Take Excel to the next level in accounting and financial modeling In this new Second Edition of Next Generation Excel, Isaac Gottlieb shows financial analysts how to harness the full power of Excel to move forward into the new world of accounting and finance. Companies of all sizes use financial models to analyze their finances and plan business operations, as well as to create financial accounting reports like balance sheets, income statements, and statements of cash flows. While many businesspeople are quite familiar with the reports created with financial models, most are not as familiar with the creation of the models themselves. This book shows them how to build an accurate and effective financial model using the solid functionality and easy usability of Excel. Fully updated and revised to include support for Apple users Written by a professor of management and statistics who has taught the discipline for fifteen years Appropriate for professional financial analysts, as well as MBA students For professionals and students whose responsibilities or studies include a full understanding of financial modeling, Next Generation Excel, Second Edition offers comprehensive training. The author is well-renowned and highly successful. \* Figures and examples are revised and spreadsheet readytemplates are provided. \* Offers quick tips and cutting-edge ideas. \* Totally revised new edition of a highly successful book. This book describes the essentials of the core topics covered in a top-tier MBA program. The intent is to give the user a broad understanding of the key concepts needed to run a business - in one comprehensive volume. Topics covered include sales and marketing, operations management, product development, risk management, business valuation, capital structure analysis, and the interpretation of financial statements. Steven Silbiger has distilled the material of the ten most popular business schools in order to teach readers the language of business. At the rate of one easy-to-understand chapter a day, this book will enable readers to absorb the material, speak the language, and, most importantly, acquire the confidence and expertise needed to get ahead in the competitive business world. Publisher's description: What the Best MBAs Know provides professionals who don't have the coveted M.B.A. designation with the skills and knowledge taught in today's finest programs. The same critical information top business schools teach Based on Professor Stralser's popular seminar series, MBA in a Day? is specifically designed for the busy professional (physician, attorney, architect, nonprofit executive, etc.) or entrepreneur/small business owner, who needs to know about the "business-side" of their practice, organization or business. With comprehensive coverage of vital business topics, important concepts and proven strategies taught at

top graduate schools, this handy book offers a complete business education without the hassle of enrolling in an MBA program. Divided into four sections covering management and policy; economics, finance, and accounting; marketing; and systems and processes; this straightforward guide is easy to navigate and simple to use. Packed with illustrative examples, helpful anecdotes, and real-world case studies, this commonsense guide covers everything busy professionals would learn at the very best business schools—if they only had the time. Steven Stralser, PhD (Phoenix, AZ), is Clinical Professor and Managing Director, The Global Entrepreneurship Center at Thunderbird: The American Graduate School of International Management and founder and CEO of The Center for Professional Development, Inc., an organization dedicated to post-graduate training and education of today's professionals. This book provides a firm grounding in management and financial accounting for MBA students and practising managers. It focuses on the 'why' as well as the 'how to', equipping managers with the tools and knowledge necessary for generating and interpreting accounts. This bestselling soup-to-nuts book teaches the techniques and methods used in the country's finest MBA programs. And now it's fully revised with the latest information for today's busy businesspeople. Presented in an accessible question-and-answer format, The Vest-Pocket MBA helps readers quickly pinpoint all the formulas, ratios, and rules of thumb they need to analyze and evaluate nearly any problem. Among the many topics it covers: accounting, finance, break-even analysis, investment evaluation, capital budgeting, business law, risk minimization, marketing, and international trade. The Vest-Pocket MBA offers a wealth of guidelines, illustrations, and how-to's for the modern decision-maker, from the B-school student to the senior executive. A totally revised new edition of the bestselling guide to business school basics The bestselling book that invented the "MBA in a book" category, The Portable MBA Fifth Edition is a reliable and information-packed guide to the business school curriculum and experience. For years, professionals who need MBA-level information and insight—but don't need the hassle of business school—have turned to the Portable MBA series for the very best, most up-to-date coverage of the business basics. This new revised and expanded edition continues that long tradition with practical, real-world business insight from faculty members from the prestigious Darden School at the University of Virginia. With 50 percent new material, including new chapters on such topics as emerging economies, enterprise risk management, consumer behavior, managing teams, and up-to-date career advice, this is the best Portable MBA ever. Covers all the core topics you'd learn in business school, including finance, accounting, marketing, economics, ethics, operations management, management and leadership, and strategy. Every chapter is totally updated and seven new chapters have been added on vital business topics Includes case studies and interactive web-based examples Whether you own your own