Ivor Horton's Beginning Java Mar 10 2022 Find out why thousands have turned to Ivor Horton for learning Java Ivor Horton's approach is teaching Java is so effective and popular that he is one of the leading authors of introductory programming tutorials, with over 160,000 copies of his Java books sold. In this latest edition, whether you're a beginner or an experienced programmer switching to Java, you'll learn how to build real-world Java applications using Java SE 7. The author thoroughly covers the basics as well as new features such as extensions and classes; extended coverage of the Swing Application Framework; and he does it all in his unique, highly accessible style that beginners love. Provides a thorough introduction to the latest version of the Java programming language, Java SE 7 Introduces you to a host of new features for both novices and experienced programmers Covers the basics as well as new language extensions and classes and class methods Guides you through the Swing Application Framework for creating Swing apps Uses numerous step-by-step programming

examples to guide you through the development process There's no better way to get thoroughly up to speed on the latest version of Java than with Ivor Horton's latest, comprehensive guide.

Printed Physics Apr 30 2021 The humanities, natural and technical sciences seemingly have little to say to each other - despite all the trans-disciplinary efforts. The "Applied Virtuality" series will comprise four volumes that create and examine a discourse on the correlations between the larger contexts of their present. Printed Physics, the first volume, begins with the discussion of developments in information technology that make the physical behavior of matter technologically programmable, allow for its factual construction, industrial production and its determination with symbols. Is it possible that a revitalization of the field of physics looms in the future similar to that which took place with geometry in the 19th century?

Travels In A Strange State Feb 06 2022 By most people's standards, Josie Dew is hugely adventurous. By American standards, she is completely insane. For Americans drive everywhere: through cinemas, restaurants, banks, even trees. But driving past Josie as she pedalled across America was a new and alarming experience. On her eight-month journey Josie experienced it all; race riots in Los Angeles, impossible heat in Death Valley, Sexual Tantric Seminars in Hawaii. From Utah to the Great Lakes, via

improbable places like Zzyzx and Squaw Tit, her two-wheeled odyssey brought her into contact with all the wonders and worries of this larger-than-life country. Highly entertaining, richly informative, TRAVELS IN A STRANGE STATE is a personal memoir of an improbable journey, revealing the United States as it is rarely seen - from the seat of a bicycle.

Sir Michael Caine - The Biography Sep 15 2022 Born Maurice Micklewhite, son of a Billingsgate fish porter and a charlady; Michael Caine's life has been an extraordinary rollercoaster: from washing dishes and fighting on National Service, to winning two Oscars and being knighted by the Queen. With more than eighty films to his name, he has starred in some of the classics of modern cinema: as an action anti-hero in Get Carter, a Cockney Lothario in Alfie, a disillusioned alcoholic academic in Educating Rita. He is an enduring model of British cool. This authorised biography charts the amazing highs and lows in his turbulent ride to fame, fortune and respect.

Finding and Knowing Feb 26 2021 Explores what we know about how we want, see, browse, read, use and remember online information. Readers take a non-technical and entertaining journey into previously obscure depths of cognitive psychology and information science.

Did Somebody Step on a Duck? Jul 02 2021 This impolite, aromatic, and incredibly

erudite flatulence compendium will astound you with: • The recent discovery of the world’s oldest joke, a proverb from the Old Babylonian period, that turned out to be—that’s right, folks—a fart joke. • A new reading of Emily Dickinson’s poetry that “reveals” the true meaning behind “They Have a Little Odor.” • A harrowing account of Apollo astronauts getting inner-space gas from hydrogen bubbles in their drinking water on their way to the moon. • The other Tiger Woods scandal—this one involving a mysterious cheek-squeak recorded while Tiger sized up an approach shot at the 2009 Buick Open. • A scientist who built the world’s biggest whoopee cushion and lived to tell about it and many more wacky but true tales from the fart historian who brought you the best-selling *Who Cut the Cheese?* and its combustible sequel, *Blame It on the Dog*. In this incomparable collection you’ll experience firsthand the Jungian implications of farting, the environmental import of “flatulence cards” in the carbon-offset market, and the brutally honest social commentary of a man whose office chair broadcasts his farts on Twitter. After reading this book you’ll proudly proclaim, “I fart, therefore I am.”

