Crimes Against Humanity The Struggle For Global Justice Geoffrey Robertson

Crimes Against Humanity Geoffrey Robertson,2013-02-05 When it was first published in 1999 Crimes Against Humanity called for a radical shift from diplomacy to justice in international affairs In vivid non legalese prose leading human rights lawyer Geoffrey Robertson made a riveting case for holding political and military leaders accountable in international courts for genocide torture and mass murder Since then fearsome figures such as Charles Taylor Laurent Gbagbo and Ratko Mladic have been tried in international criminal court and a global movement has rallied around the human rights framework of justice Any such legal framework requires constant evolution in order to stay relevant and this newly revised and expanded volume brings the conversation up to date In substantial new chapters Robertson covers the protection of war correspondents the problem of piracy crimes against humanity in Syria nuclear armament in Iran and other challenges we are grappling with today He criticizes the Obama administration s policies around targeted killing and the trials of Khalid Sheik Mohammed and other high value detainees By rendering a complex debate accessible Robertson once again provides an essential guide for anyone looking to understand human rights and how to work toward a more complete blueprint for justice

Crimes Against Humanity Geoffrey Robertson,Geoffrey,2008 Geoffrey Robertson s Crimes Against Humanity is a superb and highly influential account of the history of the human rights movement up to the present day From the French Revolution and the Nuremberg trials to 9 11 and the invasion of Iraq Robertson traces the developing concept of human rights and shows how far we still have to go His inspiring narrative is both a masterly history and a clarion call to the global justice movement

Crimes Against Humanity Geoffrey Robertson,2006-08-31 In this fresh edition of the book which has inspired the global justice movement Geoffrey Robertson QC explains why we must hold political and military leaders accountable for genocide torture and mass murder the crimes against humanity that have disfigured the world He shows how human rights standards can be enforced against cruel governments armies and multi national corporations This seminal work now contains a critical perspective on recent events such as the invasion of Iraq the abuses at AbuGhraib the killings in Darfur the death of Milosevic and the trial of Saddam Hussein Cautiously optimistic about ending impunity but unsparingly critical of diplomats politicians Bush lawyers and others who evade international rules this third edition will provide further guidance to a movement which aims to make justice predominant in world affairs A beacon of clear sighted commitment to the humanitarian cause impassioned exemplary seminal Observer

Bad People – and How to Be Rid of Them Geoffrey Robertson,2021-05-04 Twenty years ago Geoffrey Robertson inspired the global justice movement with his ground breaking book Crimes Against Humanity Since then the movement has stalled as nationalism takes hold and populist governments retreat from international courts and refuse to comply with their rulings But there is an alternative The Plan B for human rights looks back to national laws to name blame and shame abusers It strips them of their right to enter democratic nations and of ill gotten funds they seek to deposit in global banks and it bars them and their families from schools and hospitals in these countries This book explains the background and potential of these laws which have been called Magnitsky Laws after Sergei Magnitsky a lawyer who died in a Russian jail after exposing state corruption Early versions of them have been introduced in the US Canada and Britain and they are now being considered in Australia Geoffrey Robertson argues in this book that the Magnitsky movement offers a potent solution to crimes being committed against humanity whether in America Russia China or Belarus These abuses are a concern for all human beings and good people are no longer prepared to tolerate them in their own country or elsewhere in the world The Magnitsky laws can show the way forward for the global justice movement in the twenty first century

Hell Is a Very Small Place Jean Casella,James Ridgeway,Sarah Shourd,2014-11-11 An unforgettable look at the peculiar horrors and humiliations involved in solitary confinement from the prisoners who have survived it New York Review of Books On any given day the United States holds more than eighty thousand people in solitary confinement a punishment that beyond fifteen days has been denounced as a form of cruel and degrading treatment by the UN Special Rapporteur on Torture Now in a book that will add a startling new dimension to the debates around human rights and prison reform former and current prisoners describe the devastating effects of isolation on their minds and bodies the solidarity expressed between individuals who live side by side for years without ever meeting one another face to face the ever present specters of madness and suicide and the struggle to maintain hope and humanity As Chelsea Manning wrote from her own solitary confinement cell The personal accounts by prisoners are some of the most disturbing that I have ever read These firsthand accounts are supplemented by the writing of noted experts exploring the psychological legal ethical and political dimensions of solitary confinement Do we really think it makes sense to lock so many people alone in tiny cells for twenty three hours a day for months sometimes for years at a time That is not going to make us safer That s not going to make us stronger President Barack Obama Elegant but harrowing San Francisco Chronicle A potent cry of anguish from men and women buried way down in the hole Kirkus Reviews

An Inconvenient Genocide Geoffrey Robertson,2014-10-16 The most controversial question that is still being asked about the First World War was there an Armenian genocide will come to a head on 24 April 2015 when Armenians worldwide will commemorate its centenary and Turkey will deny that it took place claiming that the deaths of over half of the Armenian race were justified This has become a vital international issue Twenty national parliaments in democratic countries have voted to recognise the genocide but Britain and the USA continue to equivocate for fear of alienating their NATO ally Geoffrey Robertson QC condemns this hypocrisy and in An Inconvenient Genocide he proves beyond reasonable doubt that the horrific events in the Ottoman Empire in 1915 constitute the crime against humanity that is today known as genocide He explains how democracies can deal with genocide denial without infringing free speech and makes a major contribution to understanding and preventing this worst of all crimes His renowned powers of advocacy are on full display as he condemns all those from Sri Lanka to the Sudan from Old Anatolia to modern Syria and Iraq who try to justify the mass murder of children and civilians in the name of military necessity or religious fervour

Bad People Geoffrey Robertson,2021-03-30 From the Nuremberg trials to the arrest of General Pinochet to the prosecution of barbarians of the Balkans we have crafted a global human rights law to punish crimes against humanity And yet today it is rarely applied the International Criminal Court has faltered populist governments refuse to cooperate the UN Security Council is pole axed and liberal democracy is on the defensive When faced with the torture of Sergei Magnitsky the murder of Jamal Khashoggi and the repression of the Uighurs what recourse do we have Distinguished human rights lawyer Geoffrey Robertson argues that our most powerful weapon is Magnitsky laws by which not only perpetrators but their accomplices lickspittle judges doctors who assist in torture corporations that profit from slave labour are named shamed and blamed Though the UK and the EU have passed nascent Magnitsky laws they are not deploying them effectively It is only by developing a full blooded system of coordinated sanctions banning human rights violators from entering democratic countries to funnel their ill gotten gains through Western banks and take advantage of our schools and hospitals that we can fight back against cruelty and corruption Bad People sets out a Plan B for human rights offering a new blueprint for global justice in a post pandemic world