small business or work in a major corporate office, The Portable MBA gives you the comprehensive information and rich understanding of the business world that you need. If you want to accelerate your career development and transform your skillset, but without the price tag and two-year commitment of the MBA, this is the book for you. The 30 Day MBA covers the 12 core disciplines of business: accounting, finance, marketing, organizational behaviour, business history, business law, economics, entrepreneurship, ethics and social responsibility, operations management, research and analysis and strategy. It provides the tools and techniques you need to seize business opportunities and implement strategies successfully. Complex concepts are explained in simple and practical terms, helping you to apply high level concepts to the real-life world of business. The 30 Day MBA also contains insightful case studies from leading organizations including IKEA, Cisco, Cobra Beer, Heinz, Shell, Hotel Chocolat and Chilango, to help keep you right up-to-the-minute with current trends and inspire you to explore new concepts. This book equips you with essential hard knowledge, but also helps you understand how business and current thinking is shifting in today's turbulent global markets, and broadens your mind with the knowledge and confidence to excel in a competitive career. The most comprehensive and authoritative review of B-School fundamentals—from top accounting and finance professors For years, the Portable MBA series has tracked the core curricula of leading business schools to teach you the fundamentals you need to know about business—without the extreme costs of earning an MBA degree. The Portable MBA in Finance and Accounting covers all the core methods and techniques you would learn in business school, using real-life examples to deliver clear, practical guidance on finance and accounting. The new edition also includes free downloadable spreadsheets and web resources. If you're in charge of making decisions at your own or someone else's business, you need the best information and insight on modern finance and accounting practice. This reliable, information-packed resource shows you how to understand the numbers, plan and forecast for the future, and make key strategic decisions. Plus, this new edition covers the effects of Sarbanes-Oxley, applying ethical accounting standards, and offers career advice. • Completely updated with new examples, new topics, and full coverage of topical issues in finance and accounting—fifty percent new material • The most comprehensive and authoritative book in its category • Teaches you virtually everything you'd learn about finance and accounting in today's best business schools Whether you're thinking of starting your own business or you already have and just need to brush up on finance and accounting basics, this is the only guide you need. This book focuses on the relevant subjects in the curriculum of an MBA program. Covering many different fields within business, this book is ideal for readers who want to prepare for a Master of Business Administration degree. It provides discussions and exchanges of information on principles, strategies, models, techniques, methodologies and applications in the business area. From the ads that track us to the maps that guide us, the twenty-first century runs on code. The business world is no different. Programming has become one of the fastest-growing topics at business schools around the world. An increasing number of MBAs are choosing to pursue careers in tech. For them and other professionals, having some basic coding knowledge is a must. This book is an introduction to programming with Python for MBA students and others in business positions who need a crash course. One of the most popular programming languages, Python is used for tasks such as building and running websites, data analysis, machine learning, and natural-language processing. Drawing on years of experience providing instruction in this material at Columbia Business School as well as extensive backgrounds in technology, entrepreneurship, and consulting, Mattan Griffel and Daniel Guetta teach the basics of programming from scratch. Beginning with fundamentals such as variables, strings, lists, and functions, they build up to data analytics and practical ways to derive value from large and complex datasets. They focus on business use cases throughout, using the real-world example of a major restaurant chain to offer a concrete look at what Python can do. Written for business students with no previous coding experience and those in business roles that include coding or working with coding teams, Python for MBAs is an indispensable introduction to a versatile and powerful programming language. The authors give the most comprehensive, authoritative and compelling account yet of the troubled state of business education today and go well beyond this to provide a blueprint for the future. Master the fundamentals, hone your business instincts, and save a fortune in tuition. The consensus is clear: MBA programs are a waste of time and money. Even the elite schools offer outdated assembly-line educations about profit-and-loss statements and PowerPoint presentations. After two years poring over sanitized case studies, students are shuffled off into middle management to find out how business really works. Josh Kaufman has made a business out of distilling the core principles of business and delivering them quickly and concisely to people at all stages of their careers. His blog has introduced hundreds of thousands of readers to the best business books and most powerful business concepts of all time. In The Personal MBA, he shares the essentials of sales, marketing, negotiation, strategy, and much more. True leaders aren't made by business schools—they make themselves, seeking out the knowledge, skills, and experiences they need to succeed. Read this book and in one week you will learn the principles it takes most people a lifetime to master.
