Women and Desire Jul 07 2024 Polly Young-Eisendrath's *Women and Desire: Beyond Wanting to Be Wanted* was first published by Harmony Books in 1999. Since then, it has become a classic read for those readers— to use a cinematographic expression – who want to use analytical psychology to shed light on what women want. This book, when first published, was described (and still is) as “provocative and vital.” More than 20 years after its publication, this book still shows effectively “how to break out of this double bind so that” women “can encounter the challenges of choice and responsibility for our own desires.” The author “wisely uses mythological and personal stories to help us take control of our sexual, relational, material, and spiritual lives.” Therefore, “If you feel confused, resentful, or trapped in a life that does not seem to be fully yours, then you can find a clear path to your true self, once and for all, with the help of *Women and Desire*.” This book is the second of the series titled *Jungianum: Re-Covered Classics in Analytical Psychology* curated by Stefano Carpani.

What Women Want--What Men Want Jul 15 2022 Following the work of E. O. Wilson, Desmond Morris, and David Buss, *What Women Want--What Men Want* offers compelling new evidence about the real reasons behind men's and women's differing sexual psychologies and sheds new light on what men and women look for in a mate, the predicament of marriage in the modern world, the relation between sex and emotion, and many other hotly debated questions. Drawing upon 2000 questionnaires and 200 intimate interviews that show how our sexual psychologies affect everyday decisions, John Townsend argues against the prevailing ideologically correct belief that differences in sexual behavior are "culturally constructed." Townsend shows there are deep-seated desires inherited from our evolutionary past that guide our actions. In a fascinating series of experiments, men and women were asked to indicate preferences for potential mates based on their attractiveness and apparent economic status. Women overwhelmingly preferred expensively dressed men to more attractive but apparently less successful men, and men were clearly inclined to choose more attractive women regardless of their professional status. Townsend's studies also indicate that men are predisposed to value casual sex, whereas women cannot easily separate sexual relations from the need for emotional attachment and economic security. Indeed, wherever men possess sexual alternatives to marriage, and women possess economic alternatives, divorce rates will be high. In the concluding chapter, Townsend draws upon the advice of couples who have maintained their marriages over the years to suggest ways to survive our evolutionary predicament. Lucidly and accessibly written, *What Women Want--What Men Want* shows us why we are the way we are and brings new clarity to one of the most intractable debates of our time.

What Women Want Next Nov 30 2023 With all the choices available to today's women, why don't they more feel fulfilled? *What Women Want Next* is Susan Maushart's meditation-by turns profound and laugh-out-loud funny-on that central dilemma of postfeminist life. At one point she had it all, so why wasn't she happy? With *What Women Want Next*, Maushart combines research with personal history in a dynamic attempt to answer this question. Feminism may have led women to life's banquet table, but the meal they make of it is up to them. How to balance life and work, sex and sleep, child care and self-care? And why has women's guilt-that glass ceiling of the soul-become the biggest barrier they face? *What Women Want Next* is the first book to look at the spectrum of a woman's life and attempt to demonstrate how she can shape her own destiny throughout all its stages.

The Manual Mar 23 2023 Describes what women seek in a man and the steps a man needs to take to win women over.

God of the Rodeo Jun 13 2022 Never before had Daniel Bergner seen a spectacle as bizarre as the one he had come to watch that Sunday in October. Murderers, rapists, and armed robbers were competing in the annual rodeo at Angola, the grim maximum-security penitentiary in Louisiana. The convicts, sentenced to life without parole, were thrown, trampled, and gored by bucking bulls and broncos before thousands of cheering spectators. But amid the brutality of this gladiatorial spectacle Bergner caught surprising glimpses of exaltation, hints of triumphant skill. The incongruity of seeing hope where one would expect only hopelessness, self-control in men who were there because they'd had none, sparked an urgent quest in him. Having gained unlimited and unmonitored access, Bergner spent an unflinching year inside the harsh world of Angola. He forged relationships with seven prisoners who left an indelible impression on him. There's Johnny Brooks, seemingly a latter-day Stepin Fetchit, who, while washing the warden's car, longs to be a cowboy and to marry a woman he meets on the rodeo grounds. Then there's Danny Fabre, locked up for viciously beating a woman to death, now struggling to bring his reading skills up to a sixth-grade level. And Terry Hawkins, haunted nightly by the ghost of his victim, a ghost he tries in vain to exorcise in a prison church that echoes with the cries of convicts talking in tongues. Looming front and center is Warden Burl Cain, the larger-than-life ruler of Angola who quotes both Jesus and Attila the Hun, declares himself a prophet, and declaims that redemption is possible for even the most depraved criminal. Cain welcomes Bergner in, and so begins a journey that takes the author deep into a forgotten world and forces him to question his most closely held beliefs. The climax of his story is as unexpected as it is wrenching. Rendered in luminous prose, *God of the Rodeo* is an exploration of the human spirit, yielding in the process a searing portrait of a place that will be impossible to forget and a group of men, guilty of unimaginable crimes, desperately seeking a moment of grace.