The British Journal of Photography Jun 12 2022

No More Pencils, No More Books, No More Teacher's Dirty Looks! Jul 06 2024 On the last day of school, Gilbert is happy it's almost over and excited about the summer

ahead, yet at the end-of-the-year party, Gilbert watches as his classmates receive prizes and soon begins to wonder if he will get one for being the best of something, too.

Reprint.

Adventures in Unhistory Jun 24 2023 * Where did Sinbad Sail? * Who Fired the Phoenix? * The Boy Who Cried Werewolf * The Great Rough Beast * Postscript on Prester John * The Secret of Hyperborea * What Gave All Those Mammoths Cold Feet? And many more--fictional? authoritative? fantastic? deadpan?--investigations into the real, the true...and the things that should be true PREFACE BY PETER S. BEAGLE ILLUSTRATED BY GEORGE BARR "Although the wombat is real and the dragon is not, nobody knows what a wombat looks like and everyone knows what a dragon looks like." Not a novel, not a book of short stories, *Adventures in Unhistory* is a book of the fantastic--a compendium of magisterial examinations of Mermaids, Mandrakes, and Mammoths; Dragons, Werewolves, and Unicorns; the Phoenix and the Roc; about places such as Sicily, Siberia, and the Moon; about heroic, sinister, and legendary persons such as Sindbad, and Aleister Crowley, and Prester John; and--revealed at last--the Secret of Hyperborea. The facts are here, the foundations behind rumors, legends, and the imaginations of generations of tale-spinners. But far from being dry recitals, these meditations, or lectures, or deadpan prose performances are as

lively, as crazily inventive, as witty as the best fiction of the author, a writer praised by Gardner Dozois as "one of the great short story writers of our times." Who, on the subject of Dragons, could write coldly, dispassionately, guided only by logic? Certainly not Avram Davidson. Certain facts, these facts, deserve more than recitation; they deserve flourish, verve, gusto, style--the late, great Avram Davidson's unique voice. That prose which, in the words of Peter S. Beagle's Preface to this volume, "cries out to be read aloud."

No More Excuses Feb 01 2024 In late 2017 the #MeToo movement went viral, opening up an explosive conversation about rape culture around the globe. In the US, someone is sexually assaulted every 98 seconds. More than 320,000 Americans over the age of twelve are sexually assaulted each year. One in thirty-three American men will be sexually assaulted or raped in his lifetime. Yet only 3 percent of rapists ever serve time in jail. Keyser explores the patriarchal constructs that support rape culture. The keys to dismantling them: redefine healthy manhood and sexuality, believe victims, improve social and legal systems and workplace environments, evaluate media with a critical eye, and stand up to speak out. -- adapted from Amazon.com info

I Ain't Gonna Paint No More! Dec 31 2023 In the rhythm of a familiar folk song, a

child cannot resist adding one more dab of paint in surprising places.

Indian No More Sep 27 2023 When Regina's Umpqua tribe is legally terminated and her family must relocate from Oregon to Los Angeles, she goes on a quest to understand her identity as an Indian despite being so far from home.

No More Naps! Oct 29 2023 Imagine if you could steal your toddler's nap? This picture book debut from a #1 New York Times bestselling author turns the universal dilemma of getting kids to sleep upside down! It's time for a nap but, just like stubborn toddlers everywhere, Annalise Devin McFleece won't have anything to do with bedtime. Dad tries to encourage sleepiness by pushing her around the park in her stroller. Along the way, they pass a man sitting on a bench, dog walkers walking dogs, a boy on a skateboard, kids playing ball, a girl practicing her juggling, and others. Each of them thinks that taking a nap is a great idea and if Annalise Devin McFleece doesn't want hers, they'll happily take it. And one by one, everyone falls asleep...except Annalise Devin McFleece. But when she's finally ready for her nap, all the naps are taken! Is there anyone who has an extra nap to spare? With every turn of the page, the busy city scene becomes more and more quiet...except for Annalise Devin McFleece. Will she ever take a nap?

