stunned sitters and researchers alike. Here, as they unfolded in the laboratory setting, are uncanny revelations about a son's suicide, what a deceased father wanted to say about his last days in a coma, the transformation of a man's lifelong doubts about the afterlife, and most amazing of all, a forecast of a beloved spouse's death. Dr. Schwartz was forced by the overwhelmingly positive data to abandon his skepticism, reaching some startling conclusions. Compelling from the first page to the last, **The Afterlife Experiments** is the amazing documentation of groundbreaking experiments you will never forget.

The Energy Healing Experiments Gary E. Schwartz, 2008-08-19 Citing additional near-miraculous cures using Energy Healing techniques, the authors of **The Afterlife Experiments** and **The G O D Experiments** evaluate the healing capabilities of homeopathy and prayer while discussing how everyday people can use energy to positively influence the world. Reprint.

The Sacred Promise Gary E. Schwartz, 2011-01-11 **The Sacred Promise** offers scientific proof of Spirit's existence, be it the deceased, angels, or spirit guides, and shows Spirit's willingness and promise to offer guidance and help with the challenges of day-to-day living. **Sacred Promise** brings us into the laboratory of scientist Dr. Gary Schwartz, where he establishes the existence of Spirit by its own Willful Intent, a proof of concept for deceased spirits. The author takes readers on a personal journey into the world of angels and spirits and reveals their existence and desire to help. Dr. Schwartz candidly discusses the challenges as well as the rewards of connecting with Spirit. He poses several important questions: What if our feelings of emptiness, loneliness, hopelessness, and meaninglessness are actually fostered by our belief in a spiritless Universe? What if our physical hunger is symptomatic of a greater spiritual hunger? What if Spirit is actually all around us, ready to fill us with energy, hope, and direction if we are ready to ingest it? What if Spirit is like air and water, readily available for us to draw within, that is, if we choose to seek it? **Sacred Promise** shows how we can attune ourselves and receive this guidance from Spirit, which is all scientifically documented by Dr. Schwartz's experiments and research. Prepare to suspend your beliefs about