What Women Want Oct 18 2022 American women fare worse than men on virtually every major dimension of social status, financial well-being, and physical safety. Sexual violence remains common, and reproductive rights are by no means secure. Women assume disproportionate burdens in the home and pay a heavy price in the workplace. Yet these issues are not political priorities. Nor is there a consensus that there still is a serious problem. In *What Women Want*, Deborah L. Rhode, one of the nation's leading scholars on women and law, brings to the discussion a broad array of interdisciplinary research as well as interviews with heads of leading women's organizations. Is the women's movement stalled? What are the major obstacles it confronts? What are its key priorities and what strategies might advance them? In addressing those questions, the book explores virtually all of the major policy issues confronting women. Topics include employment and appearance discrimination, the gender gap in pay and leadership opportunities, work/family policies, childcare, divorce, same-sex marriage, sexual harassment, domestic violence, rape, trafficking, abortion, poverty, and political representation, all with a particular focus on the capacities and limits of law as a strategy for social change. Why, despite four decades of equal employment legislation, is women's workplace status so far from equal? Why, despite a quarter century's effort at reforming rape law, is America's rate of reported rape the second highest in the developed world? Part of the problem lies in the absence of political mobilization around such issues and the underrepresentation of women in public office. In an age where many women are reluctant to identify as feminists, a broad-ranging, expert look at where American women are today is more necessary than ever. This path-breaking book explores how women can and should act on what they want.

What Women Really Want Dec 20 2022 An invigorating and inspiring take on the new ways American women are changing and improving our culture and the way we live from Kellyanne Conway, counselor to president Donald Trump, and Celinda Lake, a leading political strategist for the Democratic party. Women are the most powerful force reshaping the future of America. There is a newly defined unified power base among women that crosses all the usual lines of division—politics, race, religion, age, and class—heralding the most significant change in American culture in the past century. Kellyanne Conway, counselor to president Donald Trump and president and CEO of The Polling Company, Inc. and Celinda Lake, a leading political strategist for the Democratic party—two of the most prominent trend-spotters and analysts in America—demonstrate how women are rejecting outdated traditions in order to get what they want and need. They are breaking the old rules about when and whether to marry and have children, living fully and equally as singles, and creating flexible, inclusive workplaces that don't sacrifice family or sanity. They are controlling \$5 trillion annually as the primary purchasers of homes, cars, appliances, and electronics. They are making their mark at ages twenty, forty, sixty, and beyond, drawing strength, inspiration, and intellectual stimulation from other women. Using the eye-opening results of interviews, focus groups, and polls (three of which were created especially for this book), Conway and Lake—who often fall on opposite sides of the country's most polarizing debates—come together to seek out what women buy, what they believe, how they work, how they live, what they care about, what they fear, and what they really want. By delving beneath the hot-button issues, Lake and Conway discovered common causes with which women are inventing a new age of opportunity—doing it their way and, in the process, improving life for all Americans.

What Women Want Apr 04 2024 The author of *Why We Buy* reports on the growing importance of women in everybody's marketplace--what makes a package, product, space, or service "female friendly." He offers a tour of the world's marketplace--with shrewd observations and practical applications to help everybody adapt to the new realities. Underhill examines how a woman's role as homemaker has evolved into homeowner; how the home gym and home office are linked to the women's health movement and home-based businesses; why the refrigerator has trumped the stove as the crucial appliance; why some malls are succeeding while others fail. "The point is," writes Underhill, "while men were busy doing other things, women were becoming a major social, cultural, and economic force." And, as he warns, no business can afford to ignore their power and presence--From publisher description.

