home and family in histories of gender family life domestic spaces and class cultures more generally few have specifically examined fathers as crucial family members as historical actors and as emotional individuals The history of fatherhood is extremely significant to contemporary debate assumptions about fatherhood in the past are constantly used to support arguments about the state of fatherhood today and the need for change or otherwise in the future Laura King charts men's changing experiences of fatherhood suggesting that although the roles and responsibilities fulfilled by men did not shift rapidly their relationships position in the family and identities underwent significant change between the start of the First World War and the 1960s
