## Reading And Language Arts

**Baseball Boys** MR Joseph T. Rector, 2011-01-28 Martin Simmons was the king of the middle school Ike Stearn was every bit as athletic as Martin but unlike him Ike didn't flaunt his abilities Before long a showdown came but the end result of it wasn't the development of a vicious rivalry Instead the two became close friends Ike struggled with Martin's constant demands on his time He wasn't strong enough to stand up to his friend so he went along and silently held a grudge He and Ike however shined their brightest on the baseball field Whenever Martin needed help he called Ike to summon his presence Resentment grew in Ike as he played baseball because Martin expected him to His dad's demands concerning his baseball play fueled more controversy as the man tried to find glory through his son's abilities Ike harbored a secret interest writing He successfully joins the staff of the school paper and finds an outlet for his need to create In their senior year the boys reach the title game for the state baseball championship Martin covets the MVP award but it's Ike who makes the plays and receives it The two experience some icy moments in their relationship but things settle when Martin is offered a baseball scholarship from powerhouse LSU He sees the opportunity as the first step toward a professional baseball career Ike tells his dad that he has earned an academic scholarship to Northwestern University where he can study to become a writer His dad understands the importance of writing to Ike and gives his blessing Martin arrives at LSU and in storm trooper fashion takes on life in college On the field Martin excels and his reputation grows Ike arrives at NU and meets Barbara Watkins the editor of the college paper and after submitting a sample of his writing he lands a weekly column about the new experiences in a freshman's life Now a junior Martin leaves school and waits for the professional draft He is drafted by the Chicago Cubs and assigned to the minor league affiliate in Sevierville TN half way across the state from his home in Bellevue Martin meets Susie Sexton after his car runs into hers He falls for her immediately and the two begin dating Their relationship blossoms and when Martin is called up to the big leagues he proposes to Susie Ike graduates and accepts an offer to work for the Chicago Sun Times He is given another assignment writing a column on activities in the Chicago area An unwelcomed part of his job is covering the Cubs for the paper Both men marry and life settles The wives become close friends and Martin and Ike develop a friendship with new boundaries Martin is a successful major league ball player and crowd favorite In his twelfth year of playing he breaks his leg and ensuing difficulties and infections lead to amputation Ike becomes a favorite of readers in the Chicago area He also sells short stories and then writes a best selling novel Martin travels to spring training with the Cubs and is stricken with severe headaches dizziness and temporary paralysis His doctor tells him that he suffers from a brain tumor and has little time left He asks Ike to speak at his funeral and to tell the truth about him After Martin's death Ike

does speak His next visits Wrigley field at night where he pours Martin s ashes at the base of the ivy covered walls Ike knows that his last act for his friend will be writing a book about his life

*The Futures of School Reform* Jal Mehta,Robert B. Schwartz,Frederick M. Hess,2012 *The Futures of School Reform* represents the culminating work of a three year discussion among national education leaders convened by the Harvard Graduate School of Education Based on the recognition that current education reform efforts have reached their limits the volume maps out a variety of bold visions that push the boundaries of our current thinking Taken together these visions identify the leverage points for generating dramatic change and highlight critical trade offs among different courses of action The goal of this book is not to present a menu of options Rather it is to surface contrasting assumptions tensions constraints and opportunities so that together we can better understand and act on the choices that lie before us Our country is faced with an absolutely frightening crisis and challenge we must radically improve our education system or our children will simply be unable to compete in the global economy The diverse voices in this book demonstrate that there is no single solution but the writers are united in their urgency This eye opening book should be required reading for educators and policy makers across America Geoffrey Canada president and CEO Harlem Children s Zone Essays in this volume do more than add another layer to the contemporary school reform debate The book s unique contribution is the mixture of alternatives that it offers for the future of American school reform Pasi Sahlberg director general of CIMO in Finland and author of *Finnish Lessons* American education is at a crossroads In *The Futures of School Reform* Mehta Schwartz and Hess present six essays on education reform strategies that will spark a provocative discussion on how to transform our education system Jeb Bush governor of Florida from 1999 2007 and chairman of the Foundation for Excellence in Education Most literature on education reform is like a lighthouse shining a beacon from a distant perhaps unreachable place This book offers readers a compass to point the way forward It sets the true north for improvement in this most important American institution John Deasy superintendent Los Angeles Unified School District Jal Mehta is an assistant professor at the Harvard Graduate School of Education Robert B Schwartz is the Francis Keppel Professor of Practice of Educational Policy and Administration at the Harvard Graduate School of Education Frederick M Hess is a resident scholar and director of education policy studies at the American Enterprise Institute

**Bergsonism** Gilles Deleuze, 1988-03 In this analysis of one major philosopher by another Gilles Deleuze identifies three pivotal concepts duration memory and *lan vital* that are found throughout Bergson's writings and shows the relevance of Bergson's work to contemporary philosophical debates He interprets and integrates these themes into a single philosophical program arguing that Bergson's philosophical intentions are methodological They are more than a polemic against the limitations of science and common sense particularly in Bergson's elaboration of the explanatory powers of the notion of duration thinking in terms of time rather than space