Appetites Mar 11 2022 What looks like a consciously altruistic effort to encapsulate one woman's entire life into lessons for the benefit of womankind may be just that: after divulging every gruesome detail of her spiral into anorexia and subsequent self-discoveries in this memoir, Knapp died of lung cancer last June at age 42. Similar in tone to her previous *Drinking: A Love Story*, this work is candid and persuasive enough to reach many women with analogous problems. But it's more than one woman's tragic story; multitudinous interviews with women with eating disorders, excerpts from classic feminist texts and sociological statistics lend credence and categorize the book under cultural studies as much as self-help. Knapp hypothesizes that the feminists who came after the revolutionary 1960s, herself included, were stifled rather than empowered by the overwhelming choices before them. They gained "the freedom to hunger and to satisfy hunger in all its varied forms." Unfortunately, writes Knapp, size-obsessed fashion magazines and other social messages contradict a woman's right to

desire, contributing to the rise in eating disorders and other illnesses. Knapp observes an aspect of the backlash against the feminist movement: when "women were demanding the right to take up more space in the world," they were being told by a still patriarchal society "to grow physically smaller." Though Knapp admits it's "easier to worry about the body than the soul," she hopes creating a dialogue about anorexia will enable all women to nourish both.

Told from her perspective many years later, the story coolly describes a series of shattering events and a school that failed to protect her. "Before things turn treacherous, there's a moment when predation can feel dangerously like kindness...Walbert understands this...His Favorites begs to be read" (Time).

What Women Want When They Test Men Sep 16 2022 Discover What Women Want in a Man and How They Secretly Test You For it If you pay close enough attention to what really attracts women, you'll find that what women want is a man with a backbone. Women want to be with a man who knows how to take the lead and make decisions; one who has strong personal boundaries and knows how to love her like...a man. Unfortunately, a lot of men have difficulty accepting the truth that many women prefer to be with a man who isn't afraid to stand up to them, who challenges them, and who refuses to be pushed around by women (or anything else for that matter). This is especially true of women who seek a more traditional male-female gender role dynamic in their romantic relationships. Even if a man knows how to attract women, cultivating a mind-blowing relationship with one requires a different set of skills entirely. Women want men who can make them feel secure - men with strong boundaries and unwavering commitment. Sadly, most dating and relationship books rarely show men how to keep a woman happy without them having to sacrifice their manhood in the process. *How to Understand Women and Pass Their Tests With Unshakeable Confidence* Men around the world have no idea that the women they know and love are testing them. How to be confident with difficult women. What women want in a man and how to give it to them. How to make a woman happy without becoming a complete doormat of a man. How to seduce your wife and get her in the mood by responding like a MAN whenever she "pokes the bear." How to be firm and say "No" to the woman you love without destroying intimacy. How to keep a woman interested in you by doing the ONE thing MOST men are deathly afraid of doing. How to avoid unnecessary arguments, fights, and drama with a woman by using a simple communication technique. What Women Want May 25 2023 The women's movement is perhaps the most baffling of the recent social reforms to sweep the United States. It is composed of numerous distinct groups, each with specific interests and goals, each with individual leaders and literature. What are the philosophies behind these groups? Who are their leaders and how have their ideas evolved? Do they have a vital connection with the women's movement of the past? And where are feminist groups headed? In this study that brilliantly illuminates the literature and purposes of feminists, *What Women Want: The Ideas of the Movement*, Gayle Graham Yates has produced the first comprehensive history of feminist women's groups. Concentrating chiefly on the movement from 1959 to 1973, when it erupted in such activist groups as the National Organization for Women (NOW), the Women's Equity Action League (WEAL), and the National Women's Political Caucus

(NWPC), the author analyzes in detail their literature, factions, and issues. Her survey encompasses virtually every major expression of the movement's multiple facets, from *The Feminine Mystique*, *Born Female*, and *Sexual Politics*, to *Sex and the Single Girl* and *Memoirs of an Ex-Prom Queen*. In a significant breakthrough, the author discerns the pattern underlying this diversity, which should contribute to a fuller understanding of future developments in the women's struggle. She accomplishes this by identifying three key attitudes informing the movement: the feminist, the women's liberationist, and the androgynous or cooperative male-female relationship. The author provides a sensitive, yet critical analysis of the chief spokeswomen in contemporary America, activists like Gloria Steinem, Shulamith Firestone, and Ti-Grace Atkinson. She treats each of the feminist ideologies with balance and respect, yet is refreshingly unafraid to criticize new developments. She bolsters her own conclusions in support of an androgynous or "equal sexual society" with a judicious spirit. Scholars and the general public alike will find Yates's book not only an indispensable contribution to women's studies, but also a strong and timely addition to contemporary American life and thought.