Dawn Nov 17 2022 In this work, originally published in Dutch, Rik Smits theorizes

that language could not have developed originally as a system of communication. It is, instead, the result of combining separate abilities, each of which developed independently to aid the survival of early humans. Lacking strength and speed, man relies on wisdom for survival. Smits theorizes that human skills in calculation and estimation continued to develop until they were sufficient to accommodate a system as complex as grammar. Only after our linguistic ability emerged could humans think logically and share our reasoning with others, at which point almost everything we now call culture began to flourish. Smits concludes that language cannot have long predated the invention of agriculture in the Middle East, some 14,000 years ago. The huge advance in civilization represented by language made abstract powers of reasoning indispensable for the first time, along with highly developed concepts of identity, past, present, and future, all of which rely upon language. This explanation of the origins of language throws new light on cave paintings by Cro-Magnon man, whose masterpieces date from about 40,000 to 15,000 years ago. Anatomically Cro-Magnons were modern humans, but they had no language in the modern sense. Their absence of language gave them no true sense of individual identity. This translation was made possible by a grant from the Dutch Foundation for Literature.

Inside Out & Back Again Feb 18 2023 Moving to America turns H&A's life inside out.

For all the 10 years of her life, Hà has only known Saigon: the thrills of its markets, the joy of its traditions, the warmth of her friends close by, and the beauty of her very own papaya tree. But now the Vietnam War has reached her home. Hà and her family are forced to flee as Saigon falls, and they board a ship headed toward hope. In America, Hà discovers the foreign world of Alabama: the coldness of its strangers, the dullness of its food, the strange shape of its landscape, and the strength of her very own family. This is the moving story of one girl's year of change, dreams, grief, and healing as she journeys from one country to another, one life to the next.

Transforming Preschool Storytime Apr 22 2023 According to recent research, the best way to make new connections in a child's brain is by building on something already known. A child who loves a book will listen to it repeatedly, maintaining interest. Using a selected book in a number of consecutive preschool storytimes, but presenting it differently each time, can help children learn new skill sets. This book presents a new approach to storytime, one that employs repetition with variety to create an experience which helps children connect and engage with the story on a higher level. Diamant-Cohen, recently awarded the 2013 ASCLA Leadership and Professional Achievement Award, and Hetrick offer a year's worth of activities specifically designed to address multiple intelligences through a repetition-based process.

Incorporating recent theories on developmental learning, this book includes Scripts for 8 different books, with enough activities to repeat each one for six weeks, along with lists of optional alternative books Planning aids such as outlines of storytime sessions, a fill-in-the-blanks planning sheet, questions for evaluation, and tips for enhanced storytimes using props and crafts Detailed but straightforward explanations of theory and research that will help readers communicate effectively with parents, caregivers, and other stakeholders From setup to execution, here's everything you need to create and implement a successful, elevated storytime.

UNIX System V Network Programming Mar 29 2021 Finally, with UNIX® System V Network Programming, an authoritative reference is available for programmers and system architects interested in building networked and distributed applications for UNIX System V. Even if you currently use a different version of the UNIX system, such as the latest release of 4.3BSD or SunOS, this book is valuable to you because it is centered around UNIX System V Release 4, the version of the UNIX system that unified many of the divergent UNIX implementations. For those professionals new to networking and UNIX system programming, two introductory chapters are provided. The author then presents the programming interfaces most important to building communication software in System V, including STREAMS, the Transport Layer

Interface library, Sockets, and Remote Procedure Calls. So that your designs are not limited to user-level, the author also explains how to write kernel-level communication software, including STREAMS drivers, modules, and multiplexors. Many examples are provided, including an Ethernet driver and a transport-level multiplexing driver. In the final chapter, the author brings the material from previous chapters together, presenting the design of a SLIP communication package.

