Talk to creative problem-solvers and they will often tell you, the key to their success is asking a different question. Take Debbie Sterling, the social entrepreneur who created GoldieBlox. The idea came when a friend

complained about too few women in engineering and Sterling wondered aloud: "why are all the great building toys made for boys?" Or consider Nobel laureate Richard Thaler, who asked: "would it change economic theory if we stopped pretending people were rational?" Or listen to Jeff Bezos whose relentless approach to problem solving has fueled Amazon's exponential growth: "Getting the right question is key to getting the right answer." Great questions like these have a catalytic quality—that is, they dissolve barriers to creative thinking and channel the pursuit of solutions into new, accelerated pathways. Often, the moment they are voiced, they have the paradoxical effect of being utterly surprising yet instantly obvious. For innovation and leadership guru Hal Gregersen, the power of questions has always been clear—but it took some years for the follow-on question to hit him: If so much depends on fresh questions, shouldn't we know more about how to arrive at them? That sent him on a research quest ultimately including over two hundred interviews with creative thinkers. Questions Are the Answer delivers the insights Gregersen gained about the conditions that give rise to catalytic questions—and breakthrough insights—and how anyone can create them. Discovering a magical pencil that imparts answers to her questions, Ava and her best friend, Sophie, learn the pencil's rules and become increasingly reliant on its replies until it reveals a scary truth about Ava's family. The New York Public Library staff answers questions remarkable and preposterous, with illustrations by Barry Blitt. Have you ever wondered if you can keep an octopus in a private home? Do you spend your time thinking about how much Napoleon's brain weighed? If so, Peculiar Questions and Practical Answers is the book for you. The New York Public Library has been fielding questions like these ever since it was founded in 1895. Of course, some of the questions have left the librarians scratching their heads... "In what occupations may one be barefooted?" "What time does a bluebird sing?" "What does it mean when you're being chased by an elephant?" "What kind of apple did Eve eat?" "How many neurotic people are there in the U.S.?" In Peculiar Questions and Practical Answers, the staff of the NYPL has dug through the archives to find thoughtful and often witty answers to over one hundred of the oddest, funniest, and most whimsical questions the library has received since it began record-keeping over seventy-five years ago. One of The New Yorker's best-known and beloved illustrators, Barry Blitt, has created watercolors that bring many of the questions hilariously to life in a book that answers, among others, the question "Does anyone have a copyright on the Bible?" Business Vocabulary in Use includes 66 easy-to-use units, with vocabulary items presented and explained on the left-hand pages and a range of practice exercises on the right-hand pages. It also includes a comprehensive answer key. The book covers a huge range of business topics including jobs; people and organisations; production; marketing; finance and the economy, and business culture. Learners will develop essential business communication skills, focusing on the language used for meetings, negotiations and presentations. That his father is slipping into dementia—seems to embrace it, really—means that the past he would never talk about might be erased forever. Joel Kupperman became one of the most famous children in America during World War II as one of the young geniuses on the series Quiz Kids. With the uncanny ability to perform complex math problems in his head, Joel endeared himself to audiences across the country and became a national obsession. Following a childhood spent in the public eye, only to then fall victim to the same public's derision, Joel deliberately spent the remainder of his life removed from the world at large. With wit and heart, Michael Kupperman presents a fascinating account of mid-century radio and early television history, the pro-Jewish propaganda entertainment used to counteract anti-Semitism, and the early age of modern celebrity culture.