Women Talking May 05 2024 The basis of the Oscar-winning film from writer/director Sarah Polley, starring Rooney Mara, Claire Foy, Jessie Buckley, with Ben Whishaw and Frances McDormand. INTERNATIONAL BESTSELLER "This amazing, sad, shocking, but touching novel, based on a real-life event, could be right out of *The Handmaid's Tale*." - Margaret Atwood, on Twitter "Scorching . . . a wry, freewheeling novel of ideas that touches on the nature of evil, questions of free will, collective responsibility, cultural determinism, and, above all, forgiveness." -New York Times Book Review, Editors' Choice One evening, eight Mennonite women climb into a hay loft to conduct a secret meeting. For the past two years, each of these women, and more than a hundred other girls in their colony, has been repeatedly violated in the night by demons coming to punish them for their sins. Now that the women have learned they were in fact drugged and attacked by a group of men from their own community, they are determined to protect themselves and their daughters from future harm. While the men of the colony are off in the city, attempting to raise enough money to bail out the rapists and bring them home, these women—all illiterate, without any knowledge of the world outside their community and unable even to speak the language of the country they live in—have very little time to make a choice: Should they stay in the only world they've ever known or should they dare to escape? Based on real events and told through the "minutes" of the women's all-female symposium, Toews's masterful novel uses wry, politically engaged humor to relate this tale of women claiming their own power to decide.

Future Sex Feb 27 2021 Emily Witt is single and in her thirties. She has slept with most of her male friends. Most of her male friends have slept with most of her female friends. Sexual promiscuity is the norm. But up until a few years ago, she still envisioned her sexual experience achieving a sense of finality, 'like a monorail gliding to a stop at Epcot Center'. Like many people, she imagined herself disembarking, finding herself face-to-face with another human being, 'and there we would remain in our permanent station in life: the future'. But, as we all know, things are more complicated than that. Love is rare and frequently unreciprocated. Sexual acquisitiveness is risky and can be hurtful. And generalizing about what women want or don't want or should want or should do seems to lead nowhere. Don't our temperaments, our hang-ups, and our histories define our lives as much as our gender? In *Future Sex*, Witt captures the experiences of going to bars alone, online dating, and hooking up with strangers. After moving to San Francisco, she decides to say yes to everything and to find her own path. From public health clinics to cafe conversations about 'coregasms', she observes the subcultures she encounters with awry sense of humour, capturing them in all their strangeness, ridiculousness, and beauty. The result is an open-minded, honest account of the contemporary pursuit of connection and pleasure, and an inspiring new model of female sexuality - open, forgiving, and unafraid.

What Do Women Want? Jun 06 2024 In this headline-making book, Daniel Bergner turns everything we thought we knew about women's desire on its head. Drawing on extensive research and interviews with renowned behavioural scientists, sexologists, psychologists and everyday women, Daniel Bergner asks: - Do women really crave intimacy and emotional connection? - Are women more disposed to sex with strangers or multiple partners than either science or society have ever let on? - And is 'the fairer sex' actually more sexually aggressive and anarchic than men?

Those Who Knew Mar 30 2021 Named a BEST BOOK OF THE YEAR by * NPR * Esquire * O, The Oprah Magazine * Real Simple * BBC * PopSugar * Bustle * Kirkus Reviews * Lit Hub "A gripping, astute, and deeply humane political thriller." —The Boston Globe "Mesmerizing [and] uncannily prescient."—Los Angeles Times A taut, timely novel about what a powerful politician thinks he can get away with and the group of misfits who finally bring him down, from the award-winning author of *Ways to Disappear*. On an unnamed island country ten years after the collapse of a U.S.-supported regime, Lena suspects the powerful senator she was involved with back in her student activist days is taking advantage of a young woman who's been introducing him at rallies. When the young woman ends up dead, Lena revisits her own fraught history with the senator and the violent incident that ended their relationship. Why didn't Lena speak up then, and will her family's support of the former regime still impact her credibility? What if her hunch about this young woman's death is wrong? What follows is a riveting exploration of the cost of staying silent and the mixed rewards of speaking up in a profoundly divided

country. Those Who Knew confirms Novey's place as an essential new voice in American fiction.