Real World Adobe InDesign CC Jul 14 2022 Sharpen your InDesign skills with this definitive resource created specifically for design professionals who need to produce great work in InDesign CC—regardless of the delivery platform. Best-selling authors Olav Martin Kvern, David Blatner, and Bob Bringhurst share their hands-on techniques to help you master InDesign’s advanced layout tools. This book is brimming with insightful advice, illustrations, and shortcuts that will have you producing high-quality work in no time. This is the book that experts open to find real answers to their questions about InDesign. It’s written in a friendly, visual style that offers accurate information and creative inspiration for every InDesign user, whether you’re publishing to a tablet, mobile phone, or traditional print publication. In Real World Adobe InDesign CC you’ll learn how to: Use the new Creative Cloud features and enhancements, including managing font menu favorites, QR codes, and much more

Prep documents and use the improved EPUB Export feature for web and mobile publishing Take full advantage of the best typesetting features on the market Use best practices for consistent color management Increase productivity with scripts and other automation features

The Department of Labor's ... Findings on the Worst Forms of Child Labor Dec 19 2022

Beyond Codependency Jul 26 2023 In simple, straightforward terms, Beattie takes you into the territory beyond codependency, into the realm of recovery and relapse, family-of-origin work and relationships, surrender and spirituality. You're learning to let go, to live your life free of the grip of someone else's problems. And yet you find you've just started on the long journey of recovery. Let Melody Beattie, author of the classic *Codependent No More*, help you along your way. A guided tour past the pitfalls of recovery, *Beyond Codependency* is dedicated to those struggling to master the art of self-care. It is a book about what to do once the pain has stopped and you've begun to suspect that you have a life to live. It is about what happens next. In simple, straightforward terms, Beattie takes you into the territory beyond codependency, into the realm of recovery and relapse, family-of-origin work and relationships, surrender and spirituality. With personal stories, hard-won insights, and activities, her book

teaches the lessons of dealing with shame, growing in self-esteem, overcoming deprivation, and getting past fatal attractions long enough to find relationships that work.

Waldie's Select Circulating Library Aug 15 2022

IPv6 Network Programming Dec 07 2021 This book contains everything you need to make your application program support IPv6. IPv6 socket APIs (RFC2553) are fully described with real-world examples. It covers security, a great concern these days. To secure the Internet infrastructure, every developer has to take a security stance - to audit every line of code, to use proper API and write correct and secure code as much as possible. To achieve this goal, the examples presented in this book are implemented with a security stance. Also, the book leads you to write secure programs. For instance, the book recommends against the use of some of the IPv6 standard APIs - unfortunately, there are some IPv6 APIs that are inherently insecure, so the book tries to avoid (and discourage) the use of such APIs. Another key issue is portability. The examples in the book should be applicable to any of UNIX based operating systems, MacOS X, and Windows XP. * Covers the new protocol just adopted by the Dept of Defense for future systems * Deals with security concerns, including spam and email, by presenting the best programming standards * Fully describes IPv6 socket APIs

(RFC2553) using real-world examples * Allows for portability to UNIX-based operating systems, MacOS X, and Windows XP

Binge No More Mar 02 2024 *Binge No More: A 7-day Program to Overcome Emotional Eating* In the vast tapestry of human experiences, our relationship with food stands out as one of the most primal, yet complex. For many, food is not just sustenance—it's comfort, it's celebration, it's solace. But what happens when this relationship becomes tumultuous? When the very act of eating, meant to nourish, begins to harm? "Binge No More" delves deep into this intricate dynamic, offering a lifeline to those ensnared in the grips of emotional eating. Discover the Heart of Emotional Eating Emotional eating is more than just "eating your feelings." It's a manifestation of deeper emotional undercurrents, often long-buried under the weight of daily life. This book unravels the layers, helping readers understand the triggers, the patterns, and most importantly, the path to healing. A 7-day Transformation Why seven days? Because in a world of instant gratifications, sometimes we need to see that profound change can begin in a short span. This isn't about quick fixes or miracle cures; it's about starting a journey. Over the course of a week, readers will be guided through introspective activities, practical strategies, and reflective exercises, all designed to reset their relationship with food. Personal Anecdotes Meet Scientific

