Readers are given permission to take nature's healthiest foods and make them into quirky animals and people, unlocking their imaginations to see the world in a whole new light. Full color. This indispensable astrological text addresses the question we all ask at some point during the course of our lives: "What is the purpose of my life?" It identifies, based on birthdate, what, on a soul level, someone came into this lifetime to achieve, in other words, their karmic signature. Gary Goldschneider and Joost Elffers take the reader on a spiritual quest around the astrological galaxy that culminates in a sense of purpose and truth. In addition to the great inter-personal benefits, this book also contains thousands of tidbits

of information regarding the astrological signs of actors, musicians, and world leaders. Through "personology" (a combination of characteristics influenced by sun sign, season, and day of the year) and an analysis of several thousand character profiles, the authors have pinned down the traits most common to people born on the same day. Four out of 10 North Americans read their horoscope daily, 10 out of 10 have a birthday, and almost all of them see the world in living colour. Colorstrology, already with a highly successful website at colorstrology.com, infuses elements of astrology and numerology with the spirituality of colour to create a colour profile for every day of the year. Cleverly packaged with 32 pages of perforated colour chips, this new genre of metaphysical fun will bridge the consumer gap between the house-proud urbanite and the barefoot spiritualist. Colorstrology, the company, is rolling out an entire line of branded products, from cosmetics and jewellery to cards and flowers, but this is the only comprehensive book available by the author who New York magazine calls a "must-see phenomenon." Let Scholastic Bookshelf be your guide through the whole range of your child's experiences-laugh with them, learn with them, read with them! Eight classic, best-selling titles are available now! Category: Feelings "Amused? Confused? Frustrated? Surprised? Try these feelings on for size." "This is a book that asks all the right questions. And leaves you feeling great no matter what the answers are!" "Who'd have dreamed that produce could be so expressive, so charming, so lively and so funny?...Freymann and...Elffers have created sweet and feisty little beings with feelings, passions, fears and an emotional range that is, well, organic." -The New York Times Book Review A Tiny Universe's Companion accompanies A Tiny Universe, a

textbook on astrology which is based on one version of the Birth-Chart of the Universe known as Thema Mundi. Companion expands on the first book by exploring a number of techniques which were refined by astrologers several centuries ago, but have since lost their significance in modern times. Practices such as the division between day and night which creates the accidental dignity of Planetary Sect, and the forgotten rule of Contention (munakara) which warns of the danger of crossing boundaries, are both reminders of the impact of Sect on the seven original planets. A first century predictive system originating in Persia called Firdaria has been re-introduced in the past few years and is once more gaining in popularity. Firdaria relies heavily on the principles of Sect to direct the individual's lifespan via different planetary periods along with the sequencing of planets according to the Chaldean Order. This method is examined in detail in the final chapters of Companion using modernized interpretations of text from 1st Century astrologer Vettius Valens, and Johannes Schoener from the 16th Century C.E. Planets' rulership over the twelve houses is a cornerstone of traditional astrology's chart interpretation and a ruling planet's condition determines its success or failure in managing the affairs of its house. Issues such as mediocre quality, troublesome relationships, poor placement, or lack of sight (aversion) suggest stress for the planet and indicate difficult repercussions in the areas of life for which the ruling planet is responsible. Patterns which normally lie unseen or dormant within the chart become animated through rulership, and with the reintroduction of lost models, the chart, and life on Earth once more become reflections of the larger Universe. This indispensable astrological text addresses the question we all ask at some point during the course of our lives: "What is the purpose of my life?" It identifies, based on birthdate, what, on a soul level, someone came into this lifetime to achieve, in other words, their karmic signature. In addition to the great inter-personal benefits, this book also contains thousands of tidbits of information regarding the astrological signs of actors, musicians, and

world leaders. This book helps readers keep track of all their loved ones' birthdays and their personality traits, strengths, and weaknesses in an attractive, spiral-bound keepsake. Line art. In *The Signs*, astrologer and life coach Carolyne Faulkner reveals how the ancient wisdom of the stars can empower you to get the

A Tiny Universe is a textbook which is based on Thema Mundi, a symbolic chart of the planets positions at the beginning of humankind's existence. Thema Mundi has existed as the teaching tool for astrological techniques since Hellenistic times and traditional sources from Greek, Persian, Arabic and Hebrew origins used the mythical representation of the Birth-chart of the Universe as a model for their evolving theories on astrology over the centuries. A Tiny Universe explores the seven original planets and their meanings and discusses the planets role, both in general through the time periods of life, and specifically through the astrology chart. The judgement of a planets condition under the terms of the Essential and Accidental Dignities is featured and the Friendships and Enmities which exist between various planets is discussed in the book. Thema Mundi embraces the process of life which begins with the four qualities, leads to the roots which we call the elements, and completes its journey at the twelve zodiac signs. The final chapters highlight the importance of the twelve houses which set the planets into specific areas of an individual's life through the astrology chart. A Tiny Universe takes a modern look at a very old chart as Thema Mundi introduces the planets, the qualities, the signs, and the houses, to the reader who is interested in astrology from the novice astrologer, to the practitioner, who wishes to gain a deeper understanding of the origins of their craft. Offers astrological

insights into birthday profiles, sharing quizzes and personality descriptions that reveal such qualities as a reader's most compatible pets, dates, and shopping styles.
