Play in Creative Problem-solving for Planners and Architects

Mar 10 2022 In *Play in Creative Problem-solving for Planners and Architects*, "play" is defined, explored and demonstrated as a critical catalyst in creative problem-solving processes. The book defines the current psychological research into play and creative problem-solving, explores the necessary integration of the two, and exemplifies for students and practitioners the use of play in creative endeavors; and the role that play serves in separating linear from creative problem-solving approaches. Play is explored regarding its elements (tools, skills, environment), characteristics (a free activity without failure) and attitude as it relates to and activates the creative process with the focus on urban design, planning, architecture, and landscape architecture. The book re-establishes the whole mind-body thinking process of play as a means of object-learning; to provide designers and planners with alternative ways of design-thinking; and to challenge the over-utilization of digital technologies in creative processes. Creative problem-solving requires an appreciation for ambiguity, uncertainty of outcome, complexity that leads to the discovery of novelty and innovation. The book incorporates examples and exercises in play activities related to the design and planning fields, and exercises related to play-tools and skills for students and professionals. It also defines terms used in play and creativity psychology; provides examples and structure for play and creative problem-solving activities; describes the type and use of appropriate play-tools; contains an extensive bibliography on play and creative problem-solving texts; and provides significant

illustrations making it fundamental reading for students and professionals in urban design and planning fields.

Playskool Shuffle Stories Nov 29 2023 Kids will love Shuffle Stories, a new format filled with 25 double-sided, wipe-off story cards where they can make up their own stories about their Playskool pals. Each card will be outlined in either RED (subject), YELLOW (verb), or BLUE (end of sentence). Put any set of three cards in that order to make a simple, silly sentence. Then string a bunch of sentences together to tell a wacky story. Read the story by following the picture clues or reading the outlined words on the bottom of each card. Then write the story by tracing the words with the crayon. To make more stories, simply wipe the cards clean, shuffle them, and do it all over again! Comes with a reusable package with a carry-along handle and a double-sided crayon all for only \$7.99!

Lincoln Logs Building Manual May 04 2024 For generations, children have loved playing with LINCOLN LOGS building sets and discovering just how inventive they can be. The brainchild of

John Lloyd Wright (son of the famous architect), these interlocking logs open up endless possibilities for kids: anything a child can dream up, he or she can build. Plus, every time kids place the logs in position, they're enhancing their manual dexterity. But there is one thing this wonderful plaything has never had: a detailed manual that explains exactly how to create specific projects. Finally, it's here, complete with an interactive, easy-to-use CD-ROM that lets children (and probably more than a few grownups with fond memories!) go straight to the directions they need. Blueprints lay out every step that goes into constructing a bank, barn, farmhouse, firehouse, frontier tower, multiple cabins, and much more.