Research Drawing from the author's own struggles and triumphs with emotional eating, the narrative is deeply personal, yet universally relatable. Interspersed with these anecdotes are nuggets of scientific research, offering readers a holistic understanding of the issue. It's a blend of heart and science, emotion and logic. Tools for Lifelong Change Beyond understanding emotional eating, the book equips readers with tangible tools to break free. From journal prompts to mindfulness exercises, from understanding food labels to creating balanced meal plans, readers will find a treasure trove of resources to support their journey. A Community of Support One of the most profound revelations of "Binge No More" is the understanding that you are not alone.

Throughout the book, readers will find stories of others who have walked this path, who have stumbled, risen, and triumphed. It's a reminder that in this journey, there's a community of support, always. For Whom is This Book? For those who find themselves reaching for food in moments of stress, sadness, or even joy, and later regretting it. For individuals who feel trapped in a cycle of dieting, bingeing, and guilt. For anyone who wishes to understand their relationship with food and desires to transform it. Book Highlight: Overcoming Emotional Eating in a Week: Embark on a transformative 7-day journey to reclaim your relationship with food. 7-day Program to Break Binge Eating Habits: Step-by-step guidance to break free from the cycle of

bingeing and find balance. *Mindful Eating Techniques for Emotional Wellness*: Delve into mindfulness practices tailored to enhance your eating experiences. *Comprehensive Guide to Stop Emotional Overeating*: From understanding triggers to implementing solutions, this guide covers it all. *Transformative Strategies to Heal Food Cravings*: Equip yourself with effective techniques to navigate and diminish intense food desires. *Daily Activities for a Balanced Relationship with Food*: Engage in practical exercises that foster a healthy and harmonious connection with your meals. In "Binge No More," you're not just getting a book; you're getting a companion for your journey towards a healthier, happier self. It's a journey of self-discovery, of challenges, of victories, and of transformation. So, take the leap, embrace the journey, and discover a life where food is joy, not a crutch.

Edge City May 31 2021 First there was downtown. Then there were suburbs. Then there were malls. Then Americans launched the most sweeping change in 100 years in how they live, work, and play. *The Edge City*.

No More Noisy Nights May 04 2024 Who is making so much noise and how will Jackson ever get to sleep? Despite some silly, sleepy mistakes, genteel Jackson finds a fun and quiet activity for each of his noisy neighbors. He finally gets a great night's sleep—and discovers three new friends in the morning. Cozier than a mole in fuzzy pajamas, *No More Noisy Nights* is an underground, under-the covers read-aloud, perfect for calming bedtime boogey-woogies.

PC Mag Oct 17 2022 PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology.

Beyond HTML Goodies Oct 05 2021 Go beyond the basics and learn how the pros add and use dynamic HTML features and advanced JavaScript techniques. *Beyond HTML Goodies* demonstrates dozens of new and different features readers can add to their existing Web pages using HTML and JavaScript. The book starts with simple text

and image tips, such as adding a clock to a Web page or causing text to appear when the mouse moves over an image. It gradually builds to more complex tricks, including manipulating forms or working with cookies behind the scenes. Throughout the book, readers enjoy Joe's snappy style and "to the point" discussion of each "goody" in the book.

The Photographic Times Jan 08 2022

No More Poems! Nov 29 2023 Acclaimed singer-songwriter Rhett Miller teams up with Caldecott Medalist and bestselling artist Dan Santat in a riotous collection of irreverent poems for modern families. In the tradition of Shel Silverstein, these poems bring a fresh new twist to the classic dilemmas of childhood as well as a perceptive eye to the foibles of modern family life. Full of clever wordplay and bright visual gags--and toilet humor to spare--these twenty-three rhyming poems make for an ideal read-aloud experience. Taking on the subjects of a bullying baseball coach and annoying little brothers with equally sly humor, renowned lyricist Rhett Miller's clever verses will have the whole family cackling.
