The hm Learning and Study Skills Program: Level II was designed to provide an introduction to learning and study skills for 8th, 9th, and 10th grade students through a series of activity-oriented units. It is structured on the assumption that an activity-oriented lesson is the most effective instructional strategy for the teaching of study skills: more succinctly, that "learning by doing" is the best way 'study smart'. The Level II Teacher's Guide includes a pretest, a wide variety of teaching suggestions, unit summaries, activities for retrieval and closure as well as teaching adaptations through the use of technology. It was published to help teachers assist students in the development of essential study skills and to reinforce their existing strategies that work. The Program supports academic independence for students that have a wide range of ability with college and career readiness as a tangible and realistic goal.

Now that you know the core principles of arithmetic and geometry, you're ready to move on to learning advanced skills that will allow you to explore more aspects of God's creation. In Book 2, the focus is on the essential principles of algebra, coordinate graphing, probability, statistics, functions, and other important areas of mathematics. Here at last is a math curriculum with a biblical worldview focus that will help you: Understand why you're learning what you're learning, and ultimately why math matters Apply what you're learning outside a textbook, and, above all, see God's handiwork in math and His creation Firm up the foundational concepts and prepare students for upper-level math in a logical, step-by-step way. Some mathematical terms seem so complex, but don't worry; they're just fancy names to describe useful tools. In Book 2 you'll continue discovering that all of math boils down to a way of describing God's world.
