Command Of The Air General Giulio Douhet,2014-08-15 In the pantheon of air power spokesmen Giulio Douhet holds center stage His writings more often cited than perhaps actually read appear as excerpts and aphorisms in the writings of numerous other air power spokesmen advocates and critics Though a highly controversial figure the very controversy that surrounds him offers to us a testimonial of the value and depth of his work and the need for airmen today to become familiar with his thought The progressive development of air power to the point where today it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest In fact in many ways the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision Douhet together with Hugh Boom Trenchard of Great Britain and William Billy Mitchell of the United States is justly recognized as one of the three great spokesmen of the early air power era This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book published in 1921 Readers may well find much that they disagree with in this book but also much that is of enduring value The vital necessity of Douhet s central vision that command of the air is all important in modern warfare has been proven throughout the history of wars in this century from the fighting over the Somme to the air war over Kuwait and Iraq

Spinoza and the Politics of Renaturalization Hasana Sharp,2021-02 There have been many Spinozas over the centuries atheist romantic pantheist great thinker of the multitude advocate of the liberated individual and rigorous rationalist The common thread connecting all of these clashing perspectives is Spinoza s naturalism the idea that humanity is part of nature not above it In this sophisticated new interpretation of Spinoza s iconoclastic philosophy Hasana Sharp draws on his uncompromising naturalism to rethink human agency ethics and political practice Sharp uses Spinoza to outline a practical wisdom of renaturalization showing how ideas actions and institutions are never merely products of human intention or design but outcomes of the complex relationships among natural forces beyond our control This lack of a metaphysical or moral division between humanity and the rest of nature Sharp contends can provide the basis for an ethical and political practice free from the tendency to view ourselves as either gods or beasts Sharp s groundbreaking argument critically engages with important contemporary thinkers including deep ecologists feminists and race and critical theorists making Spinoza and the Politics of Renaturalization vital for a wide range of scholars
